OZ Minerals announces option to acquire Kalkaroo copper project in South Australia

- Terms Sheet executed with Havilah Resources in relation to:
 - an option to acquire the Kalkaroo project following an extended study period
 - a Strategic Alliance over the Curnamona Province in South Australia focused on new exploration prospects
- Kalkaroo is at pre-feasibility study stage and is potentially one of Australia's largest undeveloped open pit copper-gold deposits
- Potential for a scalable, low-cost, long-life asset in South Australia with province potential
- Proximate to OZ Minerals' existing South Australian operations
- Potential to add an advanced project to OZ Minerals' organic growth pipeline
- Study to focus on exploring for new resources, optimising project, scale and value and will include testing innovative approaches across the value chain
- Extended study period and terms enable value to be identified and shared by both parties; no obligation for OZ Minerals to exercise the option
- The grant and exercise of the option is conditional, including obtaining Havilah shareholder approval

Transaction Overview

OZ Minerals (ASX: OZL) today announced it has signed a conditional binding Terms Sheet with Havilah Resources Limited (ASX: HAV) setting out the basis of a new strategic relationship in the prospective Curnamona Province in South Australia, including the option to acquire the Kalkaroo project.

The Kalkaroo project consists of a Mineral Resource estimate of 245Mt @ 0.45% Cu and 0.39g/t Au¹ announced by Havilah in 2018 with Havilah having a large exploration tenement holding in the Curnamona Province.

The Terms Sheet provides OZ Minerals with a study period of up to 18 months (**Option and Alliance Period**) to evaluate the potential of the Kalkaroo project and the option to acquire 100 per cent of the Kalkaroo project (**Kalkaroo Option**) for a purchase price of \$205 million. OZ Minerals may elect

¹ Released by Havilah to the ASX: 30 January 2018 and 7 March 2018

to not exercise the Kalkaroo Option at any time during the Option and Alliance Period provided 5,000 metres have been drilled or a shortfall payment (metres not drilled multiplied by \$400) is paid to Havilah. In addition, the agreement provides a deferred contingent consideration of \$65 million, upon a 30% uplift in Kalkaroo's Measured and Indicated Resource estimate as well as a copper price linked contingent payment in each year of production up to a maximum cumulative amount of \$135 million.

Under the Strategic Alliance, OZ Minerals will pay Havilah \$1 million per month during the Option and Alliance Period, with 50 per cent of the payments directed towards Havilah identifying and advancing nearby exploration opportunities within the Curnamona Province. Including the monthly payment, OZ Minerals expects to spend up to \$76 million during the Option and Alliance Period to undertake studies and for exploration activities at the Kalkaroo project and on alliance activities.

OZ Minerals will have certain rights to accelerate exploration in discoveries of copper dominant mineralisation in the alliance area and to participate in developing any related projects.

Funding options for any potential acquisition of the Kalkaroo project will be evaluated by OZ Minerals during the Option and Alliance Period.

Management Commentary

OZ Minerals Managing Director and Chief Executive Officer, Andrew Cole, said:

"We are pleased to be working with Havilah and to have the opportunity to add an exciting project to our growth pipeline. The agreement allows OZ Minerals to apply our experience of looking at projects in a different way to unlock value during the study phase, while providing Havilah the opportunity to continue to apply its extensive exploration experience across the province to identify new deposits.

"The agreement provides a low-cost option and flexibility to study the Kalkaroo project, while retaining the optionality to acquire 100% of the project for a fixed acquisition price together with any deferred contingent consideration. If the study can demonstrate value creation for our Stakeholders the fixed component of the acquisition price ensures that OZ Minerals captures additional value identified through the study and provides Havilah shareholders with price certainty, while the deferred contingent consideration rewards Havilah for future value enhancing milestones.

"During the study period the team will focus on opportunities to identify additional value by assessing a range of Modern Mining opportunities, innovation, processing improvements and local infrastructure that reduce project costs and improve productivity. The aim of the study is to improve our understanding and confidence in the project, and will include an infill drilling program to confirm the current Mineral Resource estimate, prior to making a decision to exercise the option to acquire 100% of the Kalkaroo project.

"We believe our approach of taking projects from an early study phase through development and into operation can unlock significant value for our stakeholders, something we have demonstrated with

Carrapateena, now in its third year of operation, and continue to show with West Musgrave as we approach a final investment decision on the project later this year.

“We remain focused on adding multiple options, like Kalkaroo, to our growth pipeline. We have strong study and project construction experience enabling rapid deployment to new projects beyond West Musgrave (should the project be approved) and our current brownfields expansions at Prominent Hill and Carrapateena.

“We look forward to working in partnership with Havilah on the Kalkaroo project and Strategic Alliance.”

Conditions Precedent

The Kalkaroo Option and the Strategic Alliance are conditional upon:

- Havilah shareholder approval under ASX Listing Rule 11.2 in relation to the grant and exercise of the Kalkaroo Option (**Kalkaroo Transaction**) within 90 days from signing (subject to any agreed extension) (**Exclusivity Period**).
- An independent expert appointed by Havilah opining that the Kalkaroo Transaction is in the best interests of Havilah shareholders.
- Entry into formal definitive binding agreements.
- The Havilah Board unanimously recommending that Havilah shareholders vote in favour of the Kalkaroo Transaction in the absence of a superior proposal and subject to the independent expert to be appointed by Havilah opining that the Kalkaroo Transaction is in the best interests of Havilah shareholders.
- None of the Havilah Board members changing their recommendation or voting intention.

Havilah Board recommendation and voting intention

The Havilah Board has unanimously recommended that Havilah shareholders vote in favour of the Kalkaroo Transaction, and the Havilah Board members have confirmed their intention to vote in favour of any Havilah shares they hold or control, in each case in the absence of a superior proposal and subject to the independent expert to be appointed by Havilah opining that the Kalkaroo Transaction is in the best interests of Havilah shareholders.

Exclusivity and other arrangements

The parties have agreed that unless the Terms Sheet is terminated during the Exclusivity Period Havilah will not solicit any competing proposal or participate in any discussions or negotiations in relation to any competing proposal (unless failure to do so would involve a breach of the fiduciary duties of its Directors).

The Terms Sheet also contains other customary deal protection provisions including notification obligations and to make a counterproposal.

Havilah must pay OZ Minerals a break fee of \$1 million where the proposed transaction does not proceed due to a competing proposal or \$2 million where OZ Minerals terminates the Terms Sheet for breach or as a result of a change in recommendation or voting intention from a Havilah director (where there is no competing proposal) or as a result of the independent expert changing or withdrawing its opinion due to an act or omission by Havilah or any of its directors (without regard to any competing proposal).

Indicative timetable

Shareholders of Havilah will be asked to approve the Kalkaroo Transaction at a shareholder meeting, which is expected to be held in August 2022. The Option and Alliance Period will commence on satisfaction or waiver of the conditions.

- (b) does not constitute a breach of any law or obligation, or cause or result in a default under any agreement by which it is bound and which would prevent it from entering into and performing its obligations under this Terms Sheet.

1.2 Corporate authorisations

All necessary authorisations for the execution, delivery and performance by each of HAV and the HAV Subsidiaries of this Terms Sheet in accordance with its terms have been obtained.

1.3 Power and capacity

HAV and the HAV Subsidiaries each have full power and capacity to enter into and perform their respective obligations under this Terms Sheet.

1.4 No trust

HAV and the HAV Subsidiaries each enter into and perform this document on their own respective account and not as a trustee for or a nominee of any other person.

2 Tenements

2.1 Ownership

- (a) HAV and Kalkaroo Copper are the sole legal and beneficial owners of the Kalkaroo Tenements, free and clear of all Encumbrances, other than any caveat lodged by OZE against any of those Tenements.
- (b) HAV and the HAV Subsidiaries (excluding Kalkaroo Copper) are the sole legal and beneficial owners of the Tenements in the AOI, free and clear of all Encumbrances, other than and any caveat lodged by OZE against any of those Tenements or disclosed to OZL or OZE.

2.2 Right to transfer

HAV and the HAV Subsidiaries have full right, title and authority to transfer to OZE the interests that OZE may acquire under this Terms Sheet free from all Encumbrances.

2.3 Good standing

- (a) Each Tenement comprised in the Transaction Assets is in good standing and in full force and effect and is not liable to cancellation or forfeiture for any reason.

Binding Terms Sheet

- (b) Neither HAV nor any HAV Subsidiary have taken any action to surrender or relinquish all or any Tenement comprised in the Transaction Assets, except for compulsory relinquishment required in accordance with the Mining Act.
- (c) So far as HAV and the HAV Subsidiaries are aware there is no reason for any Tenement comprised in the Transaction Assets not to be renewed or granted other applicable extension rights.
- (d) HAV and the relevant HAV Subsidiaries have obtained, and have no reason to believe that they will not otherwise be able to obtain, all necessary approvals to ensure sufficient land access to the Tenements necessary to conduct Alliance Activities as contemplated under this Terms Sheet.

2.4 Compliance

- (a) HAV and the HAV Subsidiaries have complied in all material respects with all requirements imposed by all laws applying to any Tenement comprised in the Transaction Assets (including the obligation to pay all rents, fees, rates and royalties).
- (b) All security deposits or performance bonds required to be provided in connection with any Tenement comprised in the Transaction Assets have been lodged with the Department and have not been withdrawn.

2.5 Environmental

- (a) So far as HAV and the HAV Subsidiaries are aware, there are no factors affecting the Tenements comprised in the Transaction Assets which will, or would reasonably be likely to, give rise to any material liability for OZE:
 - (i) under; or
 - (ii) arising from any act or omission of HAV or any HAV Subsidiary, which is a breach of or inconsistent with obligations under,

any environmental laws.

- (b) So far as HAV and the HAV Subsidiaries are aware, Kalkaroo Copper has complied with all applicable environmental laws and environmental approvals granted, in each case in respect of any Tenement comprised in the Transaction Assets.
- (c) Neither HAV nor any Havilah Subsidiary has made any undertaking to a government agency concerning any environmental laws or environmental approvals granted, in each case in respect of the Transaction Assets.

2.6 No contamination

So far as HAV and the HAV Subsidiaries are aware, the Transaction Assets are not contaminated in any way which would entitle a government agency to issue any order, notice or direction in respect of any applicable environmental law.

Binding Terms Sheet
