### COMMENTARY ON THE RESULTS FOR THE PERIOD

The net loss after tax for this year was \$3,256,747, down from the loss of \$4,218,908 last year. Full year revenue in FY2022 was \$292,823 down from \$422,984 last year, which was impacted by the COVID-19 pandemic and the completion of construction projects.

Cash on hand at the end of the quarter was \$2,250,855, increasing from \$1,428,381 last quarter, with \$1,599,335 net raised in the Share Placement during the last quarter of 2022.

The Extraordinary General Meeting held on the 9th of November 2022 approved the name change to GreenHy2, which emphasises our new branding to enhance our Renewable Energy and Hydrogen Storage strategic positioning. As noted in the previous Activities Reports, GreenHy2 [previously Tempo Australia Limited] is entirely focussed on our core Renewable Energy Strategy, in particular Solid State Hydrogen Storage Batteries supported by 100% renewable fraction generation.

GreenHy2 continues its Stand-Alone Power Supply trial using Solid State Hydrogen Storage and Solar Generation with Essential Energy as announced to the ASX. GreenHy2 provided an Investor Update report to the ASX on the 28th of October 2022.

Further to the Hydrogen Development, GreenHy2 provided an announcement to the ASX in respect to the GKN Agreement dated the 30th of December 2022. GreenHy2 have signed an agreement

with GKN that includes exclusivity for Australia and NZ for a period of 2 years with 3 year extension options subject to sales performance hurdles.

#### **FUTURE DEVELOPMENTS AND EVENTS AFTER THE REPORT PERIOD**

There were no reportable operational events in the post reporting period. GreenHy2 has completed an initial R&D Submission, with \$427,765 being received in February 2023 for FY2021. A further submission is planned for FY2022 and this calendar year to reflect the investment to date in the Renewables and Hydrogen Product Strategy of the company.

The Solid-State Hydrogen Storage business continues to gather momentum with a number of sales opportunities now being tendered and/or negotiated and we are expecting first sales in late H1 FY2023. GreenHy2 anticipates further announcements regarding our trial projects and our sales activity development through 2023.

The current market for Solid State Hydrogen Storage is quite extensive and in a large range of sectors however GreenHy2 is generally focussed on completely renewable Stand-Alone Power Supplies for both Utilities and private operators where we provide a very safe, low cost and reliable solution.

We continue to fulfill our continuous disclosure obligation and provide updates, if and when necessary.

#### **Audit**

The annual financial report is in the process of being audited by PKF. The financial report is not likely to be the subject of dispute or qualification.
