DIRECTORS' REPORT

Your directors present their report on Zoono Group Limited ('Company') and its controlled entities (together called the 'Group' or the 'consolidated entity') for the half-year ended 31 December 2021.

All numbers stated in this report are in New Zealand dollars, unless otherwise stated.

Directors

The names of directors in office at any time during or since the end of the half-year are:

Mr. Paul Hyslop	Managing Director
Mr. Don Clarke	Independent Non-Executive Director
Ms. Elissa Hansen	Independent Non-Executive Director

Directors have been in office for the half-year ended 31 December 2021 and subsequently to the date of this report unless otherwise stated.

Company Secretary

Ms. Elissa Hansen.

Principal activities

The principal activities of the consolidated entity during the half-year were the development and sale of a range of antimicrobial products in multiple countries.

Operating result

The Group recorded an after-tax loss of NZ\$2,022,884 (2020: NZ\$1,907,909 profit) for the half-year.

Review of operations

Challenging and volatile market conditions:

Sales revenues were down materially in the first-half and on the prior corresponding period. This is attributed primarily to the following:

- customers holding inflated inventory levels generated by significant over-ordering in previous periods; and
- expected sales and new market initiatives taking longer than expected to build momentum.

Despite the disappointing result, cashflow is still positive in the first half and the Company remains in a strong financial position.

Growth opportunities

Driving revenue growth is and will continue to be the key focus across the Company. To that end, the Company notes the following positive developments:

- Zoono Animal Health UK has confirmed rollout of the Company's products to one of the largest chicken producers in the UK. Other major poultry producers are now trialing the products.
- Zoonex Systems, which has partnered with Astrea, a London-based asset manager, is progressing with the roll out of an antimicrobial system which dramatically improves air quality within buildings. The equipment, which is a first in the UK, uses Zoono products within building ventilation systems to reduce micro-organism counts and effectively turn building HVAC systems

into a 'viral defense mechanisms' for the buildings.

- Hospital trial - the Company recently concluded an independent and significant trial in a major hospital in Hungary. The results were very encouraging. Despite bed occupancy rates above 90%, CDI infections fell by 23% in the first month and by 77% in the second month, with none of VRE, MRSA or ESBL detected at the test sites after surface treatment by Zoono. Within the hospital, the reductions led to improvements in antibiotic consumption and mortality rates, reductions in the need to use extra protective clothing and reductions in cleaning costs and nursing time.

While there is much work to be done in this sector, which will take time and resources, the Company is optimistic about the potential for adoption and use of its products within the medical sector.

- Development is also continuing in the packaging industry and in the sanitization of shipping containers. The Company is part of several further trials in these areas, with an expectation of completion of the trials in February 2022. Consistent with these initiatives, a fruit packaging company based in South Africa that ships worldwide has signed an agreement to have all of its packaging treated with Zoono Z-71.
- In Australia and elsewhere, the Company has established a new pricing structure to support its authorised reseller and service provider programs. The Company is seeing positive signs of success from these changes as it again seeks to grow its reach within those markets. In Australia:
 - new B2C digital marketing campaigns have been successful;
 - sales via the Compass Group into Australian Defence Forces have grown and further growth is expected in 2022;
 - interest from Property Management and Facility Management customers is increasing; and
 - several airports and public transport entities continue to use Zoono products within their cleaning schedules and, as public use of this infrastructure returns to more normal levels in 2022, this is set to continue.
- Zoono has signed an initial five year exclusive contract with China Animal Husbandry Group. CAHG is a Chinese State Owned Enterprise specialising in all things regarding animal healthcare in China. Under the Agreement, Zoono and CAHG will work in close collaboration to aggressively expand the use of Zoono in the dairy, poultry and pig markets. CAHG are currently arranging for regulatory approvals, estimated to take 3 to 6 months, with the expected rollout commencing on receipt of these approvals. The approval timeframe for Zoono products for use in the veterinary sector in China has been dramatically reduced by partnering with CAHG as Chinese veterinary approvals usually take up to 2 years.
- Also in China, Zoono China continues to strengthen its relationship with China Southern Airlines and, in what is hoped to be the forerunner of broader industry use, the Company is working with China's largest disinfection robot manufacturer to jointly launch the 'ZOONO automatic disinfection robot'. Robots are currently being trialled at Beijing Daxing International Airport and Guangzhou Baiyun International Airport to sanitise public areas in those airports.

Future priorities

The Company's strategy remains laser focused on creating long-term sustainable growth which produces consistent, maintainable and growing returns to the shareholders. The key initiatives to support these efforts include:

- prioritisation of opportunities offering the greatest potential for long-term value creation (which, by definition, must include better identifying those market sectors and products where the Company believes it has a material commercial advantage);
- determining how the Company can best leverage its opportunities and tailor its messages for the different market segments;
- growing existing key customers and revenue streams in each of the Company's core markets; and
- supporting the commercialisation efforts of our strategic partners (ZOONO Animal Health and ZOONEX).

Financial Performance

In the 6 months to 31 December 2021, the operating revenue of the Group decreased by NZ\$8,343,435 over the prior corresponding period. This was primarily due to decreased orders received from current and new distributors, and contraction around the globe.

Gross profit achieved was NZ\$3,689,989 (60.7% of operating revenue, compared to 59.1% in the previous year). As noted above, while the gross profit improved over the prior corresponding period due to the product mix, operating revenues were lower.

Operating costs have increased by NZ\$393,688 primarily as a result of the legal settlement with Sky Scrapers General Trading LLC, comprising a provision of NZ\$1 million and legal costs incurred of NZ\$700,000 offset by a reduction in employee costs of NZ\$795,976; selling and marketing expenses, reduced by NZ\$315,459; and a reduction in other expenses of NZ\$837,410 as a result of reduced outside storage costs and postage and courier costs resulting from reduced online purchases.

The consolidated net loss after tax for the half-year was NZ\$2,022,884 (compared to a profit of NZ\$1,907,909 in the prior corresponding period).

Cash generation and capital management

Operating cash flow saw an inflow of NZ\$254,686 in the current half-year (compared to an inflow of NZ\$3,583,848 in the prior corresponding period). The decreased cash flow was predominately a result of lower revenues and higher legal costs generated in the half-year resulting in decreased cash collections and higher operating costs respectively.

Income in advance (primarily from pre-payments received under new Distribution Agreements entered into by the Company) recorded a Nil change during the current half-year. The Company expects each of these new Distribution Agreements will add to future operating revenues as stock is delivered and re-ordered.

Cash receipts of NZ\$7,652,619 for the half year was assisted from the trade receivables balance outstanding at the 2021 year end, that were collected during the half-year period.

The Group ended the half-year with NZ\$5,179,975 in cash reserves. The Group remains in a healthy cash position.

Employee Options

On 16 December 2019, Zoono granted senior management and staff 2,000,000 options, vesting on 16 December 2020, exercisable at A\$0.25 and expiring on 16 December 2023.

During the year, 1,075,000 options were exercised. The Group has 300,000 share options on issue at half-year end (2021: 1,375,000).

On 19 November 2021, Zoono granted senior management and staff 1,900,000 options, vesting on 19 November 2022, exercisable at A\$0.65 and expiring on 1 November 2025.

Auditor's independence declaration

An independence declaration has been provided by the Group's auditor, Hall Chadwick. A copy of this declaration is attached to, and forms part of, the financial report for the financial half-year ended 31 December 2021.

Signed in accordance with a resolution of the directors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2021

1. NATURE OF OPERATIONS

Zoono Group Limited and Subsidiaries (the Group) principal activities included the research, development and sale of a range of antimicrobial products in multiple countries.

2. GENERAL INFORMATION AND STATEMENT OF COMPLIANCE

These general purpose interim financial statements for the half-year reporting period ended 31 December 2021 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Zoono Group Limited (the Company) is the Ultimate Parent Company. Zoono Group Limited is a Public Company incorporated in Australia and domiciled in New Zealand. The Company's registered address is Level 12, 225 George Street Sydney NSW 2000 Australia.

This interim financial report is intended to provide users with an update on the latest half-year financial statements of Zoono Group Limited and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2021.

These interim financial statements were authorised to be issued on 24th February 2022.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Accounting Policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

b. Functional and Presentation Currencies

The functional currency of each of the group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated interim financial statements are presented in New Zealand dollars, which is the parent entity's functional currency.

13. CONTINGENT LIABILITIES

The directors are aware of two claims against the Company as at the date these financial statements are made up as follows:

- The claim by Qingdao Zoono Biotech Ltd (QZB) has been dismissed by order of the Court for failure on the part of QZB to comply with Court orders relating to security costs and to otherwise take action to pursue its claim. Please refer to the Annual Report 2021 for further information.
- The proceedings initiated by Sky Scrapers General Trading LLC (Sky Scrapers) following the Company's decision in 2020 to terminate its Distribution Agreement for the UAE and Oman has been resolved by mutual agreement of the parties. In practical terms, in return for the payment of US\$700,000 to Sky Scrapers (split 50:50 between cash and shares), which payment will be partially offset by the return of all stock currently held by Sky Scrapers, the Company has re-acquired complete control of the distribution of its products in the Region. While the Company does not accept that it had any liability to Sky Scrapers for termination of its Distribution Agreement, and had in fact initiated a sizeable counterclaim, the Company was persuaded to settle the claim to give certainty to its position in the Region and to avoid the significant management time and further legal costs which going to trial would undoubtedly involve. The Company now has the option to whether run the region directly or appoint a new distributor and is already in negotiations with several parties. Zoono Group Limited has made a provision of NZ\$1M in the half-year accounts for the settlement.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF
ZOONO GROUP LIMITED

Report on the Half-year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Zoono Group Limited, which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes to the financial statements including a summary of significant accounting policies, other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Zoono Group Limited is not in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of Zoono Group Limited's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis of Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities section of our report. We are independent of Zoono Group Limited in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Zoono Group Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Directors' Responsibility for the Half-Year Financial Report

The directors of Zoono Group Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF
ZOONO GROUP LIMITED

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410: *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of Zoono Group Limited's financial position as at 31 December 2021 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Zoono Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
