Investment property valuations

The total value of the Trust's portfolio including equity accounted investment as at 31 December 2022 was \$3,865.2 million (30 June 2022: \$4,100.9 million), a decrease of 5.7% for the half-year period and a decrease of 1.9% on a like for like basis.

The weighted average capitalisation rate for the portfolio softened 47 basis points to 4.66% as at 31 December 2022 (30 June 2022: 4.19%).

Leasing and occupancy

The Trust secured 88,517 square metres ('sqm') of leases across 19 transactions for the half-year ended 31 December 2022. This represented 7.0% of the portfolio's gross lettable area.

At 31 December 2022 the Trust's portfolio was 98.7% occupied and the remaining lease expiry for the year ending 30 June 2023 represents 1.2% of portfolio income. CIP's weighted average lease expiry ('WALE') as at 31 December 2022 was 8.1 years (30 June 2022: 8.3 years).

Review of operations (continued)

Capital management

Moody's Investor Services maintains the Trust with a Baa2 issuer rating with a stable outlook.

As at 31 December 2022, the Trust had debt facilities totalling \$1,610.0 million (30 June 2022: \$1,610.0 million) with a weighted average expiry of 4.1 years (30 June 2022: 4.4 years). Drawn borrowings totalled \$1,235.2 million (30 June 2022: \$1,377.2 million), and the all in interest cost (made up of interest expense and line fees) at 31 December 2022 was 3.3% (30 June 2022: 2.0%) and 76.9% of the drawn debt fixed through swaps and fixed borrowings (30 June 2022: 61.7%). The Trust's gearing at 31 December 2022 was 31.6% (30 June 2022: 33.2%).

Disposal

During the half year, the Trust entered into a strategic partnership formed with an investment vehicle sponsored by Morgan Stanley Real Estate Investing (MSREI). The Trust disposed c.50% interest in a portfolio of eight assets realising \$180.9m.

The Partnership Portfolio comprised of the following properties:

- 8 Lexington Drive, Bella Vista NSW⁽¹⁾
- 29 Glendenning Road, Glendenning NSW⁽¹⁾
- 52-74 Quarry Road, Erskine Park NSW⁽¹⁾
- 95-105 South Gippsland Hwy, Dandenong South VIC⁽²⁾
- 40 Scanlan Drive, Epping VIC⁽²⁾
- 69 Studley Court, Derrimut VIC⁽²⁾
- 42 Hoepner Road, Bundamba QLD⁽²⁾
- 1 Ashburn Road, Bundamba QLD⁽²⁾

(1) As part of the transaction, 49% of the underlying interest in the sub trusts carrying these properties were disposed, resulting in the retention of a 51% non controlling stakes. Whilst these assets continue to be managed by the Responsible Entity, the need for joint decision making across a number of material financial and operating matters under the terms of the sale deeds results in the loss of control with significant influence and therefore equity accounting adopted as the most appropriate basis for reporting these equity stakes.

(2) As part of the transaction, 50% of the direct proportionate interest in each of the properties were divested. The trust continues to consolidate its remaining 50% direct proportionate interest in each of these properties.

Outlook

The Responsible Entity's strategy and ongoing focus remains unchanged. Management continues to focus on portfolio leasing to ensure occupancy and income are maximised, active asset management, risk mitigation and repositioning strategies. Management are also focused on maintaining an optimal portfolio construction to deliver stable income stream.

In the beginning of the half year period, the Responsible Entity announced FFO guidance for the year ending 30 June 2023 was expected to be 17.0 cpu. The distribution guidance for the year ending 30 June 2023, which was announced together with the FFO guidance, is 16.0 cpu which will be paid in equal quarterly instalments. As of the date of this report both the FFO and the distribution guidance remain unchanged.

Condensed notes to the interim financial report

For the half-year ended 31 December 2022

A About the report

A1 General information

Centuria Industrial REIT is a registered managed investment scheme under the Corporations Act 2001 and is domiciled in Australia. The principal activity of the Trust is disclosed in the Directors' report.

Statement of compliance

The interim financial report is a general purpose financial report which has been prepared in accordance with *AASB 134: Interim Financial Reporting and the Corporations Act 2001*.

The interim financial report does not include all of the information required for the annual financial report, and should be read in conjunction with the annual financial report of the Trust for the year ended 30 June 2022.

For the purposes of preparing the interim financial report, the Trust is a for-profit entity.

The interim financial report was authorised for issue in accordance with a resolution of the board of directors of Centuria Property Funds No. 2 Limited, the Responsible Entity, on 31 January 2023.

Basis of preparation

The interim financial report has been prepared on the basis of historical cost, except for investment properties and financial instruments that are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Going concern

The interim financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

At reporting date, the Trust has a net current asset deficiency of \$32.6 million. The Trust has sufficient capacity to fund short term operating expenses and its capital expenditures commitment. At 31 December 2022, the Trust has \$374.8 million of unused facilities (Note C4). As there have been no breaches of any of the loan covenants relating to the debt facility and the Trust continues to comply with its loan covenants, the Directors believes that the Trust has the ability to drawdown funds if required.

After taking into account all available information, the Directors have concluded that there are reasonable grounds to believe the basis of preparation of the interim financial report on a going concern basis is appropriate.

The principal accounting policies adopted in the preparation of the interim financial report are consistent with those of the previous financial year and corresponding interim reporting period.

Rounding of amounts

The Trust is a scheme of the kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' report and the interim financial statements. Amounts in the Directors' report and the interim financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

Functional and presentation currency

The interim financial report is presented in Australian dollars, which is the Trust's functional currency.

Additional information

The registered office and principal place of business of the Trust and the Responsible Entity are as follows:

Registered office:

Level 41, Chifley Tower, 2 Chifley Square
SYDNEY NSW 2000

Principal place of business:

Level 41, Chifley Tower, 2 Chifley Square
SYDNEY NSW 2000

A2 Significant accounting policies

The principal accounting policies adopted in the preparation of the interim financial report are consistent with those of the previous financial year and corresponding interim period.

About the report

A3 Segment reporting

The Trust operates in one segment, being investments in Australian industrial property. The Trust has determined its one operating segment based on the internal information that is provided to the chief operating decision maker and which is used in making strategic decisions. The Responsible Entity has been identified as the Trust's chief operating decision maker.

* The Trust holds a leasehold interest in 21 Jay St, Mount St John, Townsville QLD and 54 Sawmill Cct, Hume ACT.

^ Investment properties acquired by the Trust during the half-year period.

The Trust disposed 50% of these properties on 15 December 2022 and the combined value are \$115.6 million.

The Trust disposed 49% of the owner sub-trusts for these properties on 15 December 2022 for \$65.3 million. Due to the 49% owner sub-trust disposal, these properties are de-consolidated from the Trust's investment properties. The value of these properties are accounted for as part of the Equity accounted investments (Note C3).

** These properties are under development and the value as at 31 December 2022 is based on development progress.

The Trust's weighted average capitalisation rate as at 31 December 2022 is 4.66% (30 June 2022: 4.19%).

Valuation techniques and significant unobservable inputs

The fair values of the investment properties were determined by the directors of the Responsible Entity or by an external, independent valuation company having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Fair value is based on market values, being the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

The valuations were prepared by considering the following valuation methodologies:

- **Capitalisation Approach:** the annual net rental income is capitalised at an appropriate market yield to arrive at the property's market value. Appropriate capital adjustments are then made where necessary to reflect the specific cash flow profile and the general characteristics of the property.
- **Discounted Cash Flow Approach:** this approach incorporates the estimation of future annual cash flows over a 10 year period by reference to expected rental growth rates, ongoing capital expenditure, terminal sale value and acquisition and disposal costs. The present value of future cash flows is then determined by the application of an appropriate discount rate to derive a net present value for the property.
- **Direct Comparison Approach:** this approach identifies comparable sales on a dollar per square metre of lettable area basis and compares the equivalent rates to the property being valued to determine the property's market value.

The valuations reflect, as appropriate, the type of tenants actually in occupation or responsible for meeting lease commitments or likely to be in occupation after letting of vacant accommodation and the market's general perception of their credit-worthiness; the allocation of maintenance and insurance responsibilities between the lessor and lessee; and the remaining economic life of the property. It has been assumed that whenever rent reviews or lease renewals are pending with anticipated reversionary increases, all notices and, where appropriate, counter notices have been served validly and within the appropriate time.

The fair value measurement of investment property has been categorised as a Level 3 fair value as it is derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs).

C2 Investment properties classified as held for sale

Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition.

The Trust sold 30 Clay Place, Eastern Creek NSW for a gross sale price of \$34.5 million on 30 November 2022.

Trust's assets and liabilities

C3 Equity accounted investments

During the half year, the Trust entered into a strategic partnership formed with an investment vehicle sponsored by Morgan Stanley Real Estate Investing (MSREI) to acquire 49% interest of three CIP controlling entities and 50% interest of five properties from CIP. The sale transaction was completed on 14 December 2023. As part of this transaction, 49% of the underlying interest in the sub trusts carrying these properties were disposed, resulting in the retention of a 51% non controlling stakes. Whilst these assets continue to be managed by the Responsible Entity, the need for joint decision making across a number of material financial and operating matters under the terms of the sale deeds results in the loss of control with significant influence and therefore equity accounting adopted as the most appropriate basis for reporting these equity stakes.

Set out below are the associates of the Trust as at 31 December 2021 which, in the opinion of the Directors, were material to the Trust and were accounted for using the equity method. The entities listed below have share capital consisting solely of ordinary units, which are held directly by the Trust. The country of incorporation or registration is Australia which is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

At the end of the half year period, the Trust had 76.9% of its drawn debt hedged (30 June 2022: 61.7%).

As at 31 December 2022, the Trust had \$450.0 million (30 June 2022: \$450.0 million) of fixed rate borrowings of which \$350 million has been swapped into a floating rate exposure. At the end of the reporting period, the Trust's drawn debt that is on a fixed interest basis is \$950.0 million (30 June 2022: \$850.0 million).

The loan has covenants in relation to Interest Coverage Ratio ('ICR'), Gearing Ratio, Priority Debt Ratio, Unencumbered Asset Ratio, Development Ratio and Guarantor Coverage which the Trust has complied with during the period.

C5 Derivatives

Interest rate swap contracts

Under interest rate swap contracts, the Trust agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Trust to mitigate the risk of changing interest rates on the cash flow exposures on the debt held. The following table details the specific instruments held at reporting date, showing the notional principal amounts and contracted fixed interest rate of each contract:

All units in the Trust are of the same class and carry equal rights to capital and income distributions.

An equity instrument is any contract that evidences a residual interest in the assets of a Trust after deducting all of its liabilities. Equity instruments issued by the Trust are recognised at the proceeds received, net of direct issue costs.

D Other notes

D1 Fair value of financial instruments

The directors of the Responsible Entity consider that the carrying amount of the financial assets and financial liabilities approximate their fair value in the financial statements. All financial instruments are measured at amortised cost with the exception of the derivative financial instruments. Derivative financial instruments are measured at fair value and have a level 2 designation in the fair value hierarchy. There were no transfers between levels of the fair value hierarchy during the period.

Independent valuations are obtained from third parties to support the fair value measurement of financial instruments at each reporting date to meet the requirements of International Financial Reporting Standards.

Valuation techniques

The fair value of financial assets and financial liabilities are determined as follows:

- The fair value of interest rate swaps are determined using a discounted cash flow analysis. The future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contracted interest rates, discounted at a rate that reflects the credit risk of various counterparties.

The Trust classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: derived from quoted prices (unadjusted) in active markets for identical assets or liabilities that the Trust can access at the measurement date.
- Level 2: derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Independent Auditor's Review Report

To the unitholders of Centuria Industrial REIT

Conclusion

We have reviewed the accompanying **Interim Financial Report** of Centuria Industrial REIT (the Trust).

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Centuria Industrial REIT does not comply with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Trust's** financial position as at 31 December 2022 and of its performance for the **half-year** ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Consolidated interim statement of profit or loss and other comprehensive income;
- Consolidated interim statement of financial position;
- Consolidated interim statement of changes in equity;
- Consolidated interim statement of cash flows;
- Notes A1 to D4 comprising a summary of significant accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises of the Trust and the entities it controlled at the half-year or from time to time during the interim period.

The **half-year** is the 6 months ended on 31 December 2022.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the Interim Financial Report* section of our report.

We are independent of the Trust in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of Centuria Property Fund No. 2 Limited (the Responsible Entity of the Trust) are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Trust's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
