ASX Announcement

STE name change to Mayfield Services Pty Ltd

Mayfield Group Holdings Ltd (**MYG**) announces the name change and rebranding of our subsidiary STE Solutions Pty Ltd to Mayfield Services Pty Ltd (**Mayfield Services**).

This change reflects the change in operating arrangements where there is now greater strategic alignment between Mayfield Services and MGH's manufacturing subsidiary, Mayfield Industries Pty Ltd (**Mayfield Industries**).

Mayfield Services will add Low voltage services to its current High and Medium voltage switching and maintenance services to operators of critical electrical infrastructure. In particular, these services will be offered to owners of Mayfield Industries' supplied proprietary switchboards and transportable switchrooms.

With this change, Mayfield Services will limit electrical infrastructure construction works to asset replacement works as part of maintenance.

This announcement is authorised by the Managing Director of MYG, Jon Hobbs.
