LETTER FROM THE CHAIR

Dear fellow shareholder,

On behalf of the directors of EZZ Life Science Holdings Limited (“EZZ” or “Company”), it is my pleasure to present the annual report for the year ended 30 June 2022.

In 2022, we continued to operate in uncertain times with the COVID-19 pandemic providing many challenges to the macroeconomic outlook. I am very proud of the approach the EZZ team has taken to sustain the Company’s performance despite the social, health, and economic volatilities over the past year to deliver another solid financial result.

Over the last twelve months, there have been a number of positive changes at EZZ and we remain committed to building a life sciences company for the future.

Financial Highlights

- In the first half of FY22, a strategic decision was made to reduce marketing and advertising expenditure in response to continued market uncertainties, which led to a decline in revenue by approximately 50% from \$13 million in 1H FY21 to \$6 million in 1H FY22.
- The Company’s financial performance rebounded strongly in the second half of FY22 generating revenue of \$9 million.
- The EZZ team delivered a successful turnaround by diversifying key distribution channels, increasing revenue by 42% from 1H FY22 and bringing total revenue for FY22 to over \$15 million.

In a challenging macro environment EZZ has maintained profitability and balance sheet strength with \$10.5 million cash at bank at period end, placing the Company in a strong position to pursue growth initiatives.

CEO Search

The search for a new Chief Executive Officer is underway following the resignation of Mr Luis F. Rodriguez Bravo. The Board is focused on strengthening the mix of skills, experience, and market knowledge to support the Company’s long-term sustainable competitive advantage and growth.

Board Changes

I would like to take this opportunity to sincerely thank Ms Phillipa Lewis who resigned from the Board. Ms Lewis has served as a non-executive Chair since 27 October 2020 and has made a significant contribution to the success of the Company including its listing on the Australian Securities Exchange (ASX). The Board wishes her all the best in the future.

The Board is pleased with the Company’s performance and recognises the Company’s results in an environment with multiple challenges are truly impressive.

On behalf of the Board, I would like to congratulate the EZZ team on the strong financial results for FY22. I would also like to thank my fellow directors for their support and continued contribution.

Finally, thank you to our shareholders and all our stakeholders who have recognised the achievements of EZZ, invested in its future success and continue to support us. We look forward to delivering continued value for all stakeholders as the company pursues its plans for further strategic growth.

EZZ is well positioned to emerge in both domestic and international markets with improved channel diversification, market driven product development, and a deeply knowledgeable leadership team as it drives sustainable growth.

Glenn Cross

Non-Executive Chair

CHIEF EXECUTIVE OFFICER'S LETTER

Dear shareholders,

It is my pleasure to provide this update on the performance of EZZ Life Science Holdings Limited in FY22.

EZZ develops, produces and markets a range of health and wellbeing products under the EZZ brand both domestically and internationally. It also distributes a series of skincare products under the EAORON brand in both Australia and New Zealand.

This year EZZ has achieved another year of solid progress by capitalising on the team's ability to capture emerging opportunities in an unpredictable and often challenging external market environment. Our omni-channel direct-to-consumer strategy has been optimised to deliver improved results with a focus on high growth markets and product categories. Momentum continues to build on top of market-driven product development, diversified distribution channels and digitally-focused marketing strategies.

FY22 started with a developmental growth opportunity for EZZ. Instead of relying on one key distribution channel for the EZZ branded products, the EZZ team successfully expanded to multiple channels to build a future-proof distribution network. In addition to Tmall Global, the Company commenced a cross-border e-commerce store on Douyin, mainland China's version of TikTok, and delivered revenue growth exceeding management's expectations in the first month of operation. Despite revenue declining by 33% during FY22 compared to the prior financial year, which mainly occurred in 1H FY22, there was a significant rebound by 42% in 2H FY22 which led to total revenue for the period exceeding \$15 million.

In addition to pivoting the distribution channel landscape, last year marks another year of success in product innovation by adapting to rapid shifts in consumer behaviour. The Company introduced seven new products under the EZZ brand in FY22. Our L-Lysine Growth Capsule became another flagship product contributing 27% to the revenue derived from EZZ branded products. Our market-driven product development approach continues to differentiate EZZ from its competitors.

EZZ's own e-commerce platform has also commenced operation, which will unlock data backed analytical capability to enable data driven decision making and improve efficiency of scale. The investment in our in-house e-commerce capability is expected to significantly reduce marketing expenses and generate strong incremental EBITDA growth over the next three years. It will also provide opportunities to upgrade the skills of EZZ's experienced operations team and improve the way EZZ's customers are served. This platform will also enable new technology-backed services, strengthening our sustainable long-term competitive advantage and fuel our next phrase of organic growth.

Guided by our vision of 'improving quality of life and human health' and clear strategies to transform to a fully integrated genomic life science company, our highly capable team has navigated through a series of challenging contexts in domestic and international markets. I would like to recognise our customers, channel partners, suppliers, and employees who have remained resilient and determined despite the challenges presented over the past year. I am also thankful to all shareholders who have confidence in EZZ and continue to support our vision.

I am excited for what FY23 holds for EZZ. Our team continues to build strong cross-functional support including genomic research, in-house manufacturing, omni-channel sales and marketing, and in-house data analytics technology. We look forward to achieving our immediate and long-term targets and deliver value to our shareholders.

Qizhou Qin

Interim Chief Executive Officer

EZZ

OPERATING AND FINANCIAL REVIEW

Overview

Despite the significant market uncertainties brought on by the pandemic related lockdowns in the first half of the financial year, the Company remained disciplined and continued to work towards its long-run growth objectives, which delivered a successful conclusion to FY22. The Company's diversification of its distribution channels led to a substantial improvement in revenue and cash flow from operations in 2H FY22 and when combined with the strong cash balance, the Company is in a robust financial position for future growth.

Highlights

- Rapid revenue recovery in 2H FY22 from 1H FY22, with FY22 revenue totalling \$15,022,026
- Strong upturn in normalised EBITDA in 2H FY22 leading to total normalised EBITDA of \$1,760,741 in FY22
- Substantial improvement in cashflow from operating activities by 7.5 times, to \$1,901,730 in FY22 compared to FY21
- Significant optimisation of cashflow conversion rate from 0.1 in FY21 to 1.4 in FY22
- Strong cash position of \$10.5 million as at 30 June 2022, representing an 18% increase from 30 June 2021
- Nil external interest-bearing debt other than lease liabilities

Financial Performance

(a) Revenue drivers

The Company's revenue declined by 33% from \$22,287,078 in FY21 to \$15,022,026 in FY22 largely due to the continuing impacts of the COVID-19 pandemic. However, the second half of FY22 saw a strong rebound in sales revenue for EZZ products, with a 24% increase compared to the previous corresponding period, as well as a 96% increase when compared to the first half of FY22.

(i) Segment performance

The revenue contribution from EZZ branded products reduced by 28% from \$11,369,044 in FY21 to \$8,138,851 in FY22, representing 54% of the total revenue in FY22. This was mainly driven by a combination of the following events:

- The revenue generated through Tmall Global as a key distribution channel, which contributed 43% of the total revenue in 2021, dropped by 76% to \$2,324,652 in FY22, representing only 15% of total revenue. The decrease in revenue through Tmall Global in 1H FY22 was progressively recovered in 2H FY22.
- On 8 June 2022, the Company commenced a cross-border e-commerce store on Douyin, mainland China's version of TikTok, as an alternate direct-to-customer channel to Tmall Global. Revenue growth from this new channel exceeded management's expectations in the first month of operation. Douyin is expected to become another key e-commerce platform along with Tmall Global and reduce the level of concentration on single e-commerce platforms in China's market.
- The Company expanded the EZZ branded product range by introducing seven new products with three products contributing 16% of total revenue in FY22 and four products launched at the end of FY22. L-Lysine Growth Capsule was introduced in July 2021 and represents another successful high margin product which contributed 27% to the revenue from EZZ branded products.
- Revenue generated from sales of EAORON branded products also reduced by 37% from \$10,918,034 in FY21 to \$6,883,175 in FY22, contributing 46% of total revenue in FY22. This was largely due to COVID-19's adverse impact on the trading footfall of retail outlets, which is the primary distribution channel of EAORON branded products across Australia and New Zealand.

OPERATING AND FINANCIAL REVIEW CONTINUED

(ii) Geographical performance

Revenue from Australia and New Zealand represented 63% of the total revenue in FY22 as compared to 54% in FY21.

The revenue from international markets represented 37% of the total revenue in FY22 as compared to 46% in FY21. Revenue from international markets was primarily attributable to sales from China.

(b) Profitability

Gross margin decreased from 56% in FY21 to 50% in FY22.

- The average gross margin for EZZ branded products was 67% in FY22, compared to 82% in FY21, with the decrease resulting from a change in the revenue mix towards lower margin products. The increase in sales of lower margin products was part of the strategy to boost penetration into the grocery retailer market and create brand awareness. During the period advertising expenses were reduced significantly.
- The average gross margin on the EAORON branded products increased from 29% to 30% due to Australian United Pharmaceuticals Pty Ltd's promotional pricing on selected products and the focus on distributing higher margin products of the EAORON brand.

Although EBITDA (excluding other income) decreased by 35% from \$2,698,438 in FY21 to \$1,760,741 in FY22, the EBITDA margin remained largely in line with the previous year at 11%. Disciplined cost control and capital allocation remained a focus throughout the year, while advertising and marketing expenses were managed at approximately 20% of revenue in FY22.

	2022	2021
	\$	\$
Profit for the year	1,312,418	2,030,606
Other income	(141,853)	(174,589)
Depreciation and amortisation expense	118,341	125,518
Finance expense	4,436	10,752
Income tax expense	467,399	706,151
EBITDA (excluding other income)	1,760,741	2,698,438

EBITDA is a non-IFRS measure and is presented to enable understanding of the underlying performance without the impact on non-operating items. Non-IFRS measures have not been subject to audit or external review.

Management fees and other expenses increased in FY22 to support the development of eCommerce capabilities, maintain the Company's ASX listing and explore opportunities for future growth.

(c) COVID-19 Impact

The COVID-19 pandemic has been difficult for EZZ in terms of both sales and supply of product, but the Company has been agile in its response to these challenges and has been able to return a pleasing NPAT of \$1,312,418 in FY22. The Board would like to commend the Company on how it dealt with the following challenges:

- Both Federal and State Governments in Australia imposed lockdowns, encouraged workers to work-from-home, provided free vaccination against COVID-19, resulting in people restricting their movements and interaction wherever possible. In-person shopping sales of EAORON products predominately through pharmacies and specialist retailers was impacted with sales of \$6,883,175 being recorded this financial year. The Company's sales team remained proactive in its communication with suppliers and shipped product as soon as openings permitted. Pleasingly a large portion of the Australian population has now been vaccinated and, Australians are learning to live with COVID-19. Shops have reopened and shoppers are returning, and so EZZ believes the pandemic is coming to a natural end, and so its Australian sales are expected to continue to rebound moving forward.
 - o China's similarly imposed lockdowns, encouraged work-from-home, offered free vaccinations, but unlike Australia movement in some districts in China remains restricted, but even this is the exception now rather than the norm as it was throughout most of FY22. EZZ believes sales into China have returned with sales reaching \$400,000 of EZZ's Bone Growth Capsules during the mid-year 618 E-Commerce Shopping Festival. EZZ's market reach has also been bolstered in May 2022 when EZZ established its international store on Douyin (mainland China's version of TikTok) and with planned new product launches in FY23, sales into China are expected to continue to improve.
 - o Key to sales in China is advertising on the e-commerce platforms, but with areas within China under severe lockdowns during periods of FY22, the company anticipated lower sales volumes and reduced its advertising spend until China eased the lockdown measures. This cost-reduction strategy was a key factor in maintaining EZZ's profitability in FY22.
 - o EZZ has managed to launch seven new products this financial year, but with COVID-19 lockdowns in place and supply chain issues around the world, gaining access to a readily available supply of products and distributing them has been an issue. EZZ raised \$2.46m as part of its IPO in March 2021, with the intent of bringing the manufacturing process in-house within the intermediate term (two to five years) but given the supply chain issues highlighted, the company has decided to fast track this in-house manufacturing capability.

EZZ is now in a post-COVID-19 recovery period.

Financial Position

The Company recorded a strong cash position of \$10,464,841 as at 30 June 2022, representing an increase of 18% from \$8,853,644 on 30 June 2021. The Company also maintained balance sheet strength with no debt, other than lease liabilities to allow for the flexibility to act when opportunities arise.

Cash flow

Notwithstanding the decrease in revenue and profits, operating cash flow increased by 7.5 times from \$253,533 in FY21 to \$1,901,731 in FY22. This was mainly attributable to the Company's strategic decision to reduce advertising and marketing expenditure on the Tmall platform, as well as the reduction of payments to suppliers associated with the decrease in the sales of the EAORON branded products.

General Risks

The Company was listed based on its January 2021 Prospectus which did identify a number of specific risks associated with investing in the Company. The Company is addressing the main risks as follows:

- (a) Reliance on customer demand for the EAORON products
 - The Company has the exclusive distribution rights of EAORON products to pharmacies, supermarkets and specialist retailers in Australia and New Zealand, and this brand continues to sell well in this market. In FY 20 EAORON branded products represented 96% of the Company's revenue and this sales concentration has changed and in FY 22 represented 46% of total revenue, de-risking this risk.

OPERATING AND FINANCIAL REVIEW CONTINUED

- (b) Reliance on Distribution Agreement with Australian United Pharmaceuticals Pty Ltd for the EAORON branded products
 - Australian United Pharmaceuticals Pty Ltd is a related party of the Company and the current distribution agreement will expire on 30 June 2023. This agreement is expected to be renewed for a consecutive 3-year term, subject to requisite Shareholder's approval.
- (c) New product risk for the EZZ branded products
 - The Company has launched 7 new products in FY 22 which have been well received by the market.
- (d) Loss of key customers
 - The Company used to rely on several main customers in the past. During FY22, by commencing its operation of official online stores and other e-commerce platforms, the Company develops more direct-to-customer channels and demonstrates a lower portion of revenue attributed from main distributors.
- (e) Reliance on manufacturers
 - The Company raised \$2.46 m as part of the IPO with the intent of bringing the manufacturing process in-house within the intermediate term (two to five years) but the Company has decided to fast track this objective.

CORPORATE GOVERNANCE

The Company and the Board are committed to achieving and demonstrating the highest standards of corporate governance to protect shareholder interests. The Board continues to refine and improve the governance framework and practices. The Company has adopted and complies with the Australian Securities Exchange Corporate Governance Council's Corporate Governance Principles and Recommendations 4th Edition. The Company has published its Corporate Governance Statement on its website in accordance with ASX Listing Rule 4.10.3. A copy of the statement along with any related disclosures is available at www.ezzlife.com.au.

EZZ

DIRECTOR'S REPORT

The directors present their report on EZZ Life Science Holdings Limited (referred to hereafter as the 'Company') for the financial year ended 30 June 2022.

Directors

The following persons were directors of the Company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Glenn Cross	(appointed 30 November 2021)
Qizhou Qin	(appointed 1 September 2019)
Ivan Oshry	(appointed 27 October 2020)
Hao Huang	(appointed 27 October 2020)
Luis Rodrigues-Bravo	(appointed 8 July 2020, resigned 8 October 2021)
Philippa Lewis	(appointed 27 October 2020, resigned 23 November 2021)

Company secretary

Ms Natalie Climo	(appointed 8 July 2020)
------------------	-------------------------

Brent Goldman	Chief Financial Officer	Resigned 29 October 2021

¹ Appointment of non-executive directors is subject to shareholder approval by 2022 Annual General Meeting to be valid.

2 Remuneration Governance

Role of the Board

The Board is responsible for setting remuneration policy and determining non-executive director and executive KMP remuneration.

Executive KMP's remuneration is reviewed annually to ensure that the remuneration level remain competitive and appropriate. The Board is responsible for approving all targets and performance conditions set under the executive KMP's performance-based remuneration framework.

Each year the non-executive director fees including committee chair and member fees, as applicable, are approved by the Board.

The Board delegates responsibility to the Nomination, Remuneration and Human Resource Committee for review and making recommendations to the Board. The Board retains full discretion to change outcomes as it considers appropriate to ensure they are fair and appropriate.

Role of the Nomination, Remuneration and Human Resource Committee

The Nomination, Remuneration and Human Resource Committee makes recommendations to the Board in relation to executive KMP's remuneration. It is made up of independent non-executive directors. The responsibilities of the Nomination, Remuneration and Human Resource Committee are set out in the Committee's charter, which is available on the Company's website at www.ezzlife.com.au.

The Chief Executive Officer provides updates and makes recommendations to the Nomination, Remuneration and Human Resource Committee on matters included in the Chief Executive Officer's report throughout the year. Additional information is sought from the Company's management team and advisers, as required, to assist with the decision-making process.

The Chair of the Audit and Risk Committee attends the relevant Nomination, Remuneration and Human Resource Committee meetings and is formally involved in the remuneration outcome recommendations, ensuring that there is a tight linkage between behaviour, risk management and remuneration outcomes.

Use of Advisers

The Nomination, Remuneration and Human Resource Committee obtains specialist external advice about remuneration strategies from time to time. The advice is used to support its assessment of the market to ensure that KMP are being rewarded appropriately.

No remuneration recommendations as defined in section 9B of the Corporations Act 2001 were obtained during the financial year ended 30 June 2022.

3 Remuneration Framework

The remuneration for KMP comprises fixed remuneration, including superannuation and benefits, and other benefits.

Figure 2: Remuneration Framework

Component	Rational	Form	Instrument	Conditions
Fixed remuneration	Attraction, motivation and retention of the best talent to carry out strategies	Cash and non-monetary benefits	Salary and superannuation guarantee contribution	Market rate taking into account responsibilities, qualification, skills and experience

REMUNERATION REPORT (AUDITED) CONTINUED

4 Executive KMP Remuneration

Fixed remuneration

Fixed remuneration comprises salary, superannuation guarantee contribution, leave entitlements and other benefits.

Fixed remuneration of executive management personnel is based on the executive KMP's qualifications, skills, experience and role responsibility. Its levels vary between the executive KMP.

Fixed remuneration is reviewed annually or on promotion. It is not varied by reference to inflation or indexation as a matter of course. There were no changes to the executive KMP's fixed remuneration during the period.

Statutory Executive KMP Remuneration

Figure 3 details remuneration received by the executive KMP during the financial year ended 30 June 2022 based on the requirements of the Corporations Act 2001 an accounting standards, which includes fixed remuneration and performance-based remuneration.

Contractual Arrangement with Executive KMP

Remuneration and other terms of employment for the executive KMP are included in employment agreements. Each agreement sets out details of base salary, superannuation, benefits and performance-based incentives. Key provisions of the employment agreements relevant to remuneration for the executive KMP are set out as follows.

Figure 5: Executive KMP employment agreement

Executive Management Personnel	Fixed Remuneration (\$) ¹	Term	Notice period by the individual / Company
Chief Operation Officer and Interim CEO	126,500	Ongoing	3 months
Chief Financial Officer	98,016 excluding GST	12 months, automatically renewed at the end of each term unless terminated	3 months

¹ Fixed remuneration includes salary and superannuation.

5 Non-executive Director Remuneration

Non-executive director arrangement

Non-executive directors may receive fixed annual fees comprising a board Fee, committee chair fee and committee fee as applicable. Non-executive directors may direct the Company to make superannuation guarantee contributions, or additional superannuation contributions allocated from their non-executive director's or committee member fees, to any complying nominated superannuation fund.

Fees payable to non-executive directors is determined by the Board within an aggregate non-executive directors' fee pool limit which is periodically recommended for approval by the shareholders. The aggregate non-executive director's fee pool was last considered by shareholders at a shareholder meeting in 2021. An aggregate fee pool of \$249,000 was approved by shareholders and remained unchanged.

Non-executive directors are not entitled to participate in any short-term incentive scheme, nor are they eligible to long-term incentive scheme.

The Chair and other non-executive directors do not receive additional fees for their membership of the Board's Audit and Risk Management Committee or Nomination, Remuneration and Human Resource Committee.

6 Further Information on Remuneration

Other transactions with KMP

The Company entered into an agreement with Due Books Pty Ltd during the financial year ended 30 June 2021 for legal services. A director, Mr. Ivan Oshry, is a director and a controlling shareholder of Due Books Pty Ltd. The agreement was based on normal commercial terms and conditions. The aggregate amount of the transaction with KMP is \$12,120.

The Company entered into an agreement with Capstone Advisory Pty Ltd during the financial year ended 30 June 2022 for investor engagement services. The Chief Financial Officer, Mr. Anthony Guarna, provides Chief Financial Officer services through Capstone Advisory Pty Ltd. The agreement was based on normal commercial terms and conditions. The arrangement is on a one-off basis and is not expected recur in the future. The aggregate amount of the transaction was \$6,000.

There were no loans made during the financial year, or remain unsettled at 30 June 2022, between the Company and its KMP and/or their related parties.

Indemnity and insurance of officers

The Company has indemnified the directors and executive officers of the Company for costs incurred, in their capacity as a director or executive officer, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executive officers of the Company against a liability to the extent permitted by the Corporations Act 2001.

End of remuneration report

DIRECTORS' REPORT

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

No non-assurance services were provided by Rothsay Audit & Assurance Pty Ltd.

Officers of the company who are former partners of the auditor

There are no officers of the company who are former partners of the auditor.

Rounding of amounts

The company is of a kind referred to in Corporations Instrument 2016/191 dated 24 March 2016 issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest dollar.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Auditor

The remuneration report has been audited by Rothsay Audit & Assurance Pty Ltd in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

AUDITED FINANCIAL STATEMENTS CONTINUED

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

The financial report covers EZZ Life Science Holdings Limited ('the Company') as an individual entity. EZZ Life Science Holdings Limited is a for-profit Company limited by shares, incorporated and domiciled in Australia.

The functional and presentation currency of EZZ Life Science Holdings Limited is Australian dollars.

The financial report was authorised for issue by the Directors on 30 September 2022.

Comparatives are consistent with prior years, unless otherwise stated.

1 Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with the Australian Accounting Standards issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit orientated entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

2 Summary of Significant Accounting Policies

(a) Revenue and other income

Revenue from contracts with customers

Revenue is recognised on a basis that reflects the transfer of promised goods or services to customers at an amount that reflects the consideration the Company expects to receive in exchange for those goods or services. Revenue is recognised by applying a five-step model as follows:

1. Identify the contract with the customer
2. Identify the performance obligations
3. Determine the transaction price
4. Allocate the transaction price to the performance obligations
5. Recognise revenue as and when control of the performance obligations is transferred

Generally, the timing of the payment for sale of goods and rendering of services corresponds closely to the timing of satisfaction of the performance obligations, however where there is a difference, it will result in the recognition of a receivable, contract asset or contract liability.

None of the revenue streams of the Company have any significant financing terms as there is less than 12 months between receipt of funds and satisfaction of performance obligations.

The revenue recognition policies for the principal revenue stream related to sales of goods are that revenue is recognised on acceptance of the goods by the customer.

Government grants

The Company received various government grants during the period related to state and federal COVID-19 relief programs. These are recorded as revenue once the terms and conditions relating to the grant have been satisfied.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

(b) Income Tax

The tax expense recognised in profit or loss comprises current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

(c) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payable are stated inclusive of GST.

Cash flows in the statement of cash flows are included on a gross basis and the GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(d) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

(e) Financial instruments

Financial instruments are recognised initially on the date that the Company becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs.

Financial assets

On initial recognition, the Company classifies its financial assets at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows are solely payments of principal and interest on the principal amount outstanding.

The Company's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less allowance for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss ("ECL") basis.

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Company uses the presumption that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Company in full, without recourse to the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Company in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

Trade receivables and contract assets

Impairment of trade receivables and contract assets have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Company has determined the probability of non-payment of the receivable and contract asset and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Company renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced a significant increase in credit risk then the lifetime losses are estimated and recognised.

Financial liabilities

The Company measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Company comprise trade and other payables.

(f) Plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

Plant and equipment

Plant and equipment are measured using the cost model.

Depreciation

Plant and equipment is depreciated on a reducing balance basis over the assets useful life to the Company, commencing when the asset is ready for use.

The depreciation rates used for each class of depreciable asset are shown below:

Fixed asset class	Depreciation rate
Motor Vehicles	25%
Computer Equipment	33%
Office Equipment	33%

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

(g) Impairment of non-financial assets

At the end of each reporting period the Company determines whether there is any evidence of an impairment indicator for non-financial assets.

Where an indicator exists and regardless for indefinite life intangible assets and intangible assets not yet available for use, the recoverable amount of the asset is estimated.

Where assets do not operate independently of other assets, the recoverable amount of the relevant cash-generating unit ("CGU") is estimated.

The recoverable amount of an asset or CGU is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Where the recoverable amount is less than the carrying amount, an impairment loss is recognised in profit or loss.

Reversal indicators are considered in subsequent periods for all assets which have suffered an impairment loss.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

(h) Leases

At the lease commencement, the Company recognises a right-of-use asset and associated lease liability for the lease term. The lease term includes extension periods where the Company believes it is reasonably certain that the option will be exercised.

The right-of-use asset is measured using the cost model where cost on initial recognition comprises of the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration less any lease incentives received.

The right-of-use asset is depreciated over the lease term on a straight line basis and assessed for impairment in accordance with the impairment of assets accounting policy.

The lease liability is initially measured at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Company's incremental borrowing rate is used.

Subsequent to initial recognition, the lease liability is measured at amortised cost using the effective interest rate method. The lease liability is remeasured whether there is a lease modification, change in estimate of the lease term or index upon which the lease payments are based (e.g. CPI) or a change in the Company's assessment of lease term.

Where the lease liability is remeasured, the right-of-use asset is adjusted to reflect the remeasurement or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(i) Employee entitlements

A liability is recognised for the Company's liability for employee entitlements arising from services rendered by employees to the end of the reporting period.

Where the Company does not have the right to defer settlement of the liability it has been recorded as a current liability. Where settlement is able to be deferred for a period of greater than one year, the liability is recorded as non-current.

Defined contribution superannuation schemes

Obligations for contributions to defined contribution superannuation plans are recognised as an employee benefit expense in profit or loss in the periods in which services are provided by employees.

(j) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

(k) Foreign currency transactions and balances

Transaction and balances

Foreign currency transactions are recorded at the spot rate on the date of the transaction.

At the end of the reporting period:

- Foreign currency monetary items are translated using the closing rate;
- Non-monetary items that are measured at historical cost are translated using the exchange rate at the date of the transaction; and
- Non-monetary items that are measured at fair value are translated using the rate at the date when fair value was determined.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition or in prior reporting periods are recognised through profit or loss, except where they relate to an item of other comprehensive income.

(I) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost of inventory is determined using the weighted average costs basis and is net of any rebates and discounts received.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimate costs of completion and the costs necessary to make the sale. Net realisable value is estimated using the most reliable evidence available at the reporting date and inventory is written down through an obsolescence allowance if necessary.

3 Critical Accounting Estimates and Judgments

The directors make estimates and judgements during the preparation of these financial statements regarding assumptions about current and future events affecting transactions and balances.

These estimates and judgements are based on the best information available at the time of preparing the financial statements, however as additional information is known then the actual results may differ from the estimates.

The significant estimates and judgements made have been described below.

Key estimates - receivables

The receivables at reporting date have been reviewed to determine whether there is any objective evidence that any of the receivables are impaired. An impairment allowance is included for any receivable where the balance is not considered collectible. The impairment allowance is based on the best information at the reporting date.

- rise in opening deferred taxes resulting from reduction in tax rate	-	6,732
Income tax expense	467,399	706,151

6 Operating Segments

(a) Identification of reportable segments

The Company has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision maker) in assessing performance and determining the allocation of resources.

Operating segments are determined on the basis of financial information reported to the Directors which is revenue and gross profit for Brought in Lines and Company Owned products

Therefore, management identified the Company as having two reportable segments. The financial results from these reportable segments are equivalent to the financial statements of the Company as a whole. Geographical sales information is disclosed below to assist in the understanding of the Company.

(b) Accounting policies adopted

All amounts reported to the Directors are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statements of the Company.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

(c) Segment assets

Assets of the Company are maintained in Australia.

(d) Segment liabilities

Liabilities are generally considered to relate to the Company as a whole and are not allocated.

(e) Segment Revenues

Revenue is segmented between brought in lines and Company owned products as follows:

	Brought in Lines		Company Owned		Total	
	2022	2021	2022	2021	2022	2021
	\$	\$	\$	\$	\$	\$
Revenue	6,883,175	10,918,034	8,138,851	11,369,044	15,022,026	22,287,078
Cost of Sales	(4,816,277)	(7,798,812)	(2,697,244)	(2,029,455)	(7,513,521)	(9,828,267)
Total	2,066,898	3,119,222	5,441,607	9,339,589	7,508,505	12,458,811

(f) Geographical information

	2022	2021
	\$	\$
Australia and New Zealand	9,433,936	12,006,707
Mainland China	4,349,374	10,130,032

(a) Ordinary shares

The holders of ordinary shares are entitled to participate in dividends and the proceeds on winding up of the Company. On a show of hands at meetings of the Company, each holder of ordinary shares has one vote in person or by proxy, and upon a poll each share is entitled to one vote.

The Company does not have authorised capital or par value in respect of its shares.

(b) Capital Management

The key objectives of the Company when managing capital is to safeguard its ability to continue as a going concern and maintain optimal benefits to stakeholders. The Company defines capital as its equity and net debt.

The Company manages its capital structure and makes funding decisions based on the prevailing economic environment and has a number of tools available to manage capital risk. These include the ability to adjust the size and timing of dividends paid to shareholders and the issue of new shares.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

16 Financial Risk Management

The Company is exposed to a variety of financial risks through its use of financial instruments.

The Company's overall risk management plan seeks to minimise potential adverse effects due to the unpredictability of financial markets.

The most significant financial risks to which the Company is exposed to are described below:

Specific risks

- Liquidity risk
- Credit risk
- Market risk – currency risk, interest rate risk and price risk

Financial instruments used

The principal categories of financial instrument used by the Company are:

- Cash and cash equivalents
- Trade and other receivables
- Trade and other payables

Objectives, policies and processes

The Directors have overall responsibility for the establishment of the Company's financial risk management framework. This includes the development of policies covering specific areas such as foreign exchange risk, interest rate risk, liquidity risk and credit risk.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The day-to-day risk management is carried out by the Company's finance function under policies and objectives which have been approved by the Directors.

The Directors receive monthly reports which provide details of the effectiveness of the processes and policies in place.

Mitigation strategies for specific risks faced are described below:

Liquidity risk

Liquidity risk arises from the Company's management of working capital and the finance charges and principal repayments on its debt instruments. It is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities as and when they fall due. The Company maintains cash and marketable securities to meet its liquidity requirements for up to 30-day periods.

The Company manages its liquidity needs by monitoring cash-outflows due in day-to-day business.

Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a 360-day period are identified monthly.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

At the reporting date, these reports indicate that the Company expected to have sufficient liquid resources to meet its obligations under all reasonably expected circumstances and will not need to draw down any of the financing facilities.

Amounts recorded as trade and other payables are expected to be settled in their commercial terms, which is within 3 months.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company.

Credit risk arises from cash and cash equivalents and credit exposure to its customers.

The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

Trade receivables and contract assets

Trade receivables consist of a number of customers. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of its customers. This is monitored by management and the Directors on a continual basis.

Management considers that all financial assets at 30 June 2022 are of good credit quality.

On a geographical basis, the Company has significant credit risk exposures in Australia and China given the location of its operations in those regions.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, primarily,

- Foreign exchange risk;
- Interest rate risk; and
- Price risk.

The Company does not have any material exposure to the above risks at year end, though the Company makes purchases in currencies other than Australian dollars.

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

For the year ended 30 June 2022

17 Dividends

A fully franked final dividend of 0.45 cents per ordinary share was declared on 24 September 2021 and paid on 16 December 2021, resulting in a total dividend payment of \$189,000 based on the number of ordinary shares on issue.

Franking account

	2022 \$	2021 \$
The franking credits available for subsequent financial years at a tax rate of 25% (2021: 26%)	1,981,891	1,666,957

The above available balance is based on the dividend franking account at year-end adjusted for:

- (a) Franking credits that will arise from the payment of the current tax liabilities;
- (b) Franking debits that will arise from the payment of dividends recognised as a liability at the year end;
- (c) Franking credits that will arise from the receipt of dividends recognised as receivables at the end of the year.

The ability to use the franking credits is dependent upon the Company's future ability to declare dividends.

18 Key Management Personnel Remuneration

The totals of remuneration paid to the key management personnel of EZZ Life Science Holdings Limited during the year are as follows.

	2022 \$	2021 \$
Short-term employee benefits	532,623	347,885
Post-employment benefits	15,487	22,361
	428,857	370,246

DIRECTORS' DECLARATION

The directors of the Company declare that:

1. the financial statements and notes for the year ended 30 June 2022 are in accordance with the Corporations Act 2001 and:
 - a. comply with Accounting Standards, which, as stated in basis of preparation Note 1 to the financial statements, constitutes explicit and unreserved compliance with International Financial Reporting Standards (IFRS); and
 - b. give a true and fair view of the financial position and performance of the Company;
2. in the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
3. the Chief Executive Officer and Chief Finance Officer have given the declarations required by Section 295A of the Corporations Act 2001 that:
 - a. the financial records of the Company for the financial year have been properly maintained in accordance with section 286 of the Corporations Act 2001;
 - b. the financial statements and notes for the financial year comply with the Accounting Standards; and
 - c. the financial statements and notes for the financial year give a true and fair view.

This declaration is made in accordance with a resolution of the Directors.

Glenn Cross
Non-executive Chair

Qizhou Qin
Executive Director

Dated 30 September 2022

EZZ LIFE SCIENCE HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT

To the members of EZZ Life Science Holdings Limited

Opinion

We have audited the financial report of EZZ Life Science Holdings Limited ("the Company"), which comprises the statement of financial position as at 30 June 2022, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Company's financial position as at 30 June 2022 and of its performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

EZZ LIFE SCIENCE HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT (continued)

Share Based Payments

The Group recorded share-based payments in the current year of \$156,275.

Share based payments are considered to be a key audit matter due to the complexities involved in the recognition and measurement of these instruments; and the judgement involved in determining the inputs used in the valuations.

How our Audit Addressed the Key Audit Matter

Our procedures related to the Company's share-based payments included but were not limited to:

- Assessing the amount recognised during the year in accordance with the vesting conditions of the agreements;
- Reviewing management's valuation of share-based payments; and
- Reviewing the compliance of accounting treatment of the share-based payments with AASB 2 *Share-based Payment*.

We have also assessed the appropriateness of the disclosures included in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2022, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibility for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

EZZ LIFE SCIENCE HOLDINGS LIMITED

INDEPENDENT AUDITOR'S REPORT (continued)

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

EZZ LIFE SCIENCE HOLDINGS LIMITED
INDEPENDENT AUDITOR'S REPORT (continued)

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2022. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion the Remuneration Report of EZZ Life Science Holdings Limited, for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.
