  - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
  - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

### **4.2 Principal Effect of the Offers**

The principal effect of the Offers (assuming that the Altor Options are issued and no other Securities are issued or exercised or converted) will be to:

- (a) increase the number of Options on issue from 33,199,170 Options as at the date of this Prospectus to 39,199,170 Options following completion of the Offers (after cancellation of the Original Altor Options);

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

#### **(c) Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(i) **Reconstruction, bonus issues, rights issues etc.**

- (i) If at any time the issued share capital of the Company is reconstructed (including by way of consolidation or share-split), then, subject to the Corporations Act and the ASX Listing Rules, the Options shall be reconstructed (including by way of consolidation or option-split) on the same basis so that the Optionholder is not prejudiced by such reconstruction of the Company's issued share capital.
- (ii) If the Company conducts a pro rata issue (except a bonus issue) of securities to its shareholders after the date of issue of the Options, the exercise price of the Options will be reduced in accordance with the formula set out in ASX Listing Rule 6.22.2. This clause is only applicable if the Company's shares are quoted on the ASX.
- (iii) If the Company conducts a bonus issue of securities to its shareholders after the date of issue of the Options, the number of securities over which an Option is exercisable will be increased by the number of securities which the Optionholder would have received if the Option had been exercised before the record date for the bonus issue. This clause is only applicable if the Company's shares are quoted on the ASX.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(k) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(l) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

(m) **Quotation**

The Company will not apply for quotation of the Options on the ASX (or any other exchange).

## **6. RISK FACTORS**

### **6.1 Introduction**

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

### **6.2 Company specific**

#### **(a) Going concern risk**

The Company's financial report for the half-year ended 31 December 2021 (released to ASX on 28 February 2022) includes notes on the financial condition of the Company Group and the possible existence of a material uncertainty about the Company Group's ability to continue as a going concern.

For the period ending 31 December 2021, the Company Group has incurred a loss before income tax and had negative cash flows from operating activities. These conditions, combined with the impact of an explosion occurred at the Company's Apple Tree Creek Pine Chemical Plant in November 2021 (which resulted in significant damage to plant and equipment and injuries with one contractor) indicate that a material uncertainty exists that may cast doubt on the Company Group's ability to continue as a going concern, and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Company has received confirmation from its insurance agent that it is indemnified by the insurers to replace damaged equipment. The Company has received progress payment of \$1,400,000 and the balance is expected to be received in instalments. The Company is currently working with its insurance providers to claim for repairs and replacements of damaged machinery and equipment as a result of the incident at the Apple Tree Creek plant. As a result of the incident at the Apple Tree Creek plant, the Company understand that WorkSafe Queensland may raise a penalty as is standard in similar scenarios. However, confirmation on the timing and extent of the penalty have not yet been provided. The Group has insurance coverage under its management liability policy in relation to penalties and fines. The explosion has been a setback to the Company, but management are currently working on plans for the road forward and as quick a return to operations as is possible.

Notwithstanding the 'going concern' paragraph included in the Company's financial reports, the Directors believe that the Company

upon completion of the Offers, will have sufficient funds to adequately meet the Company's current expenditure commitments and short term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company. Please refer to the "Additional requirements for capital" risk set out below for further details.

(b) **Additional requirements for capital**

The Company has secured short-term financing enabling it to acquire key equipment required to restore its plant, being a fit for-purpose solvent extractor with capacity to produce 16,000 tonnes per annum (TPA) of Leaf's natural pine chemical products, which is a doubling of the damaged plant's capacity. The Company is in the process of arranging permanent funding for the payment of related transportation, installation costs and general working capital to bring the Apple Tree Creek plant back into operation. Determination of the availability and timing of permanent funding will directly impact the likely downtime, viability of and timeframes for remediation and repair program.

The funds to be raised under the Placement as announced on 19 July 2022 are considered sufficient to meet the immediate objectives of the Company.

Additional funding may be required in the event costs exceed the Company's estimates and to effectively implement its business and operational plans in the future to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur. If such events occur, additional funding will be required.

Following completion of the Offers, the Company may seek to raise further funds. Failure to obtain sufficient financing for the Company's activities may result in delay and indefinite postponement of their activities and the proposed commercialisation, marketing and international expansion strategy. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing may not be favourable to the Company and might involve substantial dilution to Shareholders.

(c) **Insurance Claim**

Following from the incident at the Apple Tree Creek plant, the Company has received confirmation from its insurance agent that it is indemnified by the insurers to replace damaged equipment. The Company has received progress payment of \$1,400,000 of an expected total payout of \$4,600,000. The balance is expected to be received in instalments as the Company progresses in replacing the damaged machinery and equipment as a result of the incident at the Apple Tree Creek plant but there is a risk that the balance of the payout may not be received by the Company.

(d) **Workplace Health and Safety**

The Company is currently working with WorkSafe Queensland health and safety officers and have provided all data requests to WorkSafe Queensland and awaits its assessment. The Company understands that WorkSafe Queensland may raise a penalty as is standard in similar

scenarios. However, confirmation on the timing and extent of the penalty have not yet been provided.

There is a risk of worker fatality or injury while working at the Company's plant. The occurrence of an accident resulting in injury or death to a worker could materially affect the Company's reputation and expose the Company to claims and regulatory enquiries. Further, the Company may have difficulty retaining or employing employees if there are perceived safety concerns working at the Company's facilities.

(e) **Patent Risk**

Securing rights to intellectual property, and in particular patents, is an integral part of securing potential product value from the outcomes of research and development. Competition in retaining and sustaining protection of intellectual property and the complex nature of intellectual property can lead to expensive and lengthy patents disputes for which there can be no guaranteed outcome.

The granting of a patent does not guarantee that the rights of others are not infringed nor that competitors will not develop competing intellectual property that circumvents such patents. The Company's success depends, in part, on its ability to obtain patents, maintain trade secret protection and operate without infringing the proprietary rights of third parties.

Although the Company is not aware of any third party interests in relation to the intellectual property rights of their respective intellectual property, and each party has taken steps to protect and confirm its interest in these rights, there is always a risk of third parties claiming involvement in technological and discoveries, and if any disputes arise, they could adversely affect the Company.

Although the Company will implement all reasonable endeavours to protect its respective intellectual property, there can be no assurance that these measures have been or will be sufficient.

(f) **Know-how Risk**

There may be information leakage or parties may infringe on the intellectual property of the Company or duplicate its knowhow. Non-compete clauses are contained in the employment contracts of all existing management of the Company.

The Company also notes that the Company's know-how is a combination of over 30 years of experience, including information that is not documented.

(g) **Concentration Risk**

Having a single major customer can create significant commercial risks. Only having a single major customer means that the Company may be significantly impacted by events impacting that customer.

However, there is demand from other parties for product offtake. The Company will seek to mitigate buyer risk by securing offtake from other parties.

(h) **Counterparty Risk**

The Company has entered into various agreements with third parties. Any cessation of or delay in the performance of the counterparty's obligations or the counterparty's failure to comply with its contractual obligations could also have a significant adverse impact on the Company's operations and ultimately the financial performance of the Company and the value of the Company's securities.

As at the date of this Prospectus, the Company has no reason to believe that any of the counterparties it has contracted with will not meet and satisfy their obligations under relevant contracts.

In the event that any of the Company's counterparties become insolvent, it may be difficult for the Company to enforce its rights under the relevant agreements. As such, if any of the Company's counterparties cease to be financially viable, this may negatively impact the ongoing financial performance of the Company.

(i) **Demand Risk**

Although the Company has long-standing relationships with a number of its key customers, most sales are achieved on a spot or short-term contractual basis. There can be no guarantee that these relationships will continue or, if they do continue, that these relationships will generate sales equal to or greater than those achieved historically.

There is a risk that the Company may lose customers or suffer from a decline in demand from customers for a variety of reasons, including the following:

- (i) long-term demand factors that are out of the Company's control that affect the market for the Company's products generally;
- (ii) medium-term demand factors affecting the market generally, individual importing countries or customers; and
- (iii) short-term demand factors affecting individual importing countries and customers, such as temporary plant shutdowns, force majeure events and stock surplus.

As to product quality, conformity to contractual specifications is critical. Each export contract contains similar requirements which the product must meet. If contractual specifications are not met, or if the product quality or service delivered by the Company is not at a level expected by a customer, there is a risk that ongoing custom from that customer may reduce or cease entirely.

The loss of key customers, or a diminution in their custom, may materially and adversely impact the Company's revenue and profitability.

(j) **Supply Risk**

There is a risk that the Company may not be able to secure the pine log supply necessary to meet customer demand. This risk is most strongly influenced by:

- (i) whether plantation operators continue to grow plantation trees after the harvest of a rotation, having regard to prevailing land prices and best economic use of the plantation land;
- (ii) competition from other plantation investors for the acquisition of plantations
- (iii) competition from current and potential future rivals for the acquisition of plantation land or its offtake; and
- (iv) competition from acquirers of plantation trees for alternative purposes, such as the production of biofuels.

Lack of supply, or lack of supply at an acceptable price, may materially and adversely impact the Company's revenue and profitability.

(k) **Costs**

Like any similar business operating within the industry, the Company's profitability could be materially and adversely affected by increases in costs which are in many respects beyond its reasonable control. These include, without limitation, the costs of electricity, fuel, labour and harvesting and haulage costs.

(l) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company.

Further, there is a risk that the Company's business will be rendered less competitive by the emergence of new technology or competitors.

(m) **Take or pay contract risk**

The Company has entered into an agreement with HQ Plantations Pty Ltd (**HQ Plantations**) under which HQ Plantations has agreed to supply and the Company has agreed to buy pine logs. This agreement has a provision that the Company must make payments to HQ Plantations in pre-determined percentages of the full supply volume, in the event that the Company does not require the full 15,000 tonnes per annum of pine logs from HQ Plantations.

If productivity at Apple Tree Creek Project is lower than expected (for example, because the Plant cannot process the logs delivered by HQ Plantations), the Company will nevertheless be required to pay for the logs at the contracted rates, and to that extent may be paying for logs it does not require or is not able to achieve sales to cover this cost, which may have an adverse effect on the Company's business, its financial performance and its cash flows.

## **6.3 Industry specific**

### **(a) Regulatory or political risks**

The Company is subject to a range of legal, regulatory and industry compliance requirements including those relating to the environment, occupational health and safety, and transport chain of responsibility. There is a risk that changes to such laws, regulations and industry compliance standards would impose substantial increased costs of conducting business and, potentially, render uneconomic certain commercial activities undertaken today by the Company in the ordinary course of conducting its business.

There is also a risk that if the Company fails to comply with these laws, regulations and industry compliance standards, this may result in increased compliance costs, fines, statutory orders, litigation and, potentially, significant reputational damage. All of these may have a materially adverse impact on the Company's revenue and profitability.

### **(b) Currency risk**

Some transactions occur in a foreign currency, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, potentially exposing the Company to the fluctuations and volatility of the rate of exchange between foreign currencies and the Australian dollar as determined in international markets. For example, an appreciating Australian dollar may make EQ less competitive globally.

### **(c) Commodity price risk**

The Company is intending to derive revenue through the sale of rosin and terpene chemicals, which exposes the potential income of the Company to commodity price and exchange rate risks. The prices for rosin and terpene chemicals fluctuate and are affected by many factors beyond the control of the Company.

The Company intends to sell 100% of its production at market spot rates. The market is defined as a worldwide commodity and both rosin and terpene chemicals are sold by open and closed bidding processes directly to consuming chemical companies and selling agents. The Company will sell to both types of buyers.

### **(d) Force Majeure**

The Apple Tree Creek Plant now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

## **6.4 General risks**

### **(a) Coronavirus (COVID-19)**

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by

the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.

**(b) Ukraine Conflict**

The current evolving conflict between Ukraine and Russia (Ukraine Conflict) is impacting global economic markets. The nature and extent of the effect of the Ukraine Conflict on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine Conflict.

The Directors are continuing to closely monitor the potential secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine Conflict, including limitations on travel and changes to import/export restrictions and arrangements involving Russia, may adversely impact the Company's operations and are likely to be beyond the control of the Company. The Company is monitoring the situation closely and considers the impact of the Ukraine Conflict on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.

**(c) Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Placement. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its operations as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

**(d) Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

The Company may not be able to replace its senior management or key personnel with persons of equivalent expertise and experience within a reasonable period of time or at all and the Company may incur

additional expenses to recruit, train and retain personnel. Loss of such personnel may also have an adverse effect on the performance of the Company.

(e) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(f) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(g) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(h) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.

(i) **Litigation Risks**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, reputation, financial performance and financial position. The Company is not currently engaged in any litigation.

(j) **Climate Change Risks**

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(k) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

## **6.5 Speculative investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

**Remuneration**

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$350,000 per annum.

A Director may be paid fees or other amounts (ie non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise

performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total (and proposed) annual remuneration paid to both executive and non-executive directors.

## **7.9 Electronic Prospectus**

ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic prospectus and electronic application form on the basis of a paper prospectus lodged with the ASIC, and the publication of

notices referring to an electronic prospectus or electronic application form, subject to compliance with certain conditions.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Form. If you have not, please phone the Company on + 61 7 3188 9040 and the Company will send you, for free, either a hard copy or a further electronic copy of the Prospectus, or both.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or Prospectus or any of those documents were incomplete or altered.

#### **7.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship**

The Company will not be issuing Share certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

You can access, correct and update the personal information that we hold about you. Please contact the Company if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the *Corporations Act* and certain rules such as the ASX Settlement Operating Rules.
