#### ***Commenting; Bounty's CEO, Philip Kelso said:***

"With the current strong oil price Bounty is participating in additional Cooper Basin; Naccowlah Block drilling to exploit the prolific Birkhead and Hutton zones. Continued Block oil production will provide a platform for Bounty to also lever production from its operated Surat Basin proven oil reserves.

The PEP 11 Joint Venture led by its operator BPH Energy Limited (ASX: BPH) is pursuing action in the Federal Court of Australia to reverse the last Federal Governments unprecedented decision to stop gas exploration on a multi TCF gas prospect 40km offshore southeast of Newcastle. The Federal Government has been directed to produce all documents behind that decision early next month and the PEP 11 Joint Venture calls on all of our elected Federal and NSW representatives to

show real leadership and allow Australian companies to have secure titles free from sovereign risk and to use their skill and resources to explore for natural gas in East Australia where there is a serious gas shortage affecting in particular our strategic East Australia secondary industries and retail consumers.”
