WORLEY LIMITED (WORLEY)

(ASX: WOR)

Worley and Grand Isle Shipyard awarded contract for bp services in Gulf of Mexico

GW Integrated Solutions LLC (GWIS), a consortium of Worley and Grand Isle Shipyard (GIS), has been awarded a contract to provide engineering, procurement, fabrication and construction services to bp-operated offshore assets in the Gulf of Mexico, USA.

The term of the contract is five years and is expected to include brownfield projects, turnarounds and repair orders, enabling life extension of bp's existing offshore assets in the Gulf of Mexico. The consortium will use technology and digital tools, including EcoSys, Microsoft's HoloLens and Power BI, for efficient project delivery under the contract. Worley's services will be led by Worley's Houston operations with support from our Global Integrated Delivery (GID) team in India.

This new contract is a continuation of a previous five-year Master Services Agreement for similar services announced on 23 February 2017.

"We are pleased to strengthen our decades-long relationship with bp and to deliver services for these offshore assets in the Gulf of Mexico with a focus on deriving operational efficiency through digital enablement," said Chris Ashton, Chief Executive Officer of Worley.

Authorized for release by Nuala O'Leary, Group Company Secretary.
