Sydney – 27 October 2022 – [BrainChip Holdings Ltd](#) (ASX: **BRN**, OTCQX: **BRCHE, BCHIP**), the world's first commercial producer of neuromorphic artificial intelligence chips, today provides the Quarterly Activities Report in conjunction with its Appendix 4C lodged for the quarter ending 30 September 2022.

CEO Statement

The recently ended Quarter amplified the execution of the Company's commercialisation for our Akida™ neuromorphic IP. In the Quarter, BrainChip added a seasoned AI semiconductor sales executive to fortify commercial expansion and execution.

The Company continues to benefit from its research activities as it was granted two new foundational patents related to neuromorphic AI inference and purchased key patents it previously only had licensed rights to use. BrainChip continues to build its AI and ML patent portfolio, strengthening our IP product and commercial differentiation.

In the coming quarter, the Company will focus on key sales targets and converting technical evaluations into paid licenses. In addition, the Company is accelerating development of next-generation Akida IP and products to extend our technological lead and market opportunity.

We are seeing the greatest amount of sales activity and engagement in the Company's history. However, the current global technology market has created economic dynamics that have extended evaluations, decreased budgets, and delayed introduction of new technology. These conditions have created a headwind for our prospective and current customers. We anticipate these conditions to eventually calm. We remain positive on future market penetration and broad adoption of Brainchip's technology.

FINANCIAL UPDATE

The Company ended the September Quarter with US\$24.6M in cash compared to US\$28.4M in the prior quarter.

In the September quarter, BrainChip incurred \$0.25M to acquire the full ownership of the IP rights to the JAST learning rules and algorithms which were previously licensed to the Company. BrainChip has restructured its sales and marketing team with the addition of Christopher Stevens as VP of Worldwide Sales to continue efforts to increase revenue and bookings.

Cash used for operating activities includes payments to BrainChip's Board of Directors totaling US\$272,400 as noted in item 6.1 of the accompanying Appendix 4C, comprising fees for Non-Executive Directors and salaries for Executive Directors.
