About Tissue Repair

Tissue Repair Limited (ASX:TRP) is an advanced biotechnology company developing second generation wound healing agents. The Company’s core focus is entering a phase 3 program in chronic wounds for its lead drug candidate TR-987®, with a secondary focus on commercialising TR Pro+™ a post procedure topical gel to improve skin healing following cosmetic and medical treatments. The Company’s longer-term strategy is to commercialise its propriety Glucoprime® API to treat a variety of wounds and skin conditions.
