01 Introduction to Pinnacle

Introduction to PNI

What PNI offers shareholders

- Highly diverse earnings stream, generated from multiple asset classes
- High growth 5-year compound NPAT growth of 45% per annum¹
- High growth in dividends 5-year compound dividend growth of 38%² per annum¹
- Continuing operational leverage from current Affiliate cost base
- Significant growth opportunities organic, Affiliate self-funded investment and non-organic (three Horizons of growth)
- Increasingly diversified revenue base, including growing exposure to alternative and private markets asset classes
- Capacity of the current strategies managed by Pinnacle Affiliates is in excess of \$300bn (at 100%)

How is this generated?

- A 'pure play' investment management firm providing affiliated investment managers with high quality distribution, infrastructure and other support services allowing investment professionals to focus on investment excellence
- Equity ownership in Affiliates has been helpful in delivering alignment with Affiliate principals
- Founded in 2006 (became listed in 2016), Pinnacle currently holds an equity interest in 15 specialist investment managers, across multiple asset classes
- Pinnacle affiliated investment managers have delivered sustained, long-term outperformance over their benchmarks
- Highly regarded distribution teams have consistently delivered industry leading FUM inflows; strong in Australian retail, Australian institutional and (increasingly) offshore institutional and wholesale markets

to 30 June 2022

Introduction to PNI

· How we receive our profits

- Our share of Affiliates' profits equity accounted (1H FY23 NPAT our share \$28.4m of \$70.1m total)
- · 'Parent' revenues for our services, offset by costs of provision and 'Horizon 2' investment for future growth
- Three Horizons of growth:
 - Horizon 1: organic growth of the existing business of existing Affiliates
 - Horizon 2: new Affiliates, new initiatives within existing Affiliates, new 'Pinnacle parent' initiatives short-term 'drag' on profits
 - Horizon 3: acquisition of interests in new Affiliates or synergistic businesses requires capital

• We have grown strongly and plan to further accelerate growth, from multiple sources

- Multiple sources of future growth (Three Horizons, both within Australia and internationally)
- Aggregate Affiliates' FUM at 31 December 2022 (at 100%) \$83.2 billion; CAGR of 22.4% p.a. over the ten years to 31 December 2022 (20.7% excluding \$6.8bn 'acquired' in July 2018, \$3.0bn 'acquired' in December 2019 and \$1.1bn 'acquired' in December 2021)
- See independent research reports for information relating to expected future growth

Introduction to PNI

What is 'special'/distinctive about Pinnacle?

• Our distinctive business model was designed specifically to ensure sustained <u>investment excellence</u> - embedded in our DNA

- The most talented and experienced investment professionals love it; more importantly, their clients love it it delivers stability and sustainability/longevity, which traditional investment institutions are less able to facilitate
- We are 'experts' at the 'multi-affiliate' model (successfully executing on it for two decades)
- Distribution pre-eminence
- We execute on it better than others; we understand the talented people and their needs, the subtle forces that sustain enduring excellence and those that are inimical to it. We ensure succession when others don't seem able or willing to

· How we can we continue to grow

- Our business model is deliberately modular, with autonomous units, and highly-scalable
- Continuing investment in distribution and infrastructure

• Is it sustainable over the long term?

- 'Stand alone' boutique investment firms and institutional investment firms can be fragile but our 'supported independence' model makes Affiliates stronger and more sustainable
- We have added significant value to each of the businesses we have acquired interests in

1H FY23 Themes (as reported in half-year results presentation)

- Core revenues (ex-performance fees) resilient
- Earnings impacted by cost of Horizon 2 investment in both Pinnacle and Affiliates as investment for future growth continues
- During 1H FY23, market and style shifts significantly impacted Funds Under Management (FUM) in certain areas
- Quality and diversity of FUM has mitigated downside from volatile markets and dynamic fund flows including rotation from growth to value orientated strategies and pressure on REITS
- Continuing success in offshore markets, and in alternative strategies
- Particularly in the Australian market and listed equities, challenging conditions for generating new business during the half

Pinnacle is not immune to market factors, but diversified platform provides resilience and will drive growth throughout the cycle

 - The FTSE EPRA Nareit was down 10.4%

03 Diversification and growth in private markets

performance fee potential

Over the past six years we have pursued diversification by asset class, client type and revenue source, including performance fees

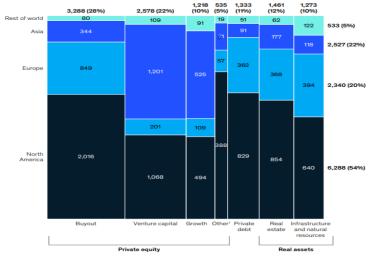

Change in FUM by Asset Class (%)

- Globally, total private markets Assets Under Management (AUM) reached US\$11.7tr as of 30 June 2022, and has grown at an annual rate of 20% since 2017
- Private markets have the potential to offer enhanced returns, inflation protection and portfolio diversification
- Private equity has a demonstrated history of strong growth with increasing allocations from the world's largest institutional investors, and is becoming increasingly accessible to wealth management and retail investors
- Real assets such as private infrastructure have demonstrated defensive returns and attractive inflation-hedging characteristics
- Private debt has exhibited low-volatility, floating rate returns that have risen in line with central bank cash rates
- Annual fundraising in private debt has more than tripled since 2013 to US\$224bn, growing at an annual rate of 12%, the fastest growth among all private markets asset classes

Private markets AUM totaled \$11.7 trillion.

Private markets assets under management, H1 2022, \$ billion 100% = \$11.7 trillion

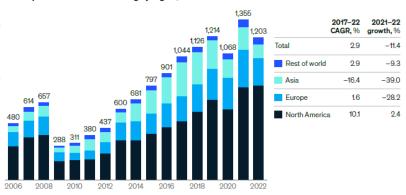

Note: Figures may not sum precisely, because of rounding.

*Includes turnaround PE funds and PE funds with unspecified strategy.

Sources Description

Global private markets fundraising by region, \$ billion

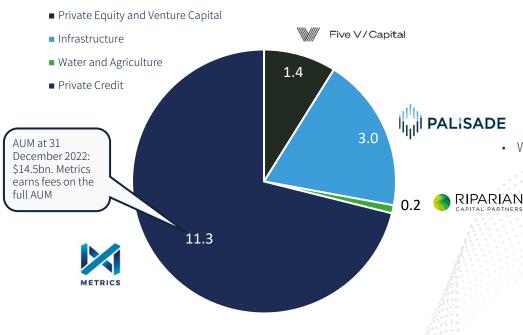

Private markets refers to private equity, real estate private equity (ie, closed-end funds), private debt closed-end funds, natural resources closed-end funds, and infrastructure closed-end funds. Secondaries and funds of funds are excluded to avoid double counting of capital fundraised.

Private markets FUM has grown from \$1.4bn and 7% of total FUM at 30 June 2016, in one manager and one strategy (Palisade), to \$15.9bn and 19% of total FUM at 31 December 2022 (\$19.1bn AUM at 31 December 2022) across four managers and fifteen strategies

Private Markets FUM - \$15.9bn² at 31 December 2022

- Pinnacle's long-term expansion into private markets has been driven by
 - Durable demand from global investors
 - · High fee margins, attractive performance fee potential
 - · Low correlation to equity market beta
- What have we achieved?
 - Pinnacle has been an investor in private markets firms since 2007
 - 19% of Pinnacle FUM, 30% of Affiliate Revenues from private market asset classes in 1H FY23¹
 - Broad spectrum of private markets offerings across private credit, private equity, venture capital, real estate, infrastructure, real assets, impact and natural capital
- What is different?
 - Typically, closed-ended funds levy fees on committed and drawn capital, whereas open-ended funds charge fees on drawn capital only
 - As at 31 December 2022, Pinnacle Affiliates had ~\$1.0bn in contractually committed, undrawn capital in open-ended funds
 - Recognition profile of revenues can be somewhat 'lumpy' (e.g., origination fees in private credit; carry in private equity)
 - Performance fee potential is greater and, generally, more reliable in private markets asset classes

Leading alternative investment manager specialising in private debt

- Pinnacle has been Metrics' distribution partner since the inception of the business in 2013
- Pinnacle acquired a 35% equity interest in July 2018. AUM
 of \$3.0bn as at 30 June 2018, of which FUM was \$2.5bn,
 diversified across all major bank loan product categories
 including corporate, commercial real estate, project
 finance and infrastructure and GP sponsor solutions
- Metrics is Australia's leading investment manager in private debt by AUM, which is a strongly growing asset class
- Expansion into other private markets verticals, such as private equity in CRE
- At 31 December 2022, Metrics' AUM was \$14.5bn, of which FUM was \$11.3bn, representing a five-year AUM CAGR of 41%

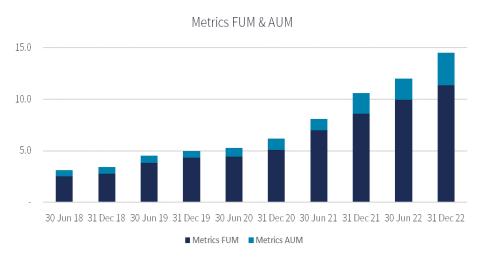

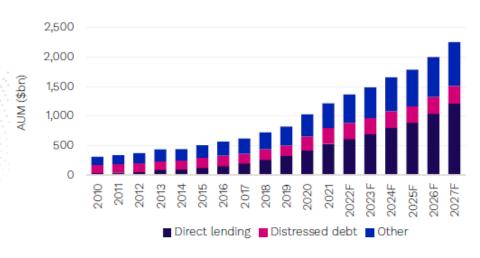

Fig. 3.2: Global private debt assets under management (\$bn) by substrategy, 2010-2027F

Leading alternative investment manager specialising in private debt

- In excess of 120 employees including 70+ origination professionals located in Sydney, Melbourne and Auckland
- Metrics also continues to diversify both its product base and end client mix, increasing its ability to both raise and deploy capital
- Metrics has accelerated the pace of Horizon 2 investment, with the costs associated with the development of each of these initiatives coming ahead of revenue and profit growth
- Metrics' profit in FY23, particularly H2, is expected to be negatively impacted by these Horizon 2 investments, as well as the impact of consolidating Payright:
 - Metrics become a 52.5% owner of Payright on 9 January 2023
 - Metrics' interest increased to 85.2% on 15 March 2023
 - Payright reported a net loss of \$4.9m in its half year results to 31 December 2023, released on 24 February 2023
 - Metrics will consolidate its effective interest in Payright from 9 January 2023
- These initiatives provide Metrics the capacity to originate credit assets to meet the growing demand of investors for private market assets
- Metrics has an established base and highly-regarded team. These Horizon 2 investments present the opportunity for growth on attractive terms with regards to risk and cost
- Metrics has demonstrated strong, long-term performance across all strategies

04 Conclusion

1	Highly attractive platform for the best investment professionals	 Platform liberates investment professionals to focus on what they do best 83% of FUM has outperformed benchmark over five-year period¹
2	Track record of strong FUM growth	 Gross FUM (at 100%) of \$83.7bn¹ across a range of different asset classes and strategies 10-year gross FUM growth at ~22% CAGR²
3	Diversification across investment strategies and asset classes	 Highly diverse earnings stream, generated from multiple asset classes Alternative strategies (incl. credit, real assets and private equity) now account for ~42%² of our FUM
4	Increasing leverage to performance fees	 Number and diversity of strategies with performance fee potential has increased FUM with performance fee potential significantly increased due to exposure to alternative strategies where fee structures can incl. hurdle rates
5	Strong financial performance and shareholder value creation	 High growth – 5 year NPAT and dividend CAGR >30%² Significant operating leverage inherent in "multi-affiliate" business model
6	Multiple drivers of future growth	Significant growth opportunities across three Horizons – organic, Affiliate self-funded and inorganic

Pinnacle's diverse Affiliate portfolio and extensive distribution channels provide robustness whilst fostering growth opportunities

Fundamentals in place for organic sales growth and improving the underlying FUM composition

- · Highly regarded Affiliates with strong local and international investment consultant and research house ratings
- Diverse stable of Affiliates (asset class, style, strategy, maturity) aims to achieve 'all-weather' relevance to asset owners as the market conditions change through time
- Australian institutional fund consolidation creates risk to mandate retention; however, 'supported' start-ups offer the capacity, fees, alpha potential, operational hygiene and financial viability that mega-funds seek
- · Global equities, global emerging markets and private capital asset classes expected to drive ongoing FUM growth
- Retail and international distribution platforms enable us to 'recycle liberated capacity', particularly in Australian equities and global REITs, from domestic institutions into a more diverse and higher margin client base

New Affiliates, strategies, channels and geographies provide new levers for expansion

- Launch of new Affiliates, new product extensions create opportunities for expansion
- 'Affiliates-within-Affiliates' provide lower-risk growth opportunities, adding diversity and building resilience into Affiliates by leveraging existing capabilities, brands and infrastructure into adjacent, complementary asset classes
- Retail distribution extending into new investor verticals via private capital asset classes and exchange-traded funds (closed-end and open-end)
- International distribution emerging as an engine of growth following organic, multi-year build-out of global investor networks, strategies and infrastructure
- Northern hemisphere distribution hubs, fiduciary outsourcing and virtual due diligence 'bridging the distance' between Australian-based Pinnacle Affiliates and the world's largest pools of capital

Balance sheet capacity and flexibility is an important enabler of growth

- \$120m CBA facility provides additional balance sheet capacity and flexibility, but Pinnacle maintains a strong net cash position (\$59m at 31 December 2022)
- Balance sheet capacity and flexibility places Pinnacle in a stronger competitive position when negotiating new Affiliate acquisitions
- Seed capital commitments are proving to be an invaluable commercial accelerator for start-ups, particularly in private markets asset classes, where acquisition multiples for established businesses are elevated
- Primary capital investments in private markets firms gives them capacity to accelerate their growth by acquiring complementary platforms/businesses, moving into new market segments and adjacent asset classes
- Balance sheet capacity is an enabler of succession and equity recycling within Affiliates and a source of low risk earnings accretion for Pinnacle

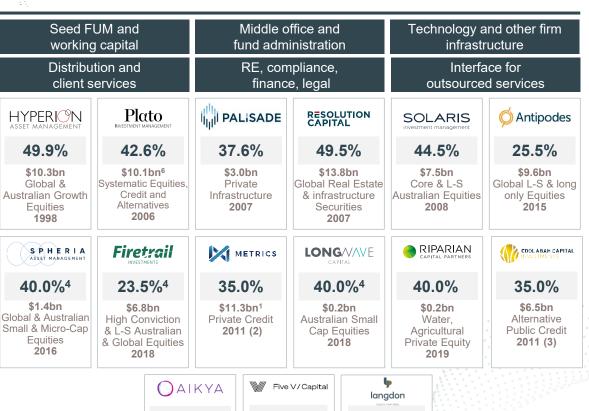

- Our distinctive, modular platform provides us with an excellent foundation for delivering continued growth within existing Affiliates and for prosecuting new Horizon 2 and 3 growth initiatives when they emerge
- Institutional investors, financial advisers and individual investors, locally and internationally, remain cautious and defensively positioned however Affiliate quality and diversity, across public and private markets, equity and debt, place us in a competitive position to seize market share when opportunities present
- We continue to work hard across retail, institutional and international distribution channels to ensure that we are poised to fully participate when the tide of investor flows returns
