## Hills wins Nurse Call tender for the New Footscray Hospital

Hills Limited (ASX: HIL) (**Hills**) is pleased to announce that it has secured the Nurse Call contract for the New Footscray Hospital – the single largest health infrastructure investment in Victoria.

Hills will deliver its leading-edge Nurse Call technology as part of the Plenary Health consortium – led by Multiplex including Honeywell and Compass – working in partnership with Appselec, an industry leader in electrical and communications contracting services.

Hills Chief Executive Officer David Clarke said: “The team at Hills is proud to be trusted by the Victorian Government and consortium partners to deliver this critical element of the project. By selecting Hills and our Australian designed and manufactured Nurse Call technology, the Plenary Health consortium led by builder Multiplex has recognised our capability and reliability to deliver projects of this scale.”

The New Footscray Hospital will provide a comprehensive suite of critical healthcare services in one of the fastest-growing areas of Melbourne, enabling more than 15,000 patients a year to access care close to their homes.

The Hills Nurse Call platform will be deployed to more than 500 beds and includes the integration of new smart touchscreen terminals in every patient room. The combination of Hills Nurse Call platform with these terminals will support improved workflow management for both clinical and operational activities.

Construction of the hospital is well underway on the corner of Geelong and Ballarat Roads Footscray, with an expected opening in late 2025. The Hills supply and installation contract is estimated at \$7 million, with a further option to continue in the hospital operating phase following completion.

*This ASX announcement is authorised for release by the Board of Hills Limited.*
