

28 Jul 2022

June 2022 quarterly activities report

QUARTER 2 HIGHLIGHTS

Bird in Hand Gold Project

- Terramin has continued to progress the Mining Lease Application for its Bird in Hand Gold Project. The South Australian mining regulator continues to progress its final assessment of this application.

Tala Hamza Zinc Project

- Final regulatory approval of the Tala Hamza Zinc Project is proceeding with the joint venture partners responding to technical enquiries from various Algerian regulatory parties.
- Discussions are progressing with various service providers in respect of optimising concentrate transportation and power supply.

Kapunda In Situ Copper Recovery Project

- Terramin's joint venture partner, Environmental Copper Recovery Pty Ltd (ECR), continued to undertake its technical and environmental studies.

South Gawler Ranges Project

- Japan Oil, Gas and Metals National Corporation (JOGMEC) has received Foreign Investment Review Board (FIRB) approval in respect of the \$10.5 million exploration agreement.
- Exploration activity to commence in late July 2022.

Wild Horse Exploration

- Test work on the Wild Horse drill core is ongoing.

Corporate

- The Company's total cash balance¹ was \$5.79 million at the end of the quarter.

1. Please refer to Footnote 1 on page 7 of this report.

BIRD IN HAND GOLD PROJECT & ANGAS ZINC MINE SITE

100% owned by Terramin and its subsidiary Terramin Exploration Pty Ltd

The Bird in Hand Gold Project (BIHGP) is located approximately 30km north of Terramin's existing mining and processing facilities at the Angas Zinc Mine (Angas). The project has a high-grade Resource of 650,000 tonnes at 12.6g/t for 265,000 ounces of gold. A feasibility study showed that the BIHGP expected to generate a post-tax NPV₈ of \$141 million with an IRR of 80.5% over approximately 4 years of production. The project's base case projection is to produce an average of 44,700 ounces of gold per annum at a low C1 cash cost of \$737 per ounce and an all-in sustaining cost of \$959 per ounce. It is anticipated that, subject to required regulatory approvals, the Bird in Hand ore will be processed utilising the facilities at Angas which can be modified to process gold-bearing material. The existing tailings dam at Angas has the capacity to hold Bird in Hand tailings.

Terramin has continued to progress the Mining Lease Application for its BIHGP and the Miscellaneous Purposes Licence to allow the Angas site to treat the Bird in Hand ore. The South Australian Department for Energy and Mining (DEM) has continued to progress its assessment and is in the final phase of its assessment and approval process.

The Program for Environment Protection and Rehabilitation (PEPR) has been largely finalised and is ready for submission.

Terramin continues to engage with a number of parties which are interested in funding or investing in the project and is in receipt of a number of funding offers. There is strong interest from offtake parties, streaming and royalty companies, financial institutions and other mining companies.

The Angas site continued to be maintained in accordance with the DEM approved Mine Care and Maintenance Plan and is operating in compliance with its lease conditions.

Expenditure on the BIHGP and Angas site during the quarter was \$0.46 million (noting that this number includes care and maintenance costs at Angas).

TALA HAMZA ZINC PROJECT

100% owned by Western Mediterranean Zinc Spa (WMZ)

Terramin holds a 49% shareholding in WMZ. The remaining 51% is held by two Algerian government-owned companies: Entreprise Nationale des Produits Miniers Non-Ferreux et des Substances Utiles Spa (ENOF) (48.5%) and Office National de Recherche Géologique et Minière (ORGM) (2.5%).

Terramin is pleased to advise that the final regulatory approval of the Tala Hamza Zinc Project (Tala Hamza) is proceeding following the formal endorsement of Tala Hamza by Terramin's Algerian joint venture partners.

In March 2022, the joint venture partners agreed to advance the project towards development ('Decision to Mine'). The 'Decision to Mine' cleared the path for the issue of the mining permit which will be issued by the Algerian mining regulator (ANAM). WMZ has subsequently lodged all required documentation with ANAM and has received the requisite environmental clearance from the local government authority. WMZ is now finalising environmental clearance from the federal environmental authorities.

Discussions have been undertaken with various parties in respect of the transport of the project concentrate from the project site to the Port of Bejaia. This is a short distance of approximately 10km in which WMZ is considering both rail and road transport options.

Discussions with various electricity and gas providers are also underway. The mining permit abuts major existing electricity and gas infrastructure which provides the project multiple power supply options.

Consultation with the local community is ongoing with the Algerian project team focused on land access and the provision of water extraction licenses.

Expenditure on Tala Hamza during the quarter was \$0.18 million.

KAPUNDA IN SITU COPPPER RECOVERY PROJECT

25% free carried interest until completion of project thresholds

The Kapunda In Situ Copper Recovery Project is located near the township of Kapunda which is approximately 90km north of Adelaide. The project is focused on the recovery of copper and gold from a historical mining area through the use of in situ recovery. The project has a resource of 47.4 million tonnes at 0.25% copper containing 119,000 tonnes of copper.

During the quarter, our joint venture partner, ECR, trialled surface geophysical techniques while continuing to collect baseline environmental data before starting lixiviant trials with biodegradable acid to test the extraction of copper.

Laboratory scale testing on Kapunda groundwater samples using Ion exchange technology has been successfully completed, with loading and stripping to produce a copper sulphate product completed. Larger scale testing is planned to be undertaken with material from the push pull testing.

ECR are in discussions with a number of interested funding parties to undertake a mining lease application and build a small pilot plant for copper extraction.

EXPLORATION PROJECTS

100% owned by Terramin and Terramin subsidiaries Terramin Exploration Pty Ltd or Menninnie Metals Pty Ltd unless otherwise previously disclosed as part of a joint venture arrangement

The Adelaide Hills Project consists of eleven contiguous exploration tenements that cover 3,481km² and stretch from Lake Alexandrina to Kapunda. This project area is considered highly prospective for gold, copper, lead, zinc and rare earth elements.

Terramin's South Gawler Ranges Project is located along the southern margin of the Gawler Ranges, northern Eyre Peninsula, South Australia. The project comprises a group of eleven Exploration Licenses totaling 4,524km².

Wild Horse (Earn -in Agreement with Newmont Exploration Holdings Pty Ltd)

The drill core from the recently drilled Wild Horse hole is currently being assayed and Newmont is undertaking detailed analysis of the drill core.

South Gawler Ranges Project (SGRP) (Exploration Agreement with JOGMEC)

In March 2022, Terramin entered into a \$10.5 million agreement with JOGMEC for exploration of the SGRP.

Subsequent to entering into that agreement, JOGMEC has obtained approval from FIRB in respect of the agreement.

Terramin and JOGMEC have agreed on the exploration activities (including exploration budget) for the period up to March 2023 and these activities will begin on site in late July 2022.

Terramin's expenditure on the Adelaide Hills and South Gawler Ranges tenements was \$0.11 million.

1. Subject to an amalgamated expenditure arrangement with the Department for Energy and Mining (DEM) encompassing the Adelaide Hills tenements.
2. These tenements are subject to an exploration agreement with JOGMEC. Subject to an amalgamated expenditure arrangement with the DEM encompassing the Menninnie Metals (South Gawler Ranges) tenements.
3. The Wild Horse tenement is subject to an earn-in agreement with Newmont Exploration Holdings Pty Ltd.

CORPORATE AND ENVIROMENTAL PERFORMANCE

Terramin continued to pursue its safety and environmental goals during the quarter. There were no recordable injuries and no instances of non-compliance with relevant safety or environmental regulation or lease conditions.

During the quarter, no equity was issued and no unlisted options were exercised.

The Asipac Group debt facility limit is \$27.2 million¹. \$26.8 million has been drawn as at 30 June 2022.

At 30 June 2022, the Company's total cash balance² was \$5.79 million.

This ASX release was approved by the Terramin Board.

Forward Looking Statements

This announcement includes certain ‘forward looking statements’. All statements, other than statements of historical fact, are forward looking statements that involve various risks and uncertainties. There can be no assurances that such statements will prove accurate, and actual results and future events could differ materially from those anticipated in such statements. Such information contained herein represents management’s best judgement as of the date hereof based on information currently available. Except for statutory liability which cannot be excluded, each of Terramin, its officers, employees and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in this document and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this statement or any error or omission. The Company does not assume any obligation to update any forward-looking statement. Accordingly, no person or entity should place undue reliance on any forward looking statement.

Competent Persons Statement

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr Eric Whittaker (Tala Hamza and Exploration) and Mr Dan Brost (Bird-in-Hand), both being Competent Persons who are Member(s) of The Australasian Institute of Mining and Metallurgy (AusIMM). Mr Whittaker is employed as the Principal Resource Geologist of Terramin Australia Limited and Mr Brost is a geologist consulting to Terramin. Mr Whittaker and Mr Brost have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Competent Person(s) as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Whittaker and Mr Brost consent to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to Ore Reserves is based on information compiled or reviewed by Mr Luke Neesham, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy (AusIMM). Mr Neesham is Principal Mining Engineer for GO Mining Pty Ltd a consulting firm engaged by Terramin Australia Limited to prepare mining designs and schedules for the Tala Hamza Feasibility Study. Mr Neesham has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Neesham consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

7.	Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
	<i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1	Loan facilities	26,844	26,844
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	26,844	26,844
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	<p>At 30 June 2022, Terramin and its subsidiary, Terramin Exploration Pty Ltd (TZNEX) have secured Facility Agreements with major shareholder Asipac Group Pty Ltd (Asipac) totalling \$26.84m, incorporating the Short-term Facility \$20.84m and the Bird in Hand Facility \$6m, which was fully drawn at the reporting date.</p> <p>Asipac continues to support Terramin and on 22 July 2022 the Company announced (ASX Announcement: <i>Finance Facility Update</i>) an extension to the total facility limit from \$26.84m to 27.18m. The Company has submitted a request to the ASX seeking an update to the Waiver from Listing Rule 10.1 (ASX Announcement on 23 June 2022: <i>Grant of ASX Waiver</i>) to the extent necessary to permit the Company to grant security to Asipac over its TZNEX assets in respect of the increased facility limit.</p> <p>Terramin also announced (ASX Announcement on 22 July 2022: <i>Finance Facility Update</i>) that the term of the Facilities had been extended from 31 July 2022 to 31 October 2022.</p>		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(477)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(72)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(549)
8.4	Cash and cash equivalents at quarter end (item 4.6)	102
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	102
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.19
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
	8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: Yes	

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company continues to seek support in the short-term from major shareholder Asipac Group Pty Ltd, a long-standing supporter of the Company, to progress its mining lease applications in South Australia and Algeria. Concurrently, discussions with potential financiers / investors continue with a number of financing options currently being considered.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, refer to item 8.8.2 above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 July 2022.....

Authorised by: By the Board.....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
