

DGR Global Limited

Quarterly Activities Report

DGR Global **Limited (ASX: DGR, DGR Global)** is not just another resources company. DGR Global is a *resource company creator*.

Our project generation, strategic tenure acquisition, corporate development and investment capabilities provide investors diversity across several different commodities, sovereign jurisdictions, and international financial exchanges. With our group of talented exploration staff, we focus on identifying and securing projects that will yield valuable and enduring world-class resource assets.

DGR GLOBAL CREATES RESOURCE COMPANIES

DGR Global's business is the creation of resource exploration, development, and mining companies. The business uses the skills of a core team of talented exploration staff to identify resource projects capable of yielding world class discoveries of commodities with enduring strong fundamentals. This is achieved through the identification of commodities with a favourable 20-year demand, growth, and price outlook. DGR searches for geological terranes with:

- A demonstrated strong endowment for that commodity in an historically under-explored region
- Opportunity for the application of newly developed exploration and metallurgical techniques to assist in the definition of economic resources
- Jurisdictions with improving socio-economic and regulatory frameworks
- Extensive available tenures
- Existing data sets which provide the basis for innovative reinterpretation

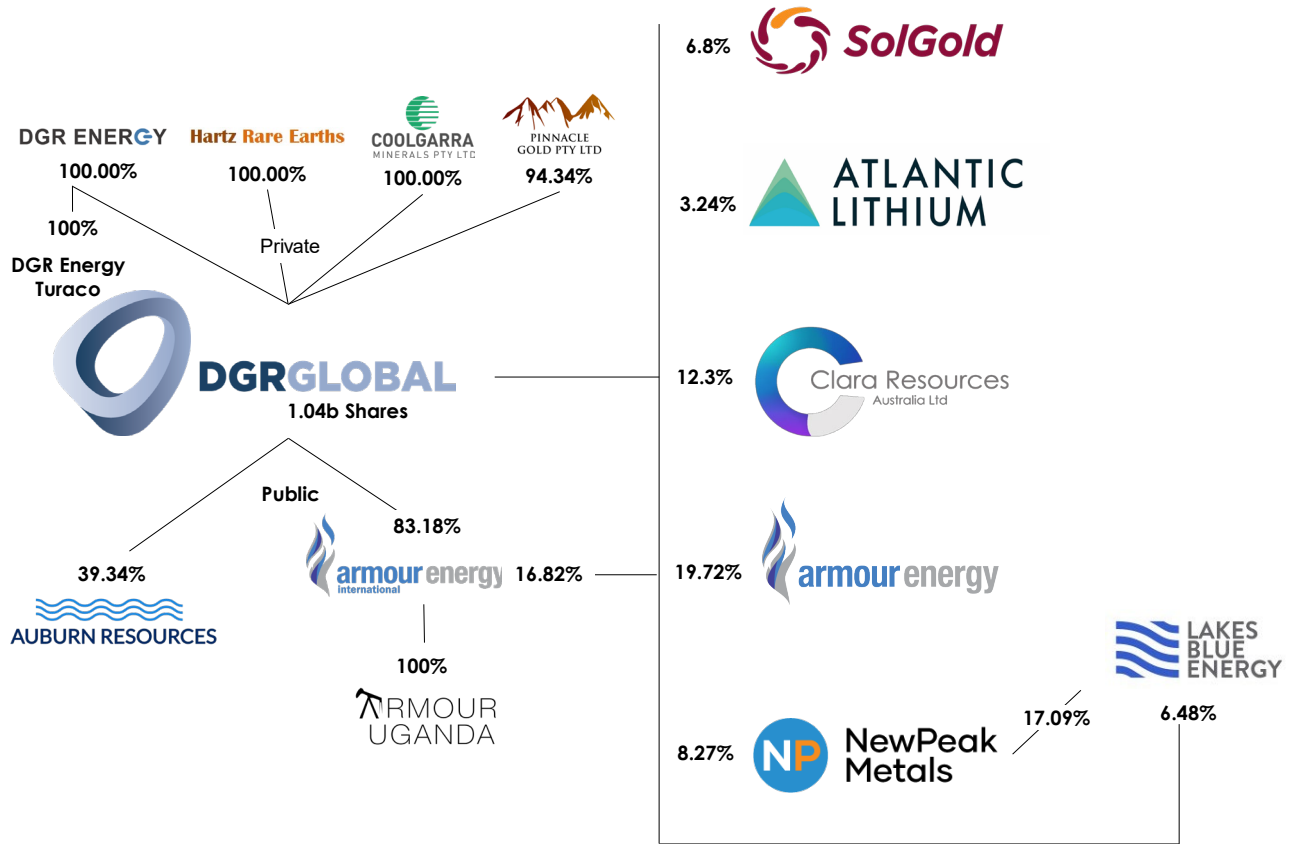

DGR Global provides initial seed funding and management support to secure these assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and in 2015 crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26Million. Further development of its holdings in LSE/TSX listed SolGold and AIM/ASX listed Atlantic Lithium and ASX listed Clara Resources, New Peak Metals, Lakes Blue Energy and Armour Energy and unlisted Auburn Resources, DGR Energy and Armour Energy International are expected over the coming years.

The previous resource exploration and funding activities of DGR's key personnel underscore the opportunities provided by the DGR business model. DGR Global does not generally purchase its exploration projects. DGR's in house generative capabilities give the Company a strong competitive edge. DGR's focus on provincial tenement positions covering entire sedimentary basins or structural blocks where possible, delivers capital, government, and major resource corporate attention.

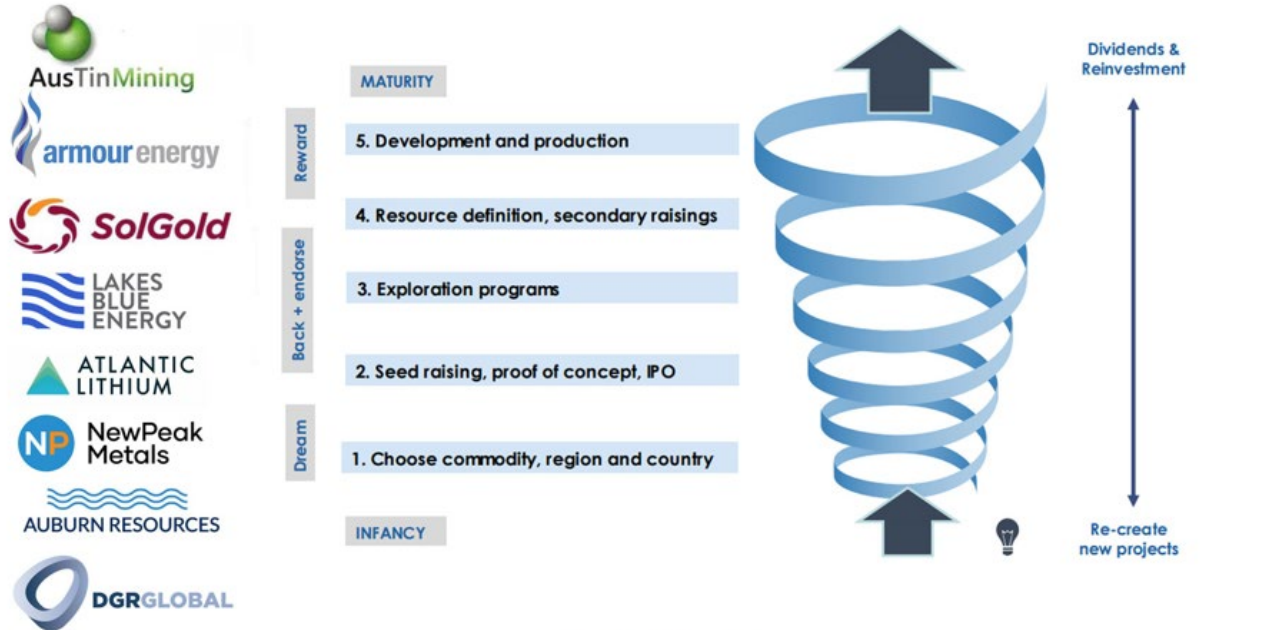

DGR Global holds key equity positions in its subsidiary companies after listing. As shown in the DGR Global Group Corporate Structure as of 31 March 2023, DGR Global holds:

- 19.72% of Armour Energy Ltd (ASX : AJQ),
- 6.8% of SolGold Plc (LSE/TSX : SOLG),
- 3.24% of Atlantic Lithium Ltd (LSE : ALL, ASX : A11),
- 12.3% of Clara Resources Australia Ltd (ASX : C7A),
- 8.27% of New Peak Metals Ltd (ASX : NPM),
- 6.48% of Lakes Blue Energy NL (ASX: LKO).

Auburn's Project Portfolio by commodity and deposit type in Queensland and the Northern Territory

Armour Energy International | DGR Interest 83.18% (AJQ 16.82%)

Project: Kanywataba Block | Area: 344km² | Prospective for: Oil and Gas Location: Albertine Graben, Uganda

Armour Energy International holds a 100% interest in Armour Uganda. Armour Uganda's flagship project is the 'The Kanywataba Block'. The licence is currently pending renewal. The project is located in a rift basin within the Albertine Graben, within close proximity to the Total and CNOOC operations in the North.

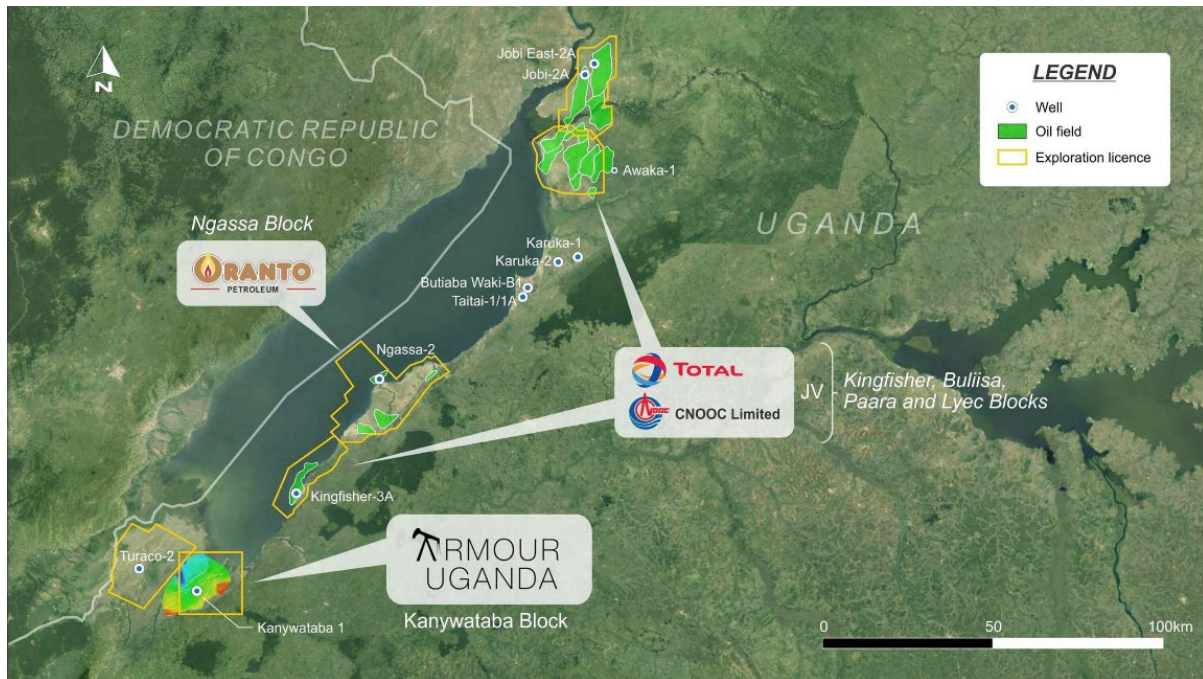

Within the block there are multiple developed (untested) on-trend structural traps (3-way and 4-way dip closures) and multiple untested stratigraphic traps.

The Kingfisher oil discovery (40km NE of Kanywataba) oil seeps confirm a local working petroleum system.

Force majeure conditions as a result of wet weather and the COVID-19 pandemic have been lifted. Exploration work has recommenced with the 2D seismic survey to be undertaken with +100-line kilometres of infill 2D seismic to refine prospectivity observed in the Kanywataba block.

Activities have included the following:

- Reprocessing of existing 2D seismic data
- Geochemical surface soil gas sampling program with results pending
- 122 line km infill 2D seismic programme to commence in June
- Basin Analysis study

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
