Kitzuma: Problem Solved & Core Services

PROBLEM KITZUMA IS SOLVING

Manufacturer builds up a new bike, then breaks it down again to box it up ---> Shipping company delivers it via truck / air cargo to the retailer / consumer; ----> Recipient has to unbox and rebuild the bike.
- Shipping bikes **"Ready To Ride"** (no boxes) across states, enabling more e-Commerce through a trustworthy service.
- Kitzuma ships all types of bikes including e-bikes (notoriously hard to ship.)

CORE SERVICES

- Weekly pick ups from stores. Bikes already built in retailers.
- Kitzuma ensures the bike is ready to ride upon delivery with the consumer.
- Kitzuma has built a logistics & booking platform for retailer access.

- Working with D2C brands as well now (Wahoo deal signed for US national delivery of indoor bike).
- Planned launch of a consumer service early in 2022 for shipping ready to ride bikes for people travelling with a bike. Designated travel hubs across North America to service pick up and drop off locations.

Kitzuma - Key Metrics

- Achieved run rate of over **US\$1.4 million annualised sales** (based on Dec 2021) in first year of trading.
- Annualised shipments of **6,700** (based on Dec 2021) - off a base of 35+ active accounts, with substantial growth in average shipments per week achieved in the 3 week trading months of November and December due to Thanksgiving and Christmas holidays.
- Growing brand sign ups accelerating over the last quarter. Strong brand growth potential demonstrated through existing relationships (Wahoo, Ventum, Litespeed, Quintana Roo, LeMond, Alchemy and ENVE).
- Average shipment revenue over US\$200 per bike. Contribution margin per bike approaching breakeven as business scales rapidly.
- Low current overlap between Kitzuma and BEX retail account base currently - strong growth opportunity.
- 35 key regional areas within North America identified, & Kitzuma delivers across all regions.
- Team of 29 people in the business based in North America.
- Efficiency / scaling comes with the volumes of shipments. Working from a fleet of vans.

Prior Year Revenue Restatement

FY21 Revenue Restatement

The Group has restated revenue for FY21. The restatement arises due to incorrect classification of sales taxes of a small proportion of e-Commerce transactions occurring prior to June 2021 in Europe which overstated revenue and understated sales taxes payable. The system misconfiguration that caused the incorrect classification has been identified and remediated and therefore there is no impact in the FY22 financial year.

The BikeExchange Ltd Interim Financial Report for the half year ended 31 December 2021 sets out full details of the impact of the restatement on the Groups financial statements. A summary of the restatement impact on FY21 revenue by quarter is set out in the table opposite.
