27,435,799 fully paid ordinary shares

7D.1c (ii) Please explain why the entity has chosen to do a placement rather than a +pro rata issue or an offer under a +security purchase plan in which existing ordinary +security holders would have been eligible to participate

Given the issue price is at a premium to the 5-day VWAP ending on 25/11/2022, an SPP with the same pricing could not be implemented in compliance with ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547. It was also considered that a pro-rata offer at the same premium pricing was not an appropriate structure for an entitlement offer. A placement was considered appropriate to attract one of the world's largest medically diagnostic companies onto the register.
