Tim Rabbitt, CEO and Managing Director, noted:

“The year ended 30 June 2022 has been a mixed year for Acumentis.

Our newly acquired WA and SA businesses have performed well and our strong, well established, metro residential and regional teams continue to meet or exceed expectations delivering great outcomes for clients, the business and our employees.

However other areas of the business have not performed to our expectations. As a result, we have taken positive actions to restructure these business lines and the way we deliver our services which, together with changes to our IT&T, will reduce costs and improve profits.

With this restructure addressing loss making divisions and improvements to our operating efficiencies, we have positioned the business to deliver a much improved result for the coming year which confirms the strategies that we have successfully executed over the last 3 years.”
