FORWARD LOOKING STATEMENTS

The documents provided contain statements related to our future business and financial performance and future events or developments involving the Company that may constitute forward-looking statements. These statements may be identified by words such as "expects," "looks forward to," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "will," "project" or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, Company representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of the Company's management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond the Company's control, affect the Company's operations, performance, business strategy and results and could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends. Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures. The documents provided in this presentation include supplemental financial measures that are or may be non-GAAP financial measures.

Chairman and Managing Director's Letter

It was a standout year for HSC and one of significant growth with HSC achieving revenue of \$7.1 million, representing a 96% increase on the prior year.

We were pleased to achieve this revenue growth while navigating the complexity of a volatile macro environment. We worked closely with our suppliers as well as our customers to mitigate supply chain risk, while maintaining a fiscally responsible approach to cashflow and continuing our focus on the path to profitability.

The investment in our sales pipeline is yielding results as HSC establishes itself as the partner of choice for assistive technology in the aged care space. This was most notably evidenced by securing two major contracts during the year, with Chubb / VitalCall in the first half of the year, followed in the second half of the year with the award of the contract to supply assistive technology solutions to Lendlease's Retirement Living business.

These contracts are transformative and HSC views securing such major national clients as validation of our market leading devices and platform.

HSC currently has over 15,000 subscriptions on our Talius Smart Care Platform, with annualised recurring revenue (ARR) at \$1.2 million, a 106% increase from the prior year. HSC expects subscriptions to continue to increase as our residential aged care project sites go live, in addition to the substantial number of new customers from the Chubb / VitalCall and Lendlease contracts currently being onboarded to the platform.

The material tailwinds for the aged care sector remain real, and we're witnessing an increased demand in activity of new developments, refurbishments and the requirement to upgrade personal emergency response systems due to the impending 3G shutdown. We recorded continued sales in home care and retirement villages and our projects team worked diligently on residential aged care facilities, as we extended our relationship with ACH Group and reached the milestone of project completion for our first Australia Unity site.

HSC continued to invest in our Talius Smart Care Platform and enhance its offering with new partners and products being added to our solutions. This included integrating vital signs from multiple devices that positions HSC to venture further into other complementary sectors, including healthcare and remote patient monitoring.

As HSC targets profitability from its existing markets, we will also consider broadening strategy with platform as a service by exploring licensing opportunities of our Talius Smart Care Platform. This opportunity will provide further geographic expansion possibilities to add to our current foray into Singapore and New Zealand.

HSC enters 2023 with a strong pipeline and is well positioned for growth. We will continue to execute on this with a strong focus on our path to profitability and an aim of delivering long-term value for shareholders.

The Aged Care Industry – Tomorrow's revenue drivers

Ageing population

7.2% pa growth rate

Those over 85 years are projected to increase from 500,000 or 2.0% of the population in 2018 to 1.5m or 3.7% of the population by 2058. This implies a growth rate in the medium term of 7.2% pa.

3G network shutdown (June 2024)

~300,000 systems

to be replaced in the next 18 months, approximately 500+ per day starting now.

Workforce shortage

Workforce shortage is driving the industry to find tech solutions to create a smarter and safer support system for older people with a growing level of complex health needs including a continuing rise in people living with dementia.

Significant legislative reform

A new aged care Act as a result of the Royal Commission into Quality and Safety including new aged care standards, new funding models for home care and residential care, and more compliance requirements.

HSC's differentiator

Talius™ Smart Care Platform

Identifying the Problem

Manual processes are
literally killing the aged
sector

- Inefficient and repetitive
- Too slow for meaningful intervention
- Poor data capture
- Disruptive, undignified and embarrassing
- Don't include family
- Low-value, high cost

Addressing the Problem

By using technology to shift

AWARENESS

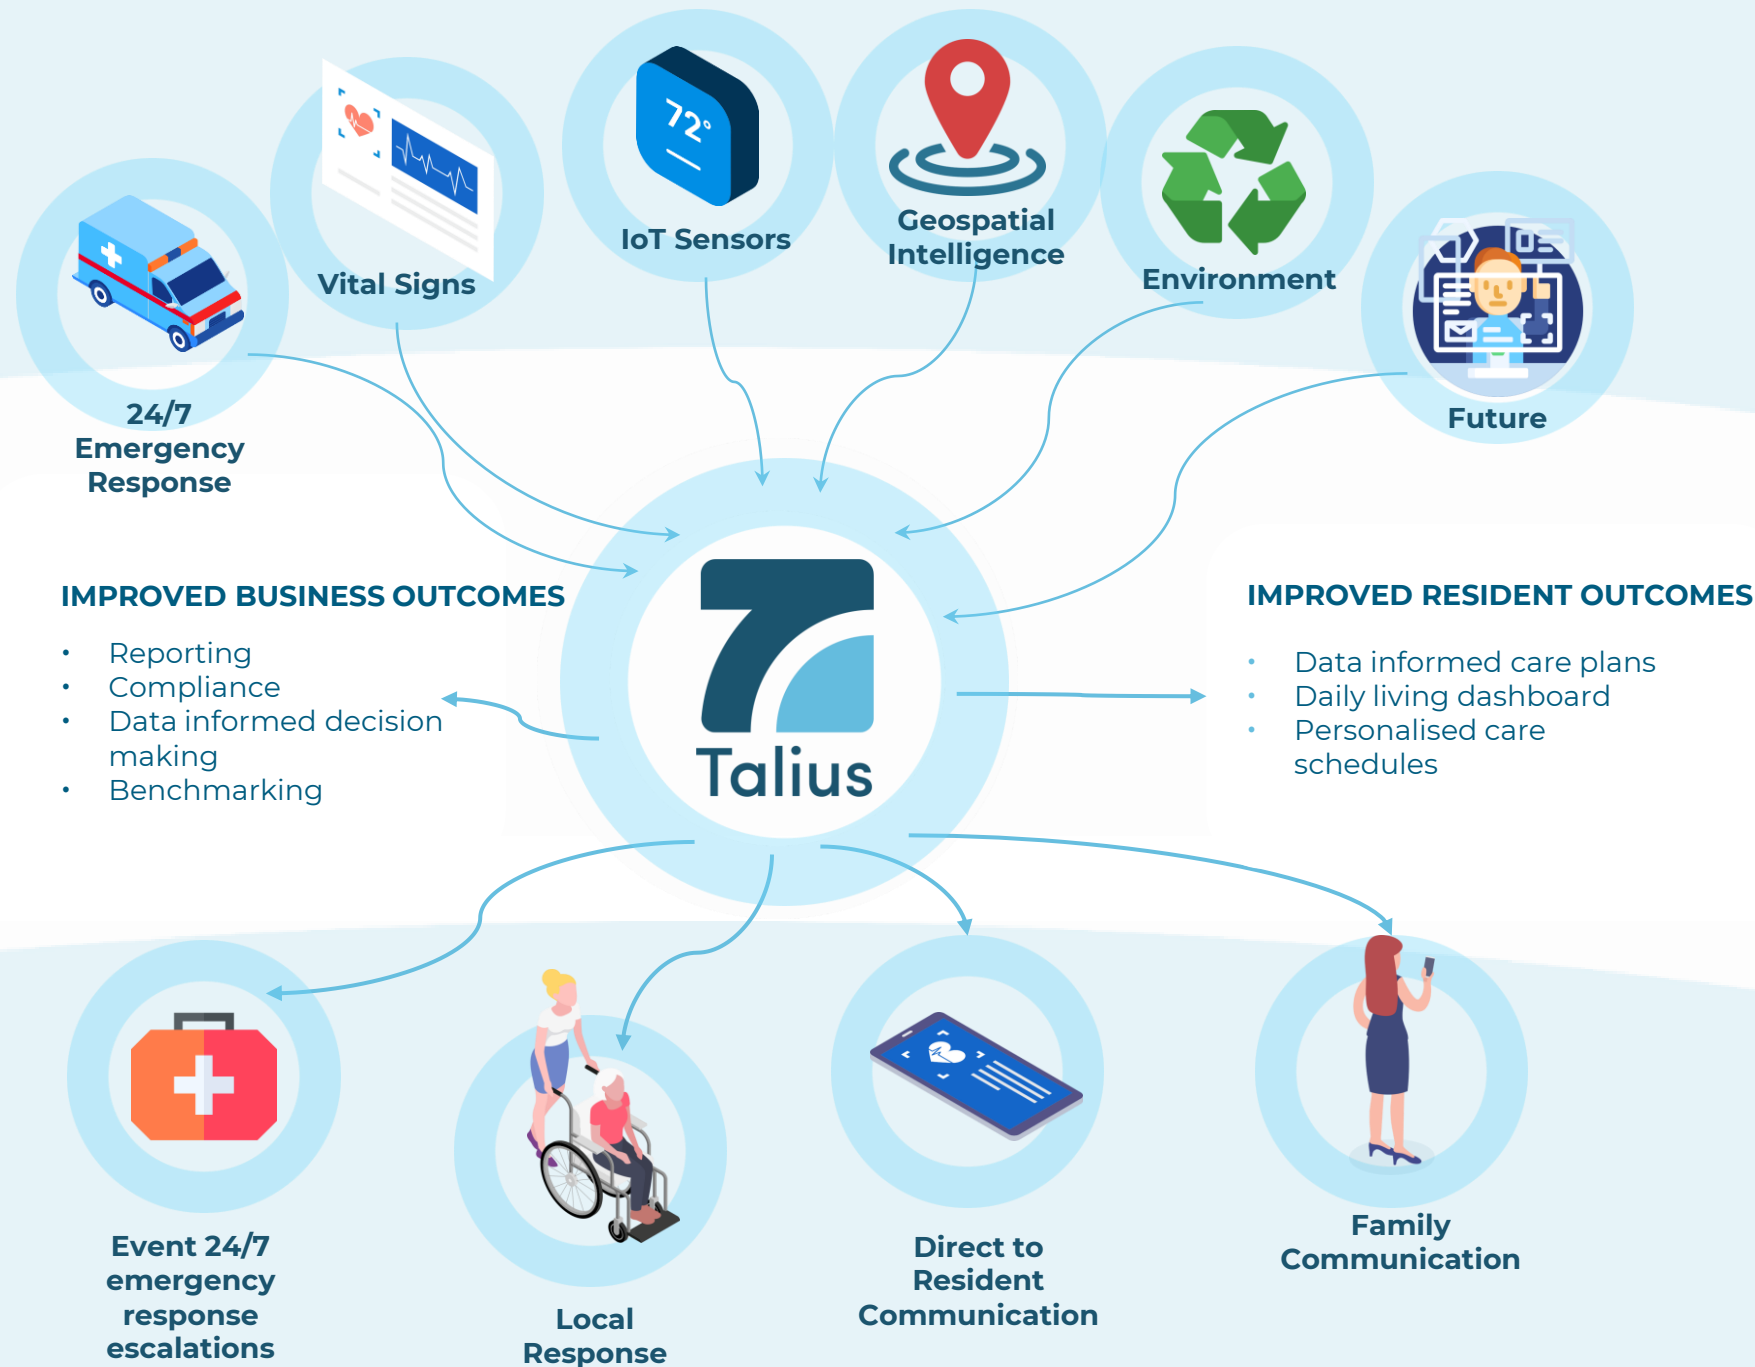

It starts by using technology to shift spot-check care to sense-respond care...

ANALYSIS

The data is captured within Talius – an agnostic AI engine that links in with existing systems and technology. Talius provides oversight in simple dashboards to improve outcomes.

ACTION

Talius uses advanced predictive interpretation to automatically detect anomalies and complete proportional actions.

The Challenges We Solve

Aged Care providers are dealing with these five issues.
HSC's Talius Smart Care Platform solves these.

Better Compliance

- Key personnel risk
- ACQSC Assessment Failures
- Avoid reputation damage
- AN-ACC Reforms around care minutes and star ratings

Staff Engagement

- Maximising utilisation
- Removing unnecessary repetition
- Reducing churn and the hiring costs

Communication with Families

- Receiving information on their own terms – what, when, and how
- Providing peace of mind
- Easily identifying promoters and detractors
- Alleviating their stress

Resident Autonomy

- Resolving spot-check issues
- Moving towards data informed management
- Creating dignified and supported environments
- Changing negative perceptions

Commercial Viability

- Maintaining 92%+ occupancy
- Maintaining a competitive advantage
- Recurring revenue streams not linked to resident fees

The Age Care Evolution will be a Revolution

ADJUSTMENTS	DESCRIPTION
Share based payments	<p>HSC has provided performance rights to employees, directors and certain key consultants in order to attract, retain and incentivise these individuals.</p> <p>This investment in the HSC team is designed to strengthen all areas of the business and sets a platform for expected future growth, especially given the tight labour market conditions in the sector.</p> <p>HSC expects to issue further performance rights moving forward, but has classified these amounts as non-operating in order to better demonstrate the cash profit/loss for the respective reporting periods.</p>
Amortisation of intangibles assets	<p>As part of the acquisition of HomeStay Care International Pty Ltd, certain intangible assets were recognised.</p> <p>These assets have now been amortised in full, and no further amortisation expenses in relation to these assets will be charged in future reporting periods.</p>
Impairment of inventory	<p>As part of the acquisition of HomeStay Care International Pty Ltd, HSC acquired a range of legacy 3G devices in the inventory stores.</p> <p>With the impending 3G shutdown in Australia, HSC impaired a total of \$450,016 across the FY21 and FY22 years, representing the estimated unrecoverable value of these devices.</p> <p>No further impairment charges are expected in future reporting periods in relation to these devices.</p> <p>HSC has not purchased any 3G devices subsequent to the acquisition of HomeStay Care International Pty Ltd.</p>
