We have already made great progress with the integration of SocietyOne and are on track to realise the enormous synergy benefits.”

SocietyOne Acquisition Driving Immediate and Long-Term Growth

The acquisition of SocietyOne increased the Group's Gross Receivables at the end of 3Q22 by \$356m on a statutory basis and by \$452m on a proforma basis (that includes loans under SocietyOne's managed peer to peer program).

The key benefits of the acquisition include boosting revenue, customer and profit growth;

1. **Material cost synergy opportunities:** \$17m p.a. (pre-tax) from FY24 by removing duplicate functions, systems, premises, processes and lowering funding costs.
2. **Revenue opportunities from SocietyOne customer base:** \$15m p.a. (pre-tax) revenue synergies from FY24 by marketing MONEYME's diverse product suite to SocietyOne's unique customer base.
3. **Unlocking new distribution opportunities:** Leverage the Credit Score product with ~158k customers (a low-cost channel), expand the broker sales channel and the Banking-as-a-Service partnership opportunity with Westpac.

The post-acquisition integration ('Project Fusion'), is progressing well with several important milestones achieved in 3Q22:

- Acquisition successfully completed according to plan on the 15th March 2022
- New Executive Team appointed and announced
- The 1st of 2 stages of the people and premises cost reduction plan is complete.

The 4Q focus for Project Fusion is to:

- Initiate cross-selling to leverage the Credit Score customer base
- Initiate the implementation of the technology integration onto Horizon
- Execute the 2nd stage of the people cost reduction plan.
