ASX Release

24 April 2023

Legal Proceedings - Philippines

Leading sensor AI software and solution provider SenSen Networks Limited (ASX:SNS) ("**SenSen**" or "**the Company**") today announces that, further to the ASX Announcements of 16 December 2022 and 7 March 2023 regarding the Federal Court of Australia proceedings commenced by Angel Group Co., Ltd and Angel Australasia Pty Ltd (**Angel**) whereby it is alleged that SenSen has infringed seven of Angel's Australian patents, SenSen has been served with a similar claim in Branch 148 of the Regional Trial Court, Makati City in the Philippines in relation to Angel Group's Philippine patents.

SenSen has been working to formally retain lawyers in the Philippines to investigate the veracity of Angel's claim. It is anticipated that lawyers in the Philippines will review the allegations contained in Angel's Complaint and its exhibits and obtain instructions to file an Answer to the Complaint and any evidence by 19 May 2023. In the meantime, SenSen considers it prudent to inform the market of the claim and the abovementioned steps.

Angel is a former distributor of SenSen's gaming solution and still owes the Company distributor fees. This type of legal action is not uncommon in the gaming industry and, as such, SenSen has been building its own patent portfolio for a number of years.

As indicated in the Company's Quarterly Activities and Cashflow Report December 2022, the gaming business is a small part of SenSen's overall business, currently contributing less than 10% of revenue. SenSen will provide an update in its next Quarterly Activities and Cashflow Report.

This release is approved by the Board of SenSen.
