

Company Announcements Office  
Australia Securities Exchange  
Level 4, 20 Bridge Street  
Sydney NSW 2000

2 September 2022

#### **Withdrawal of statement from presentation**

On 21 July 2022, Diatreme Resources Ltd (“**Diatreme**” or the “**Company**”) released a presentation titled “Noosa Mining Conference Presentation” (“**Presentation**”). The Presentation contained the following statement and associated footnote on page 13 (“**Statement**”):

*“1.3-2Mtpa Production (GSSP), potentially scalable to 3-5Mtpa (GSSP+NRP)\* within 5 years, aligned to Diatreme low impact model and future silica market demands*

*\*GSSP+NRP production forecasts subject to further resource definition, and advancement through government permitting and approvals”*

Following consultation with the ASX, the Company would like to retract from the statement the words: “*potentially scalable to 3-5Mtpa (GSSP+NRP)\* within 5 years*”, and the associated footnote.

The Company advises investors that they should not rely on that retracted information as the basis for any investment decision.

The Company looks forward to releasing to market as appropriate further resource category upgrades as the exploration programs advance.

This announcement has been authorised for release by the board of directors of the Company.
