ASX release

WORLEY LIMITED (WORLEY)

(ASX: WOR)

Master Services Agreement with Sila Nanotechnologies

Worley has been awarded a Master Services Agreement by Sila Nanotechnologies (Sila) for their silicon anode material commercial facility in Moses Lake, Washington, USA.

Under the Agreement, Worley will provide engineering, design, and procurement services to build a multi-train commercial facility to produce silicon anode material for lithium-ion batteries. Sila owns several patents related to its process for producing silicon anode material which improves the energy storage capability of batteries. The facility will be built in three phases starting with a small commercial scale facility and continuing through to large scale commercial production.

The engineering services will be provided by Worley's offices in California and Montana, USA with support from our Global Integrated Delivery (GID) teams in India.

"We look forward to working with Sila to support delivery of their patented battery technology consistent with our purpose of delivering a more sustainable world," said Chris Ashton, Chief Executive Officer of Worley.

Authorized for release by Nuala O'Leary, Group Company Secretary.
