In general terms, section 708AA relates to rights issues by certain companies that do not require the provision of a prospectus or other disclosure document. Accordingly, the level of disclosure in this Offer Memorandum is considerably less than the level of disclosure required in a prospectus and does not contain all of the information which an investor may require to make an informed investment decision.

In deciding whether or not to accept the Offer, you should rely on your own knowledge of Native Mineral Resources Holdings Limited (NMR), refer to disclosures made by NMR to ASX (which are available for inspection on the ASX website at www.asx.com.au and on NMR's website at www.nmresources.com.au) and seek the advice of your professional adviser.

These factors include, among other things, commercial and other risks associated with the meeting of objectives and other investment considerations, as well as other matters not yet known to NMR or not currently considered material by NMR. Any representation in this Offer Memorandum should not be relied upon as to its accuracy or completeness or as a recommendation or forecast by NMR. NMR advises that independent advice be sought before making any binding decision in connection with the Offer.

No overseas offering

No offer is made by this Offer Memorandum in any jurisdiction outside of Australia and New Zealand. The distribution of this Offer Memorandum (including an electronic copy) within jurisdictions outside Australia and New Zealand may be restricted by law and persons into whose possession this Offer Memorandum comes should inform themselves about and observe any such restrictions.

This Offer Memorandum is not an investment statement or prospectus under New Zealand law, and does not contain all the information that an investment statement or prospectus under New Zealand law is required to contain. No person is authorised to give any information or to make any representation in connection with the Offer which is not contained in this Offer Memorandum. Any information or representation not so contained may not be relied on as having been authorised by NMR in connection with the Offer. Except as required by law, and only to the extent so required, none of NMR, or any other person, warrants or guarantees the future performance of NMR or any return on any investment made pursuant to the Offer.

CHAIR'S LETTER

Dear NMR Shareholder,

On behalf of the directors of Native Mineral Resources Holdings Limited (NMR) I am pleased to offer you the opportunity to participate in a non-renounceable rights issue of up to approximately 16,521,407 New Shares in total (based on NMR's undiluted share capital as at 7 July 2022, without taking into account the impact of rounding) to raise up to approximately A\$2.148 million (before expenses).

The Rights Issue offers Eligible Shareholders the right to take up one (1) New Share for every six (6) Shares they hold as at 5.00pm AEST on 13 July 2022, at an issue price of A\$0.13 (13.0 cents) per New Share. The issue price of the New Shares represents a discount of:

- 18.8% to the closing market price of NMR's Shares on 7 July 2022 (being the last trading day prior to announcement of the Offer) of A\$0.16 (or 16.0 cents) per Share; and
- 18.8% to the volume weighted average market price of NMR's Shares for the 5 trading days to close of trade on 7 July 2022 of A\$0.16 (16.0 cents) per Share.

Eligible Shareholders may also apply for additional New Shares in excess of their Entitlement at the same issue price of A\$0.13 (13.0 cents) per New Share. This is an opportunity for Eligible Shareholders to apply for additional Shares in order to top up their holdings at an attractive price.¹

The proceeds from the rights issue will be primarily towards ongoing exploration across the Company's tenements as well as general administration costs and its working capital requirements.

I am pleased that we have reached this stage and your Directors recommend this Rights Issue Offer to you as an opportunity to further participate in NMR's future.

The directors have indicated that they and entities associated with them intend to apply for at least 1,650,427 shares (\$214,556) out of their total entitlements of 9,800,609. Accordingly, a shortfall of at least 8,150,182 shares is expected.

You are encouraged to read this Offer Memorandum and the accompanying Entitlement and Acceptance Form fully. If you have any queries in relation to the Offer, you should consult your stockbroker or other professional advisor.

On behalf of your Board, I invite you to consider this investment opportunity and thank you for your ongoing support of NMR.

Yours faithfully,

James Walker
Non-Executive Chair

¹

There is no guarantee of the number of New Shares (if any) that will be available to Eligible Shareholders to top up their Shareholdings in addition to their Entitlements and the allocation of those New Shares among applicants will be at NMR's discretion.

SECTION 1: DETAILS OF THE OFFER

1. Offer

The Offer is a pro-rata non-renounceable entitlement offer of approximately 16,521,407 New Shares to Eligible Shareholders at an issue price of A\$0.13 (or 13.0 cents) per New Share.

Each Eligible Shareholder is entitled to subscribe for one (1) New Share for every six (6) Shares held by that Eligible Shareholder as at the Record Date, at an issue price of A\$0.13 (13.0 cents) per New Share.

The issue price of the New Shares represents a discount of:

- 18.8% to the closing market price of NMR's Shares on 7 July 2022 (being the last trading day prior to announcement of the Offer) of A\$0.16 (or 16.0 cents) per Share; and
- 18.8% to the volume weighted average market price of NMR's Shares for the 5 trading days to close of trade on 7 July 2022 of A\$0.16 (16.0 cents) per Share.

If an Eligible Shareholder becomes entitled to a fraction of a Share, the entitlement will be rounded up to the nearest whole number.

The New Shares will be fully paid and will rank equally in all respects with existing Shares on issue as at the date of this document.

2. What is my entitlement?

The number of New Shares to which you are entitled under the Offer is shown in the accompanying Entitlement and Acceptance Form (**Entitlement**). You can subscribe for all, or part, or none, of your Entitlement. Detailed instructions on how to accept all or part of your Entitlement are set out in Section 3.

Please note that if you choose not to accept your Entitlement your shareholding in NMR will be diluted to the extent that the Offer is taken up by other Shareholders and Shortfall Shares are allocated to Eligible Shareholders who elect to take up more than their Entitlement **or** allocated to other parties (see paragraph 3 of this Section 1 for further details).

3. Shortfall Shares

In addition to being able to apply for New Shares in the manner described in paragraph 2 above, Eligible Shareholders who subscribe for their full Entitlement will also have the opportunity to apply for additional New Shares that are not subscribed for under the Offer, subject to the limitations set out in Sections 3 and 4.

4. Opening and closing dates

The Offer opens for receipt of acceptances on Monday, 18 July 2022. The closing date and time for acceptances and payments is 5.00pm AEST time on Monday, 1 August 2022, subject to the Directors varying the closing date in accordance with the Listing Rules.

5. Who is entitled to participate in the Offer?

Each Shareholder with a registered address in Australia or New Zealand, who is registered as the holder of Shares as at 7.00pm AEST time on Wednesday 13 July 2022 is entitled to participate in the Offer in respect of the number of Shares that person is then registered as the holder of.

Existing Option holders may only participate in the Offer in respect of Shares to be issued on exercise of the Options held by them if they exercise their Options and are registered as the holder of the underlying Shares by the Record Date.

6. Offer not made to Excluded Shareholders

NMR has decided that it is unreasonable to make the Offer to Shareholders who have a registered address in a country outside of Australia or New Zealand having regard to the number of Shareholders in such places, the number and value of the New Shares they would be offered and the substantial costs of complying with the legal and regulatory requirements in those jurisdictions.

This Offer Memorandum does not constitute an offer to Excluded Shareholders and the Offer Memorandum will not be sent to Excluded Shareholders.

This Offer Memorandum and accompanying Entitlement and Acceptance Form do not constitute an offer for securities in any place in which, or to any person to whom, it would not be lawful to make such an offer. Shareholders holding Shares on behalf of persons who are resident outside of Australia or New Zealand are responsible for ensuring that subscribing for the New Shares under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will constitute a representation that there has been no breach of such regulations. Where the Offer Memorandum has been dispatched to Shareholders domiciled in a country outside Australia or New Zealand and where that country's securities code or legislation prohibits or restricts in any way the making of the Offer, the Offer Memorandum and accompanying Entitlement and Acceptance Form are provided for information purposes only.

7. Nominees

The Offer is being made to all Eligible Shareholders, who must be (among other things) registered as a holder of Shares in Australia or New Zealand and not be in the United States. NMR is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is permitted under applicable foreign laws.

8. Rights issue exception not available

No nominee has been appointed for Excluded Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of their Entitlement, they must have regard to section 606 of the Corporations Act. Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 as a result of acceptance of the Offer should seek professional advice before completing and returning the Entitlement and Acceptance Form.

9. Effect on share capital

The effect of the Offer on the capital structure of NMR will be as follows:

Shares	Number
Shares currently on issue	99,128,441
Maximum number of Shares to be issued under the Offer ¹	16,521,407
Maximum number of Shares on issue following the Offer	115,649,848

Notes:

1. This number may vary due to rounding of Entitlements and may increase as a result of the rounding up of New Shares offered under the Offer.

In addition, NMR currently has on issue 12,372,000 unlisted Options which have not been taken into account in the figures in the table above. If any of these Options are exercised prior to the Record Date, this will impact the maximum number of New Shares to be issued under the Offer and the maximum number of Shares on issue following the Offer specified in the table above.

The maximum number of Shares on issue following the Offer set out in the table above is:

- based on the undiluted share capital of NMR as at 7 July 2022;
- assumes all Shareholders take up their Entitlements in full or all of the Shortfall is issued to Eligible Shareholders or otherwise placed; and
- is approximate as individual Entitlements will be rounded up to the nearest whole figure.

10. Directors Interests and Participation

Each Director's relevant interest in the securities of the Company at the date of this Offer Memorandum, their Entitlement and committed take up of the Rights Issue Offer is set out in the table below.

Director	Shares	Options	Entitlement ¹	Take Up of Offer
Blake Cannavo	52,501,050	8,250,000	8,750,175	769,231
James Walker	2,169,266	756,000	361,545	192,307
Philip Gardener	4,133,334	756,000	688,889	688,889
Total	58,803,650	9,762,000	9,800,609	1,650,427

Notes:

1. This assumes that none of the Directors exercise their Options (as set out in this table).

11. Effect of the Offer on voting power in the Company

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 14.3% (as compared to their holdings and number of Shares on issue as at the date of this Offer Memorandum).

Examples of how the dilution may impact Shareholders are set out in the table below:

Holder	Holding as at Record date	Approximate % at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	Approximate % post Offer
Shareholder 1	6,000,000	6.05	1,000,000	6,000,000	5.19
Shareholder 2	1,200,000	1.21	200,000	1,200,000	1.04
Shareholder 3	600,000	0.61	100,000	600,000	0.52
Shareholder 4	100,000	0.10	16,667	100,000	0.09

12. Market Price of Shares

The Company is a disclosing entity for the purposes of the Corporations Act and its Shares are enhanced disclosure securities quoted on ASX.

The highest, lowest and last market sale prices of the Shares on ASX during the three months immediately preceding the date of release of this Offer Memorandum and the respective dates of those sales were:

	(\$)	Date
Highest	\$0.215	26 April 2022
Lowest	\$0.150	14 June 2022
Last	\$0.160	7 July 2022

13. Non-Renounceable Offer

The Offer is non-renounceable. This means that your right to subscribe for New Shares under the Offer is not transferable. Any Entitlements not taken up by Shareholders will be dealt with in accordance with Section 4.

14. Underwriting

The Offer is not underwritten.

15. Issue of New Shares

NMR expects that the New Shares will be issued by no later than 8 August 2022. The issue of New Shares will only be made after permission for their quotation on ASX has been granted. If you apply for Shortfall Shares then, subject to NMR's discretion to scale back your allocation of Shortfall Shares (in whole or in part), it is expected you will be issued those Shortfall Shares by no later than 8 August 2022.

SECTION 2: PURPOSE OF THE OFFER

The proceeds from the Rights Issue, will be primarily directed to activities associated with the ongoing exploration across the Company's tenements as well as general administration costs and its working capital requirements.

SECTION 3: HOW TO ACCEPT THE OFFER

1. How to take up all or part of your entitlement

To subscribe for New Shares offered to you, please follow the instructions on the enclosed Personalised Application Form for all, or that part of your Entitlement you wish to subscribe for.

You must make payment for the appropriate application monies at A\$0.13 (13.0 cents) per New Share subscribed) as provided in paragraph 4 below.

Acceptances will not be valid if they are received after the Closing Date.

Please note that all applications, once received, are irrevocable, except as permitted by law.

2. How to apply for Shortfall Shares

If you wish to accept your Entitlement in full and apply for Shortfall Shares, complete the Entitlement and Acceptance Form and also fill in the number of Shortfall Shares you wish to apply for in the space provided on the Entitlement and Acceptance Form. You must make payment for the appropriate application monies at A\$0.13 (13.0 cents) per New Share subscribed) as provided in paragraph 4 below.

There is no limit on the number of Shortfall Shares that may be applied for by Eligible Shareholders in excess of their Entitlement provided they would not as a result hold more than 19.9% of the Company's issued Shares. However, Shortfall Shares will only be issued if the Offer is undersubscribed and will only be issued to the extent necessary to make up any shortfall in subscriptions and at the discretion of the NMR Board.

The Directors reserve the right to reject any application for Shortfall Shares or to allot a lesser number of Shortfall Shares than applied for. Application monies received but not applied towards subscriptions for Shortfall Shares will be refunded as soon as practicable. No interest will be paid on application monies held and returned.

3. Lapse of Rights

If you decide not to accept all or part of your Entitlement, or fail to do so by the Closing Date, your Entitlement or unaccepted part of it will lapse and will form part of the Shortfall.

SECTION 4: SHORTFALL SHARES

Shortfall Shares will only be issued if the Offer is undersubscribed and will only be issued to the extent necessary to make up any shortfall in subscriptions.

If there is any Shortfall, the Shortfall Shares will, at the NMR Board's absolute discretion, first be allocated to Eligible Shareholders who have applied for Shortfall Shares.

If there remains a Shortfall after allocation of Shortfall Shares to Eligible Shareholders who have applied for Shortfall Shares, the Directors reserve the right to issue the remaining Shortfall Shares in their discretion, including to non-shareholders. Any Shortfall Shares so issued will, in accordance with the Listing Rules, be issued within 3 months after the Closing Date and will be issued at a price that is not less than the issue price of the New Shares under the Offer.

If NMR receives applications for Shortfall Shares that would result in the Offer being oversubscribed then it will not accept such oversubscriptions and will reject or scale back applications for Shortfall Shares at its discretion.

Allocation of any shortfall under the Rights Issue is at the discretion of the Company's directors, provided that if any shareholder who takes up shares in addition to their pro-rata entitlement would as a result hold greater than 19.9% of the shares in the Company following completion of the Rights Issue then the number of additional shares that they would be issued would be scaled back so that they do not hold greater than 19.9%.

NMR will not issue Shortfall Shares where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law. Eligible Shareholders wishing to apply for Shortfall Shares must consider whether the issue of the Shortfall Shares applied for would breach the Corporations Act, the Listing Rules or any other law having regard to their own circumstances.

SECTION 5: RISK FACTORS

The New Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Offer Memorandum and to consult their professional advisers before deciding whether to apply for New Shares pursuant to this Offer Memorandum.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

Limited trading history	<p>The Company has a limited trading history and the Company's Tenements are exploration stage only. The Company has never had any direct material interest in mineral producing properties. There is no assurance that commercial quantities of copper or gold will be discovered at any of the Tenements or any future tenements, nor is there any assurance that the exploration or development programs of the Company will yield any positive results.</p>
Exploration and evaluation risk	<p>The future value of the Company will depend on its ability to find and develop resources that are economically recoverable within its Tenements. Mineral exploration and development are inherently highly speculative and involve a significant degree of risk. There is no guarantee that economic mineralisation will be found, and if found, that it will be economic to extract these resources. The circumstances in which a mineral deposit becomes or remains commercially viable depends on a number of factors. These include the particular attributes of the deposits, such as size, grade, metallurgy, strip ratios and proximity to infrastructure as well as external factors such as supply and demand. This, along with other factors such as adverse weather, maintaining title to tenements and consents, successfully designing, constructing, commissioning and operating of projects and processing facilities may result in delays to planned works, projects not being developed, or operations becoming unprofitable.</p>
Environmental risk	<p>The Company's operations and projects are subject to laws and regulations that set standards regulating certain aspects of health and environmental quality, provide for penalties and other liabilities for the violation of such standards and establish,</p>

	<p>in certain circumstances, obligations to rehabilitate current and former facilities and locations where operations are or were conducted.</p> <p>As with most exploration projects, the Company's activities are expected to have an impact on the environment. Significant liability could be imposed on the Company for damages, clean-up costs, or penalties in the event of certain discharges into the environment, environmental damage caused by previous owners of property acquired by the Company, or non-compliance with environmental laws or regulations. It is the Company's intention to minimise this risk by conducting its activities to the highest standard of environmental obligation, including compliance with all environmental laws and where possible, by carrying appropriate insurance coverage.</p> <p>There is also a risk that the environmental laws and regulations may become more onerous, making the Company's operations more expensive. Amendments to current laws, regulations and permits governing operations and activities of exploration and mining companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in exploration expenses, capital expenditures or production costs or reduction in levels of production at producing properties or require abandonment or delays in development of new properties.</p>
Tenement risk	<p>The rights to mineral tenements (including exploration and retention licences) carry with them various obligations which the holder is required to comply with in order to ensure the continued good standing of the tenement and, specifically, obligations in regard to minimum expenditure levels and responsibilities in respect of the environment, community and safety. Failure to observe these requirements could prejudice the right to maintain title to a given area and result in government action to relinquish or forfeit a tenement or tenements.</p> <p>There is no guarantee that current or future tenement applications or existing tenement renewals will be granted, that they will be granted without undue delay, or that the Company can economically comply with any conditions imposed on any granted exploration tenement. No assurances can be given that the Tenement Applications will be granted to the Company.</p>
Native Title risk	<p>In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there may be areas over which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of the Company to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.</p>
Changes in commodity prices	<p>The Company's possible future revenues may be derived mainly from copper and gold and/or from royalties gained from potential joint ventures or other arrangements.</p> <p>Consequently, the Company's potential future earnings will likely be closely related to the price of copper and gold.</p> <p>If the Company is producing copper and/or gold and the market price of either were to fall below the costs of production and remain at such a level for any sustained period, the Company would experience losses and could have to curtail or suspend some or all of its proposed activities. In such circumstances, the Company would also have to assess the economic impact of any sustained lower commodity prices on recoverability.</p>
Land access risk	<p>Land access is critical for exploration and evaluation to succeed. In all cases the acquisition of prospective permits is a competitive business, in which proprietary</p>

	<p>knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential.</p> <p>Access to land for exploration purposes can be affected by small non-mechanised mining operations or land ownership, including registered and unregistered land interests and regulatory requirements within the jurisdiction where the Company operates.</p>
Grant of future authorisations to explore and mine	<p>If the Company discovers an economically viable mineral deposit that it then intends to develop, it will, among other things, require various approvals, licences and permits before it will be able to mine the deposit. There is no guarantee that the Company will be able to obtain all required approvals, licences and permits. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.</p>
Loss of key management personnel	<p>Native Mineral Resources relies on its ability to retain senior management and experienced personnel.</p>
