### 1. Basis of preparation

This interim report for the half-year reporting period ended 30 June 2022 has been prepared in accordance with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Act 2001. Freelancer Limited is a for-profit entity for the purpose of preparing the interim financial statements. The financial statements are for the consolidated entity consisting of Freelancer Limited and its subsidiaries.

This consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 December 2021 and any public announcements made by Freelancer Limited during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001. These interim financial statements were authorised for issue on 27 July 2022.

The Directors believe that there are reasonable grounds that the company is able to pay its debts as and when they fall due. The Group has a significant cash balance at 30 June 2022 and has projected positive cash flow and a breakeven financial year for the full year ending 31 December 2022 based on increased revenue and cost containment.

### (a) Accounting policies

The accounting policies adopted in the preparation of the consolidated interim financial statements are consistent with those adopted in the Group's annual financial report for the year ended 31 December 2021.

### (b) Rounding of amounts

The Company has applied the relief available to it under ASIC Instrument 2016/191. Accordingly, amounts in the financial statements and Directors' Report have been rounded off to the nearest \$1,000.

### 2. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Board of Directors are identified as the CODM.

Identification of reportable operating segments

The Group is organised into two operating segments: namely an online marketplace and online payment services. These segments are based on the internal reports that are reviewed and used by the CODM in assessing performance and in determining the allocation of resources (AASB 8 para. 5(b)).

The CODM assesses the performance of the operating segments based on a measure of revenue and operating EBITDA (earnings before share based payments, interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The Group operates in Australia and has staff and operations in Philippines, United Kingdom, Argentina, United States and Canada in addition to Australia. These geographic operations are considered, based on internal management reporting and the allocation of resources by the Group's CODM, as one geographic segment. The information reported to the CODM is at least on a monthly basis.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF FREELANCER LIMITED

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
