Australian Bond Exchange Q4 FY22 Quarterly Activity Report

29 July 2022

Australian Bond Exchange Holdings Limited (ASX:ABE) ("Australian Bond Exchange" or "the company") releases its Appendix 4C Quarterly Cash Flow Report and Business Update for the quarter ended 30 June 2022 (Q4 FY22).

Highlights

- Private client revenue grew by 16% over the prior quarter and is up 245% compared to the same period last year.
- Growth was achieved through increased contributions from all private client revenue sources including brokerage revenue, trading margin, and bond product origination fees.
- Launched the Rolls Royce 5.5% and Goodyear Tire & Rubber Company 4.5% Bond Linked Securities adding to ABE's suite of unique first to market bond products.
- ABE continued to increase its marketing efforts contributing to an increase of approximately 68% new clients over the quarter.
- Positive net operating cash flow of \$1.1m for the quarter
- Strong debt-free balance sheet with available net cash of \$9.0 million

Australian Bond Exchange Holdings Limited ("ABE" or "the company"), an innovative financial services company providing access to the OTC bond market for private investors, is pleased to report strong private client revenue growth in Q4 FY22 continuing on its path to make bonds more accessible to retail investors and leveraging this largely untapped market in Australia.

During Q4 FY22 ABE's private client revenue was \$666k, growing 16% over the prior quarter and up 245% compared to the corresponding period the previous year. This growth was achieved through increased contributions across all private client revenue sources – brokerage revenue, trading margin, and bond product origination fees:

- Private Client Brokerage revenue was 190% higher compared to Q4 FY2021
- Private Client Trading revenue up 140% versus Q4 FY2021
- Bond Product Origination revenue up 511% versus Q4 FY2021

As previously noted, institutional trading revenue is opportunistic and will be booked as generated. All revenue generated in the quarter was derived from the growth in the private client business which is a key strategic priority for ABE.

Of note during the period was the launch of another two new bond products with a face value \$18 million adding to ABE's first to market product suite. The first was the Goodyear Tire & Rubber Company 4.5% Bond Linked Security which was launched in April. In June the Rolls Royce 5.5% Bond Linked Security was launched and oversubscribed by 60% leading to an upsize of the deal to accommodate the increased demand.

Bond linked securities are available to both wholesale and retail investors and the existing portfolio of products available through ABE linked to Jaguar Land Rover, Rolls Royce, Xerox Corporation and Goodyear Tires totals \$48 million face value.

The two new products were created via the innovative collaboration with ABE's global network of financial institution counterparties. This is in line with ABE's strategy to make it easier for retail investors to trade in the OTC bond market by providing attractive investments specifically designed for the Australian private investor.

During the quarter ABE increased the spend on marketing by a further 333% to \$0.34m, which contributed to 68% more new clients transacting during the quarter compared to the prior quarter.

Net operating cash flow for the quarter was positive, noting that the cash position needs to be viewed in conjunction with its inventory holding, receivables and payables to give a true reflection of the funding available to the business. At the end of the period, ABE was holding \$1,639,000 of inventory which is immediately available for sale to investors. The change in inventory balance, from \$5,398,000 at the end of the previous quarter resulted in a net positive operating cash flow.

About Australian Bond Exchange Holdings

Australian Bond Exchange Holdings (ASX: ABE) is an Australian financial services company that uses its proprietary technology to provide Australian Investors with access to the global financial markets. ABE has developed a direct, efficient and cost-effective system and method for facilitating the transaction and settlement of financial instruments that provides a transparent trading experience for investors, brokers and advisers.

In an era of low-yielding bank deposits, market uncertainty and increasing inflation, investors are searching for higher-yielding investments that offer greater capital protection. Through our innovative technology, we're eliminating barriers to entry to the bond market, providing improved access, more efficient trading, lower transaction costs, and introducing new levels of transparency.
