# Company overview: XPON is a Cloud and MarTech company

XPON (ASX:XPON) is a founder-led Marketing Technology and Cloud Business providing mission-critical services and software solutions to businesses in Australia, New Zealand, the United Kingdom and Europe.

We strive to unlock exponential growth for our colleagues, customers, partners, communities, and shareholders. Our people implement a solid cloud foundation that helps our customers better leverage their First Party data, and our technology enables our customers to deliver a more valuable, personalised, and secure customer experience.

XPON is a remote-first organisation, with more than 135 talented colleagues around the globe. We are united in our purpose and Core Values - and approach our work knowing that we can realise Limitless Potential when we are Brave Enough; Lead with Curiosity; Own It, and Grow Together.

**We help businesses  
make sense of their  
customer data,**

**and use it to unlock  
exponential growth.**

# Macro business drivers

## Convergence of trends position XPON for growth, including:

- the increased data privacy and security regulation by governments;
- the continued degradation of third-party advertising cookies;
- the increased demand for personalised experience by end consumers; and
- an increased awareness and interest around Extended Reality (XR) and the journey to the Metaverse based around XPON's HoloScribe platform

# Scalable complementary offerings

## XPON Technologies

Initially lands a customer by deploying and optimising marketing technologies (MarTech) and advertising technologies (AdTech); leveraging Big Data Analytics (BDA) to improve marketing effectiveness; developing consumer-facing applications and digital experiences; supporting cloud infrastructure and technologies.

## XPON Platforms

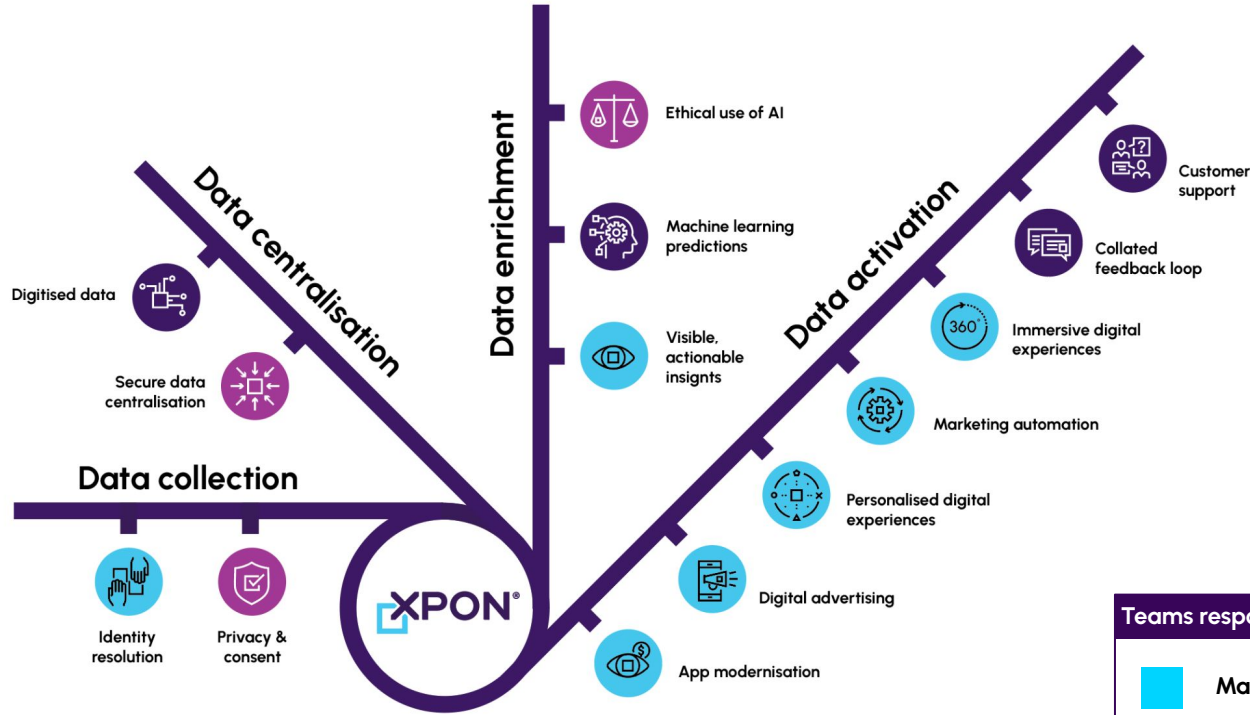

Develops innovative proprietary technologies - powered by machine learning (ML) and artificial intelligence (AI) - that enable businesses to create highly personalised, deeply immersive digital experiences with consumers.

XPON's flagship Customer Data Platform (CDP), Wondaris<sup>®</sup>, centralises customer and marketing data and generates actionable insights for automated campaign activation.

XPON's Extended Reality technology Holoscribe offers easy publication of 360-degree content that enables brands to create highly immersive digital experiences.

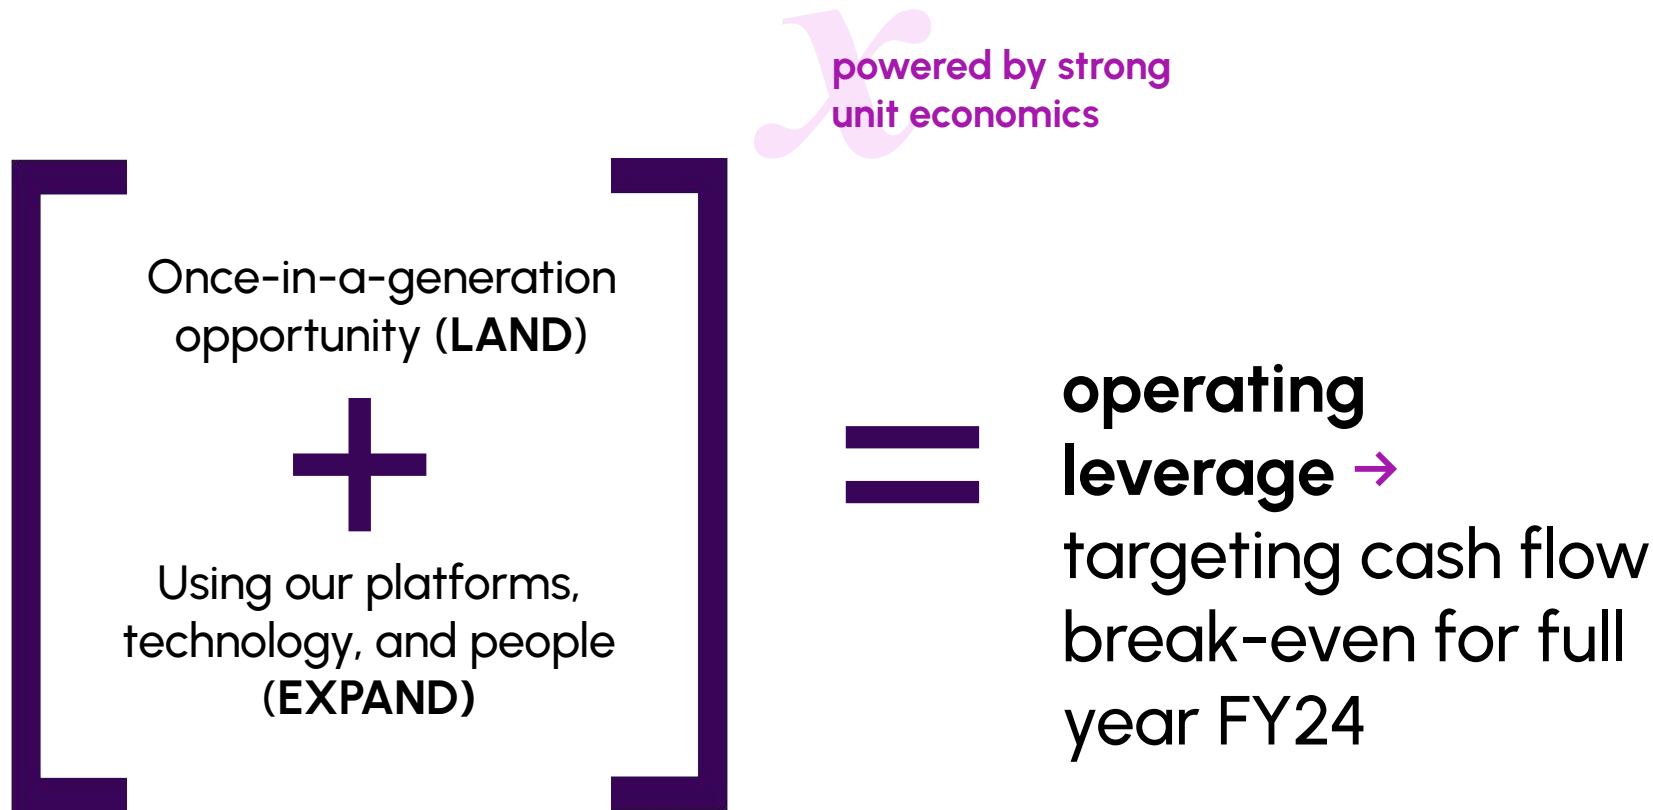

# Industry value chain

XPON serves as a catalyst to break down data silos, so the organisation benefits from a secure, holistic view of their consumer.

# Expanding the Wondaris® ecosystem

- Wondaris® selected as an ARN Innovation Awards finalist, which recognises Australian technology ecosystem innovation
- The Wondaris® platform achieves ISO27001:2013 certification for information security management in Q3
- Wondaris® integrates with Fivetran, enabling more than 180 additional data connections into the platform in Q2
- Wondaris® becomes a Google Customer Match Uploader (CMU) partner, an approved third party provider for Google Ads in Q4

# Case Study: University of Sunshine Coast (UniSC)

Unable to provide an on-campus recruitment experience during the COVID-19 pandemic, UniSC needed an immersive, highly-personalised way to share its campuses with prospective students.

In its first year, UniSC's Virtual Open Day received more than 10,000 registered attendees, with an

**average pages / session uplift of 3.7x\*.**

By leveraging the combined power of both XPON platforms, UniSC has been able to collect higher quality data in subsequent years, creating incrementally better digital experiences for school leavers, their families, and mature students' decision-making criteria.

# Appendix 2: Glossary

**Annualised Recurring Revenue (ARR):** represents monthly contracted recurring revenue multiplied by 12. An annualised measure of the revenue that XPON expects to earn from its customers on a repeatable basis. This metric shows the impact of new customer contracts less any churn from customers leaving or downgrading their contracts.

**Year-on-Year (YoY) ARR Growth Rate (%):** shows the change in XPON's ARR over a rolling 12-month time frame. This metric demonstrates the impact of the acquisition of new customers, the retention of customers and the expansion of existing customer contracts less any churn from customer's leaving or downgrading their contracts over a 12-month time frame.

**Average Revenue Per Customer (ARPC):** calculated as annual revenue for the last 12 months divided by the number of customers at that time (and divided by 12 to get a monthly view).

**Monthly Retention Rate:** the percentage of customers that are retained on a monthly basis and are not lost due to customer churn over the last 12 months (and divided by 12 to get a monthly view).

**Lifetime Value (LTV):** LTV per customer is the gross profit expected on average from a recurring customer over their lifetime. This is calculated by taking the average customer lifetime (1 minus the monthly retention rate to get monthly churn, then 1 divided by churn) multiplied by ARPC, multiplied by the gross margin percentage for the last quarter. Total LTV represents the total gross profit XPON expects to receive from its current recurring customer base by taking the average LTV per customer and multiplying it by the number of recurring customers.

**Customer Acquisition Costs (CAC):** calculated by total customer acquisition costs spent on acquiring customers over the last 12 month period divided by the number of customers acquired during the period. It includes 80% of the salary costs of all sales & marketing team members and 100% of sales commissions, advertising costs, costs for customer marketing activities and resources.

**CAC Payback:** the average number of months that it takes for XPON to receive back its customer acquisition costs.

**LTV/CAC Ratio:** LTV divided by CAC, expressed as a ratio to indicate the net return on the cost of acquiring a customer on average, after cost of sales and before operating expenses.

**Customer Revenue Retention Rate (CRRR):** the percentage of recurring revenue retained from existing customers over the last 12 months. This accounts for increased revenue from existing customers utilising more of XPON's solutions and lost revenue due to churned customers.

**GTM:** Go-to-market, meaning the strategy by which XPON wins business.

**Recurring Revenue:** revenue realised from the sale of software licences, managed service subscriptions and usage fees.

**Non Recurring Revenue:** revenue realised from the sale of one-off project services, onboarding and implementation fees.
