

ASX Release | 27 May 2022  
*New Acland Stage 3 Update*

---

*NEW HOPE CORPORATION LIMITED*

ABN 38 010 653 844

New Hope Corporation Limited (**ASX: NHC**) (Company) advises that late yesterday the Coordinator-General issued her change report to the stated conditions for the Environmental Authority for New Acland Mine Stage 3. The Coordinator-General's change report satisfies a condition to the Land Court of Queensland's recommendation that New Acland Mine Stage 3's Mining Leases and the Environmental Authority amendment application be granted.

The issue of the Coordinator General's change report now enables the Department of Environment and Science to incorporate the Coordinator-General's amended stated conditions into the Environmental Authority and decide New Acland Mine's Environmental Authority amendment application. Following that, the remaining primary approvals are the granting of the Mining Leases by the Minister for Resources and the Associated Water Licence by the Department of Regional Development, Manufacturing and Water.

The Company is working collaboratively and productively with representatives from the various Government Departments to finalise the grant of the remaining approvals.

(ENDS)
