1. DETAILS OF THE OFFER

1.1 Purpose of the Offer

As announced to the ASX on 22 November 2022, the Company has commenced a capital raising program as follows:

- The Subscription Agreement with Lind and SBC to raise \$4.55m before costs;
- This Offer.

The proceeds from the Subscription Agreement and Offer are to be used for:

- Exploration programs at Sconi to increase size of resource
- Additional test work for studies and technical design to support Sconi Project Financing process
- Environmental works and studies to support Sconi Project Financing process
- Exploration activities to test the potential for expansion of the Sconi Project
- Expansion of senior leadership team
- Working capital and costs of the Offer.

1.2 Section 713 Corporations Act

Section 713 of the Corporations Act sets out special content rules for prospectuses for an offer of continuously quoted securities or options over continuously quoted securities. The New Shares and New Options meet this definition, and accordingly the Company has relied on disclosures made to ASX to meet some of its disclosure obligations in this Prospectus. This Prospectus therefore does not contain all the information usually included in a Prospectus and Shareholders should refer to disclosures made by the Company to ASX.

1.3 Details of the Offer

This Prospectus offers via a non renounceable pro rata entitlements issue to Shareholders approximately 47.8m New Shares and 23.9m New Options on the basis of 1 New Share for every 9.8 Shares held at the Record Date at an issue price of \$0.059 for each New Share to raise approximately \$2.8 before issue costs.

Shareholders who are on Australian Mines' Share Register at the close of business on the Record Date, being 5:00 pm on 28 November 2022, will receive the Offer.

The offer includes one (1) free option attaching to every two (2) New Share issued, having an exercise price of \$0.089 and an expiry date of 5:00pm (AEDT) on 20 December 2025.

Fractional entitlements will be rounded up to the nearest whole number of New Shares and New Options, and therefore the maximum number of New Shares to be issued is approximate. For this purpose, holdings in the same name are not aggregated for calculation of Entitlements, however, if Australian Mines considers that holdings have been split to take advantage of rounding, Australian Mines reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements.

An Entitlement and Acceptance Form setting out your Entitlement to New Shares and New Options accompanies this Prospectus. The New Shares offered under this Prospectus will rank equally with the Existing Shares on issue. A summary of the rights and liabilities attaching to the New Shares and New Options is set out in section 4.1.

The maximum amount to be raised under the Offer is approximately \$2.8m. There is no minimum amount. If less than \$2.8m is raised, Australian Mines will scale back its proposed operations accordingly.

1.4 Applying for Additional New Shares and New Options

Entitlements not taken up may become available as Additional New Shares and New Options. Eligible Shareholders may, in addition to their Entitlement, apply for Additional New Shares and New Options regardless of the size of their present holding.

The allocation of Additional New Shares and New Options (if any) will depend on the availability of Entitlements not taken up and will be determined by the Board at its absolute discretion. It may be necessary to scale back allocations depending on the level of Applications received. The Board intends to scale back proportionally if a scale back is necessary.

It is an express term of the Offer that applicants for Additional New Shares and New Options will be bound to accept a lesser number of Additional New Shares and New Options allocated to them than applied for. If a lesser number is allocated to them, excess Application Money will be refunded without interest. There can be no guarantee that you will receive any Additional New Shares and New Options applied for, and you may receive all, some or none of them.

Excess Application Money will be refunded without interest.

1.5 Opening and Closing Dates

The opening date of the Offer will be 1 December 2022 and the Closing Date will be 13 December 2022. The Directors reserve the right to close the Offer early or extend the Closing Date (as the case may be), should it be considered by them necessary to do so, subject to the Corporations Act and ASX Listing Rules.

1.6 Application

An Application for New Shares must be made using the Application Form attached to this Prospectus and must follow the procedures advised to them by the Company to apply for New Shares under the Offer.

All Application Money received before New Shares and New Options are issued will be held in a special purpose account. Excess Application Money received for Additional New Shares and New Options if not accepted will be refunded without interest. Upon allotment of New Shares and New Options the balance of funds in the account plus accrued interest will be received by the Company. If the New Shares are not quoted by ASX within three months after the date of this Prospectus, Australian Mines will refund all Application Money in full (without interest).

1.7 Risks

Section 5 outlines the key risk factors involved in investing in the Company. The risks identified by the Directors are not exhaustive. These risks, together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the New Shares and New Options in the future. Accordingly, an investment in the Company should be considered highly speculative. Shareholders should read this Prospectus in full and seek professional advice if they require further information on material risks in deciding whether to subscribe for New Shares and New Options.

1.8 Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of the Options issued under this Prospectus. The Company and the Lead Manager will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on Annexure 1. By making an application under the Offer, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.

These, and all other forward looking statements contained in this announcement are subject to uncertainties, risks and contingencies and other factors, including risk factors associated with exploration, mining, and production businesses. It is believed that the expectations represented in the forward looking statements are reasonable but they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to differ materially, including but not limited to price fluctuations, actual demand, currency fluctuations, drilling and production results, resource estimations, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory changes, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimates.

1.13 ASX Quotation

Application will be made within seven days of the date of issue of this Prospectus for the New Shares to be granted Official Quotation by ASX.

If the New Shares are not quoted by ASX within three months after the date of this Prospectus, the Company will not issue any New Shares and will refund all Application Money in full as soon as practicable, without interest.

The fact that ASX may agree to grant Official Quotation of the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares or New Options.

1.14 Offer Outside Australia

The Offer in this Prospectus is not being extended to any Shareholder, as at the Record Date, whose registered address is not situated in Australia, Singapore, Hong Kong or New Zealand because of the small number of such Shareholders, the cost of complying with applicable

regulations in jurisdictions outside Australia and the value of the Securities offered. The Prospectus is sent to those Shareholders for information only.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside Australia, Singapore, Hong Kong and New Zealand (other than to Eligible Shareholders).

This document does not constitute an offer of New Shares or New Options in any jurisdiction in which it would be unlawful. In particular, this document may not be distributed to any person, and the New Shares may not be offered or sold, in any country outside Australia except to the extent permitted below.

1.17 Taxation Implications

2. USE OF FUNDS AND EFFECT OF THE ISSUE

2.1 Use of Funds

As set out in the ASX Announcement dated 22 November 2022, Australian Mines will use funds raised from the Subscription Agreement and the Offer to execute its plan to bring its flagship Sconi Project into production. The funds will be applied to project financing activities, to bolster the management team and exploration outside the Sconi Project's current Ore Reserve and Mineral Resource.

Activity	Cost \$(million)
Sconi team contracting/employment	2.0
Sconi nickel exploration	1.0
Flemington cobalt exploration	0.3
Broken Hill cobalt exploration	0.3
Test work for studies	1.65
Working capital	1.6
Cost of the Subscription Agreement and Offer	0.5
Total	\$7.35 million

The Directors reserve the right to make any adjustments to the use of funds as they see fit to manage the needs of the Company. Additional funds up to a maximum value of approximately \$2.1 million may become available to the Company, should the New Options be exercised, however, the Company is not relying on these additional funds for its planned work programs

2.2 Effect of the Offer on Capital Structure

The effect of the Offer on the Company's capital structure is as follows:

Ordinary shares	Number	Equity percentage
Existing Shares	468,753,841	86.6
Subscription Agreement Initial Shares *	25,000,000	4.6
New Shares	47,832,025	8.8

Options	Number	Equity percentage
---------	--------	-------------------

Sub-underwriter Options	2,082,738	3.2
New Options	23,916,012	37.2
Total	64,374,156	100

* the Subscription Agreement requires an issue of 25,000,000 Initial Shares. It also requires Shares to be issued from time to time at various prices over the life of the Subscription Agreement – see section 6.2 for further details.

Shareholders who do not participate in the Offer will therefore be diluted. The amount of the dilution will depend on the number of Shares held by non-participating holders and the number of New Shares actually issued.

2.3 Statement of Financial Position

Set out below is the audit reviewed Consolidated Balance Sheet of the Company as at 30 June 2022 and an unaudited pro forma Consolidated Balance Sheet of the Company after the Subscription Agreement and Entitlement Offer assuming that the amount of \$4.55m is received under the Subscription Agreement and \$2.8 million is received under the Entitlement Offer, without deducting costs. The financial information prepared below is prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS).

* The potential funds on completion of the Offer (using 30 June 2022 closing cash as a starting point) does not represent the actual or prospective cash or financial position of Australian Mines. The above table does not take into account activities of the Company since 1 July 2022 and this expenditure is not recognised in the pro-forma Statement of Financial Position. The above table does not take into account the costs of the Offer.

The Offer will therefore have the effect of increasing the Company's cash assets by \$7.35m before costs, assuming all Entitlements are taken up. As disclosed in the ASX Appendix 5B lodged on 27 October 2022, as at 30 September 2022 the Company held \$1.642m in cash. Since that time it has incurred further expenses.

3. ACTION REQUIRED BY SHAREHOLDERS

3.1 What Eligible Shareholders may do

The number of New Shares and New Options to which Eligible Shareholders are entitled (your Entitlement) is shown on the accompanying Entitlement and Acceptance Form.

If you do not take up your Entitlement, then your percentage holding in the Company will be diluted.

As an Eligible Shareholder, you may:

- take up all of your Entitlement (refer Section 3.2);
- apply for Additional New Shares and New Options (refer Section 3.3);
- take up part of your Entitlement and allow the balance to lapse (refer Section 3.4); or
- allow all or part of your Entitlement to lapse (refer section 3.5).

Non-qualifying foreign Shareholders may not take any of the steps set out in Sections 3.2 to 3.6.

Once you have taken up all or part of your Entitlement, you have accepted the Offer and cannot cancel that acceptance. The Company will not issue any refunds in those circumstances.

3.2 Taking up all of your Entitlement

If you wish to take up all of your Entitlement, complete the accompanying Entitlement and Acceptance Form for New Shares and New Options in accordance with the instructions set out in that form.

You must pay the Application Money in accordance with Section 3.6 to reach the Company's Share Registry no later than 5:00 pm AEDT on 13 December 2022.

3.3 Applications for Additional New Shares and New Options

Eligible Shareholders who have applied for their full Entitlement may, in addition to their Entitlement, apply for Additional New Shares and New Options as described in section 1.4. There is no limit to the amount of Additional New Shares and New Options you may apply for, however there can be no guarantee that you will receive all or any of the Additional New Shares and New Options applied for.

A single payment should be used for the Application Money for your Entitlement and the number of Additional New Shares and New Options you wish to apply for as stated on the Entitlement and Acceptance Form.

Payment may also be made by Electronic Funds Transfer (EFT) or BPay, utilising the reference numbers and details from your personalised Entitlement and Acceptance Form.

3.4 Taking up part of your Entitlement and allowing the balance to lapse

If you wish to take up part of your Entitlement and allow the balance to lapse, complete the accompanying Entitlement and Acceptance Form for the number of New Shares and New Options you wish to take up and follow the steps required in accordance with Section 3.6. If you take no further action, the balance of your Entitlement will lapse.

3.5 Allow all your Entitlement to lapse

The Offer is non-renounceable, therefore any part of your Entitlement that is not accepted will lapse and you will receive no benefit from it. Your Entitlement may be used to satisfy an Eligible Shareholder's application for Additional New Shares and New Options. Further, the Australian Mines Board reserves the right to place any shortfall on the same terms as set out in this Prospectus within the three months after the Closing Date.

3.6 Payment

(a) Payment by BPAY®

To apply and pay via BPAY, you should:

- Read this Prospectus and the Entitlement and Acceptance Form in their entirety and seek appropriate professional advice if necessary; and
- Make your payment via BPAY for the number of New Shares and New Options you wish to subscribe for so that it is received by no later than 5:00pm (AEDT) on 13 December

2022. You can only make a payment via BPAY if you hold an account with an Australian financial institution.

(b) EFT

To apply and pay via EFT, you should:

- Read this Prospectus and the Entitlement and Acceptance Form in their entirety and seek appropriate professional advice if necessary; and
- Make your payment via EFT for the number of New Shares and New Options you wish to subscribe for so that it is received by no later than 5:00pm (AEDT) on 13 December 2022.
- **IMPORTANT:** You must quote your unique reference number as your payment reference/description when processing your EFT payment. Failure to do so may result in your funds not being allocated to your application and Shares subsequently not issued.

If you choose to pay via BPAY or EFT, you are not required to submit the Entitlement and Acceptance Form.

If you make payment by 5:00pm (AEDT) on 13 December 2022, New Shares and New Options will be allotted to you on 20 December 2022.

Your payment will not be accepted after 5:00pm (AEDT) on 13 December 2022 and no New Shares and New Options will be issued to you in respect of that Application.

If you have multiple holdings you will have multiple EFT or BPAY reference numbers. To ensure you receive your Entitlement in respect of that holding, you must use the customer reference number shown on each personalised Entitlement and Acceptance Form when paying for any New Shares and New Options that you wish to apply for in respect of that holding.

Applicants should be aware that their own financial institution may implement earlier cut off times with regards to electronic payment, and should therefore take this into consideration when making payment. You may also have your own limit on the amount that can be paid via EFT or BPAY. It is your responsibility to check that the amount you wish to pay via EFT or BPAY does not exceed your limit.

If the amount of payment is insufficient to pay in full for the number of New Shares and New Options you applied for, or is more than the number of New Shares and New Options you applied for, you will be taken to have applied for such whole number of New Shares and New Options which is covered in full by your payment, to the extent that this does not exceed your Entitlement. Alternatively, Australian Mines may in its discretion reject your Application, in which case any payment will be refunded to you after the allotment date in accordance with the Corporations Act, without interest.

If you apply for Additional New Shares and New Options in excess of your Entitlement and you are not allocated all or some of the Additional New Shares and New Options, the relevant payment will be refunded to you after the allotment date in accordance with the Corporations Act, without interest.

3.7 Enquiries

If you have any questions about your Entitlement, please contact the Share registry, Automic on 1300 288 664 or +61 2 9698 5414 between 8:30am and 5:00pm (AEST) or email corporate.actions@automicgroup.com.au.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. 5. RISK FACTORS

5.1 Overview

- (a) The New Shares and New Options offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus, and to consult their professional advisers, before deciding whether to apply for New Shares and New Options pursuant to this Prospectus.
- (b) There are specific risks which relate directly to the business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.
- (c) The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

5.2 Company Specific Risks

(a) Mining and Exploration Risk

Exploration and mining companies are subject to the inherent risks of the mineral industry. The future viability and profitability of the Company as an exploration and mining company will depend on the number of factors, including but not limited to:

- (i) commodity prices and currency exchange rates are constantly changing. The Company's future revenue will be mainly derived from the sale of nickel and cobalt. Consequently, the Company's ability to attract funding for further exploration of its projects and/or potential future earnings could be closely related to the price of nickel and cobalt. The price of nickel and cobalt fluctuates and is affected by factors including the relationship between global supply, forward selling by producers, production cost levels in major producing regions and general global economic conditions such as inflation, interest rates and currency exchange rates. Changes in nickel or cobalt prices may materially impact on the cashflows and profitability of the Company. In addition, a significant portion of the Company's future revenue (if realised) and expenditure is expected to be denominated in US and Australian dollars. Accordingly, movements in currency exchange rates may affect cash flows, profitability, costs, expenses and revenue. It is not possible to accurately predict future movements in metal prices and/or exchange rates;
- (ii) risks inherent in exploration and mining include, among other things, successful exploration and identification of ore reserves, satisfactory performance of mining operations if a minable deposit is discovered and competent management;
- (iii) risks associated with obtaining the grant of any or all of the Company's mining tenements or permits which are applications, or renewal of tenements upon expiry of their current term, including the grant of subsequent titles where applied for over the same ground;
- (iv) applications may also be subject to additional processes and requirements under the Native Title Act. The right to negotiate process under Native Title matters can result in significant delays to the implementation of any project or stall it. Negotiated native title agreements may adversely impact on the economics of projects depending on the nature of any commercial terms agreed;
- (v) the risk of material adverse changes in the government policies or legislation of Australia affect the level and practicality of mining and exploration activities;

- (vi) environmental management issues, laws and regulations with which the Company may be required to comply from time to time;
- (vii) poor access to exploration areas as a result of the remoteness of difficult terrain;
- (viii) poor weather conditions over a prolonged period which may adversely affect mining and exploration activities and the timing of earning revenues;
- (ix) the Company's capital and operating costs estimates are based on the best available information at the time. Any significant unforeseen increases in the capital and operating costs associated with the development of the Company's projects would impact the Company's future cash flow and profitability;
- (x) ASIC has commenced proceedings to obtain a civil penalty against the Company (see announcement lodged on 10 May 2022). The Company and ASIC have agreed subject to approval by the Federal Court, to settle the Proceedings by the Company making certain admissions of contraventions of its continuous disclosure obligations. The Company and ASIC made a joint submission to the Federal Court that the appropriate penalty is \$450,000 and the Company should also pay ASIC's costs in the amount of \$55,550. As stated, the settlement, penalty and costs are subject to approval by the Federal Court (see announcement lodged on 10 August 2022);
- (xi) the Company's financing and development timeframes depend on tenements which it has applied for in order to progress its projects being granted within expected timeframes, including the Greenvale Mining Lease. The Company may lose title to, or interests in, its tenements if the conditions to which those tenements are subject are not satisfied or if insufficient funds are available to meet expenditure commitments. Both the conduct of operations in relation to the Company's existing projects and the steps involved in applying for and acquiring new interests will involve compliance with numerous procedures and formalities. In particular, the tenements are subject to expenditure and work commitments which must be complied with in order to keep the tenements in good standing. Failure to meet these commitments could lead to forfeiture of the tenement; and
- (xii) business risks associated with AUZ's Offtake Agreement with LG Energy Solution Ltd, and the risk that that Offtake Agreement is cancelled.

5.3 General Risks

(a) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's development and production activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may

require further financing. In particular, the Company is completing a Feasibility Study for production at its Sconi Project, which Project will require significant funding to enable it to meet production targets under its Offtake Agreement with LG Energy Solution Ltd.

Any additional equity financing may dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is, however, no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(d) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. The Company can give no assurance in relation to the payment of dividends or franking credits attaching to dividends.

(e) **Reliance on key personnel**

The Company's success depends on its ability to expand its leadership team by attracting and retaining and motivate high-performing personnel with specialist skills, and on the performance of its personnel. The Company's recruiting efforts may be limited or delayed by laws and regulations, such as restrictive immigration laws, and restrictions on travel or availability of visas (particularly during the ongoing COVID-19 pandemic). There is no guarantee that the Company will be able to attract and retain the personnel it requires to execute its business plan. Any loss of key personnel or under-resourcing could cause significant disruptions to the development of the Sconi Project and the Company's business generally.

(f) **Insurance risks**

The Company maintains insurance for certain activities within ranges of coverage that it believes to be consistent with industry practice and having regard to the nature of activities being conducted. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

(g) **Market risk and interest rate volatility**

From time to time, the Company may borrow money and accordingly will be subject to interest rates which may be fixed or floating. A change in interest rates would be expected to result in a change in the interest rate to the Company and, hence, may affect its profit.

(h) **Share market**

There are general risks associated with an investment and the share market. The price of the Company's securities on the ASX may rise and fall depending on a range of factors beyond the Company's control and which are unrelated to the Company's financial performance. These factors may include movements on international stock markets, interest rates and exchange rates, together with domestic and international economic conditions, inflation rates, investor perceptions, changes in government policy, commodity supply and demand, government taxation and royalties, war, global hostilities and acts of terrorism.

(i) **Liquidity risk**

There is no guarantee that there will be an ongoing liquid market for the Company's securities. Accordingly, there is a risk that, should the market for the Company's securities become illiquid, Shareholders will be unable to realise their investment in the Company.

(j) **Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above may, in the future, materially affect the financial performance of the Company and the value of the Company's securities.

6. ADDITIONAL INFORMATION

6.1 Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class as Shares that have been quoted on the official list of the ASX during the 12 months prior to the issue of this Prospectus.

This Prospectus is a prospectus to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus, and options over such continuously quoted securities. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of New Shares and New Options on the Company and the rights attaching to the New Shares and New Options. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the most recent annual financial statements of the Company lodged with the ASIC before the issue of this Prospectus;
 - (ii) any half year report of the Company lodged with ASIC after the lodgment of the annual financial report in (i) above and before the lodgment of this Prospectus; and

- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the financial statements referred to in paragraph (i) above until the issue of the Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

C KMP Sub-underwriting Agreement.

Under the Subscription Agreement if the Company does not raise at least \$1.0m by 28 February 2023 the subscription limits imposed on Lind and SBC as set out in section 6.2A(f) do not apply. To increase the probability of a successful capital raising under this Prospectus:

- (a) A term of the Subscription Agreement is that Lind and SBC will sub-underwrite the Offer up to \$150,000 each; and
- (b) The KMP Sub-underwriters have entered into the KMP Sub-underwriting Agreements.

The Sub-underwriting Agreements require the KMP Sub-underwriters to underwrite the Offer to their respective proportions on similar terms to the Underwriting Agreement. The KMP Sub-underwriters however cannot be issued Options as Shareholder approval would be required, and are therefore only entitled to a cash Underwriting Fee of 6% of the Underwritten Amount.

The KMP Sub-underwriting Agreement terminates if the Underwriting Agreement terminates for any reason.

The respective proportions of KMP underwriting are as follows:

KMP	\$	New Shares	New Options
Michael Ramsden	\$114,000	1,932,204	966,102
Michael Holmes	\$50,000	847,458	423,729
Michael Elias	\$17,000	288,136	144,068
Dominic Marinelli	\$35,000	593,221	296,611
Les Guthrie	\$35,000	593,221	296,611

ASX Listing Rules

Listing Rule 10.11 requires Shareholder approval to issue securities to related parties. Listing Rule 10.12 however sets out a number of exceptions to this rule, including Exception 2 where the related party is an underwriter or sub-underwriter of a pro rata Entitlement Offer.

Corporations Act

Section 208 of the Corporations Act requires that for a public company, or an entity that the public company controls, to give a financial benefit (including the payment of a fee under the Sub-underwriting Agreement) to a related party of the public company, the public company or entity must:

- obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- give the benefit within 24 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act. Section 210 of the Corporations Act states that Shareholder approval is not required if the terms of the benefit are at arms length or no less favourable than arms length.

Given that the terms of the Sub-underwriting Agreement are similar to the terms of the Underwriting Agreement in respect to fees to be paid, the Company considers that the terms of the Sub-underwriting Agreement are at arms length or no less favourable.

TARGET MARKET DETERMINATION Made by: Australian Mines Limited (ACN 073 914 191) (Company).

Product: Free attaching options in connection with a Non-Renounceable Entitlement Offer under a prospectus dated 22 November 2022 (**Options**).

Effective date: 22 November 2022.

This target market determination (**TMD**) has been prepared by the Company in relation to an offer to issue the Options made by the Company under a prospectus dated 22 November 2022 (**Prospectus**). A copy of the Prospectus is available on the Company's website, www.australianmines.com.au

The offer will be made under, or accompanied by, a copy of the Prospectus. Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus.

Any recipient of this TMD who wants to acquire Options under the offer will need to complete the application form that will be in, or will accompany, the Prospectus. There is no cooling off period in respect of the issue of the Options.

Application will not be made for the attaching Options to be quoted on the Australian Securities Exchange (**ASX**). The attaching Options will be not therefore be liquid as there will be no ready market for them.

This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**). This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision.

The Company is not licensed to provide financial product advice in relation to the Options.

1. TARGET MARKET

Investment Objective

The Company expects that an investment in Options will be suitable to investors who wish to gain exposure to equities in a mining company listed on the ASX.

Investment Timeframe

The target market of investors will take a short to medium term outlook on their investment. Investors with a short-term outlook for their investment will benefit from an ability to exercise Options and trade the underlying shares issued on exercise should the Option exercise price of the Options be lower than the trading price of shares. Investors with a medium-term outlook will benefit from an ability to exercise Options within the three-year term of the Options and increase their shareholding and exposure to the potential upside in the Company's shares into the future.

Given the need to pay the exercise price in order to acquire shares, investors in the target market are in a financial position that is sufficient for them to invest their funds on exercise the Options over a three-year time horizon, during which their ability to liquidate their Options in the Company may be limited by the trading price of shares.

Investment Metrics

While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. The Options offer no guaranteed income or capital protection.

Risk

The Company considers that an investment in the underlying shares is highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. As the Options are issued at nil cost, investors should consider this when deciding whether or not to exercise an Option. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Options as an asset class generally and the more specific risks of investing in an Australian listed mining company.

Further risks are disclosed in the Risk Factors section of the Prospectus.

2. DISTRIBUTION CONDITIONS

The offer of Options under the Prospectus is being made to those shareholders in the Company registered at the record date specified in the Prospectus (**Eligible Shareholders**). Any entitlement not taken up under the offer will form a shortfall offer (**Shortfall Offer**). Eligible Shareholders may also subscribe for Options above their entitlement under the Shortfall Offer. The Prospectus will include jurisdictional conditions on eligibility. The Company will include a copy of this TMD with the Prospectus. The Company considers that these distribution conditions will ensure that persons who invest in Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

3. REVIEW TRIGGERS

The Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the Options will no longer be available for investment by way of issue. It follows that the TMD will only apply in the period between the commencement of the offer of the Options and the issue of the Options shortly after the close of the Offer (**Offer Period**).

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Options and should be reviewed, the following review triggers apply for the Offer Period:

- (a) a new offer of Options that requires preparation of a disclosure document is made after completion of the Offer Period;
- (b) any event or circumstance that would materially change a factor taken into account in making this TMD;
- (c) the existence of a significant dealing of the Options that is not consistent with this TMD.;

(d) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Options or this TMD; and

(e) material changes to the regulatory environment that applies to an investment in the Options.

4. REVIEW PERIOD

If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger. The Company will otherwise complete a review of the TMD immediately prior to the issue of Options under the Offer.

5. INFORMATION REPORTING

The reporting requirements of all distributors is set out below.

Information type	Description	Timeframe for reporting
