MONTHLY SUMMARY

MCGG.ASX, via its holding in the underlying Munro Concentrated Global Growth Fund, returned -4.3% in June (-7.7% from equities and 3.5% from currency), while the MSCI World (Ex-Aus) returned -4.6% (-7.8% from equities and 3.1% from currency). The first half of 2022 has been the toughest start to any year since 1962 and the month of June was also difficult. Inflation concerns, interest rate uncertainty and fears of a potential recession have led to the falls in equity markets. More recession-proof positions were the top contributors, with health care provider, UnitedHealth Group, and consumer staples leader, Costco, adding to monthly performance. High Performance Compute positions, AMD, ASML and NVIDIA, were the key detractors as fears of a potential weakness in consumer demand escalated.
