

## Steven Kovac Appointed as Director

Critical Minerals Group Limited (**ASX:CMG, Critical Minerals Group, CMG** or the **Company**) announces the appointment of Mr Steven Kovac as a non-executive director with effect from today.

Mr Kovac's appointment was approved at the Annual General Meeting of the Company held today.

The Company's Chairman, Mr Alan Broome AM said:

*"I am very pleased to welcome Steven to the board of CMG.*

*Steven has a very accomplished career in the mining sector.*

*Steven is the chief executive officer of Idemitsu Australia Pty Ltd who, through its wholly owned subsidiary Idemitsu Lindfield Pty Ltd, is a substantial holder of the Company. Steven's appointment continues to strengthen this strategic partnership."*

### Steven Kovac

Mr Kovac has over 12 years of experience in senior management and executive roles in the mining sector.

Mr Kovac is a member of the Australian Institute of Company Directors, Australian Institute of Mining and Metallurgy and Mine Managers Association of Australia. Mr Kovac is also a coal forum member of the Minerals Council of Australia, alternate director of Low Emission Technology Australia, executive committee member of New South Wales Minerals Council and coal forum member and health and safety committee member of the Queensland Resources Council.

This announcement was approved by the board.

## About Critical Minerals Group Limited

Critical Minerals Group Limited (**ASX:CMG**, **CMG** or the **Company**) is an exploration company with the principle focus of developing critical minerals projects. CMG was formed to identify, secure, acquire and develop critical mineral resource tenements in proven regions in Australia.

CMG is building its position in the vanadium market, holding a tenement in north-west Queensland near the town of Julia Creek which is its flagship project known as the Lindfield Vanadium Project. CMG also holds tenements for projects at Figtree Creek and Lorena Surrounds, both exciting greenfield copper-gold projects that support CMG's focus on critical mineral opportunities. CMG has also applied for three tenements within close proximity to the Lindfield Vanadium Project, forming its Whinmoor Project, Lara Downs Project and Lindfield North Project.

CMG is founded on the outlook of the global energy disruption and the transition that is currently underway and the chance to grasp the opportunities arising from the substantial changes in the world around us. The rising standard of living of a growing global population is likely to continue to drive demand for critical minerals for years to come, particularly during the phase of decarbonisation and electrification. The world will need to find a way to meet this growing demand for such minerals, and CMG is well-positioned to meet this new economy mineral demand as the world turns towards a more renewable future.
