Our purpose

%nib

Your better health and wellbeing

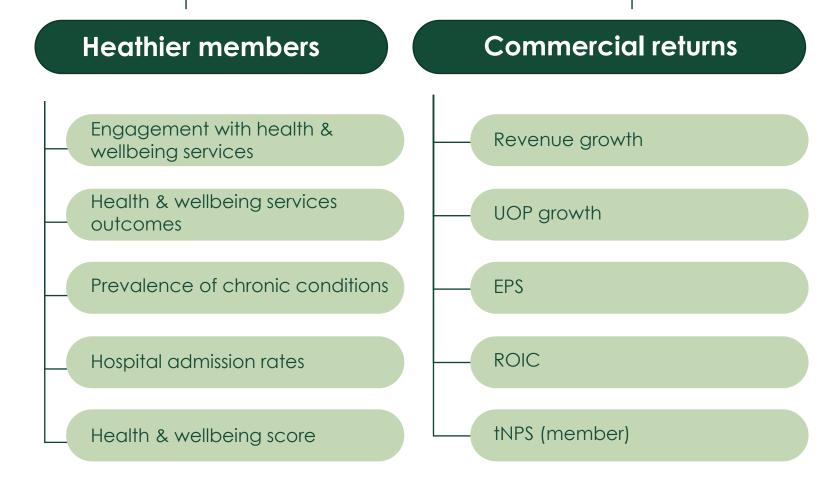

- Deliver deep insight and guidance about how to best achieve personal health and wellbeing goals and manage disease risk.
- Customise and connect with a wide ecosystem of health and wellbeing products, services programs and providers relevant to personal goals and risk.
- Make it all accessible and affordable with insurance, other related financial protection support and technology.

We have developed **5 purpose measures** to complement the **5 commercial measures** and monitor our progress towards our purpose.

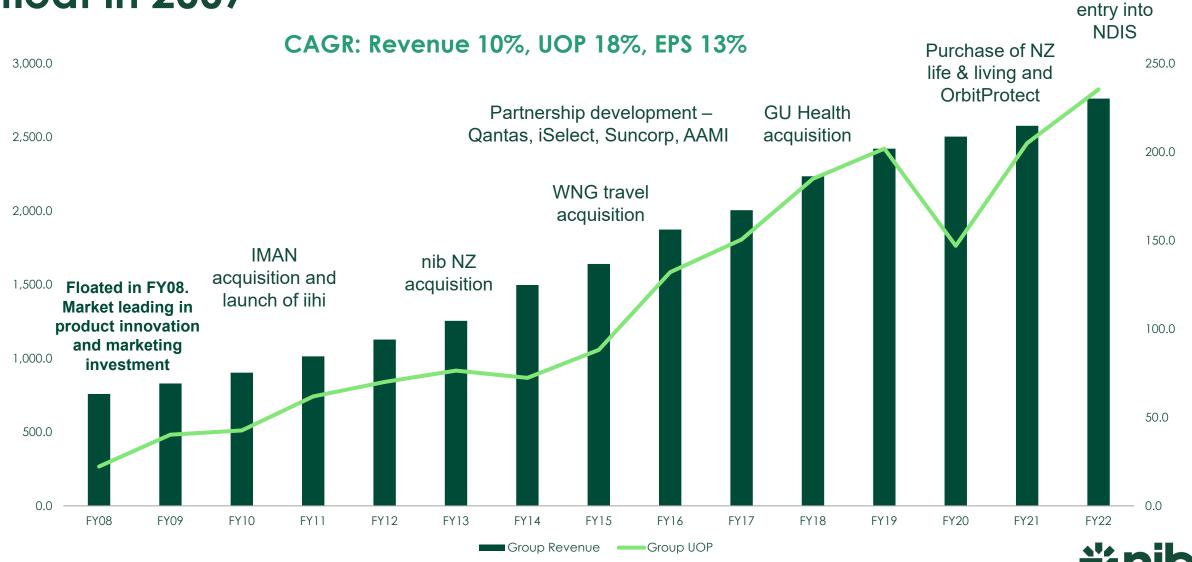

Your better health & wellbeing

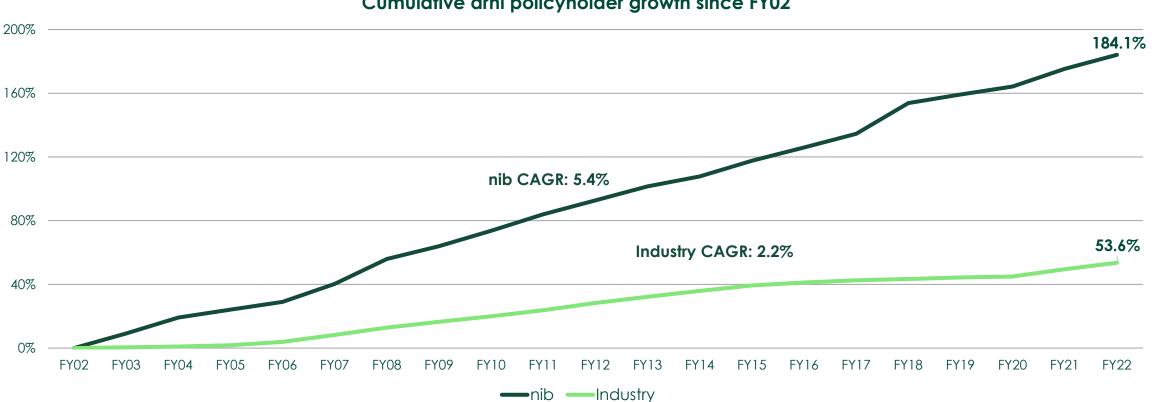

nib has shown strong and consistent growth since its float in 2007

FY23:

Driven by its strength in the core arhi business

Above system growth in every year for the last 20 years

Cumulative arhi policyholder growth since FY02

Business strategy – Payer to Partner (P2P)

We apply data science and predictive analytics in developing deep insight into the health risk of individuals and how it may be best managed, as well as equip them with integrated digital tools for seamless engagement with us and the healthcare system (**personalisation**).

This insight and engagement becomes our core capability and competitive advantage. Consistent with our purpose it helps our members, travellers and their healthcare providers improve health outcomes. With that we are able to:

PHI expansion

Expand our value proposition and differentiate nib in existing private health insurance (PHI) markets by making membership as much about supporting good health as it is the treatment of sickness and injury. We grow the PHI market and our share.

New markets

Enter and grow new markets with a non-PHI membership as well as offering treatment packages and health programs specific to a wide range of conditions. We differentiate and grow our travel product and pursue NDIS opportunities.

Cost containment and affordability

Better contain healthcare treatment and claims cost inflation through more precise and effective disease prevention and management. Containment is then passed through to members and travellers in the form of more competitive premiums and/or improved service and benefits.

Revenue and value capture

Capture revenue and value from existing healthcare providers through Honeysuckle Health and its wide range of health risk management products and services.

Government and 3rd party programs

Aspire to manage healthcare and improve outcomes within discrete communities on behalf of Government and other healthcare payers.

In pursuit of these goals, we continue to develop organisational, talent and advanced technological capability across the Group (organisational capability).

Health and wellbeing ecosystem

People can access a personalised ecosystem of products, programs and health services via a seamless nib driven experience

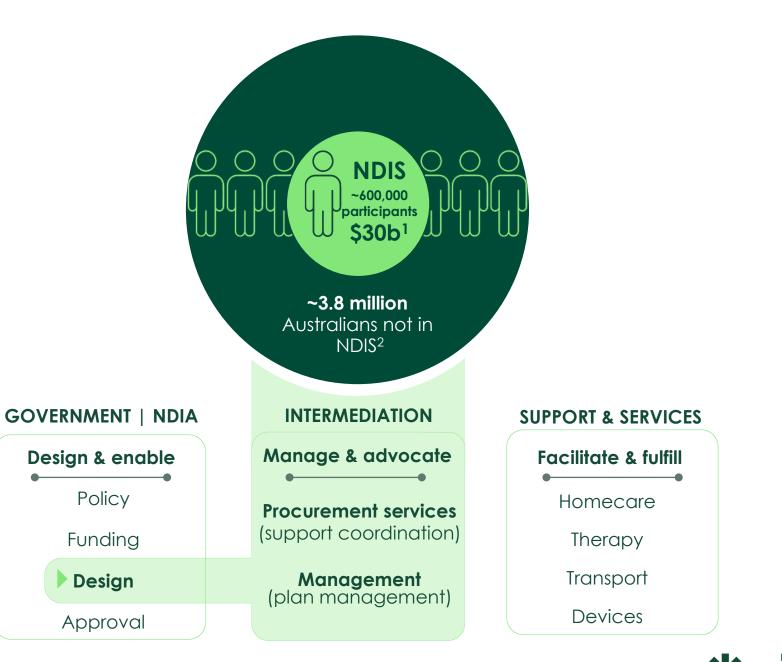

Historia Thrive

We aim to help people living with disability and long-term health needs overcome their challenges, achieve their goals and improve their quality of life.

We do this through innovative, human and digital solutions to make a genuine difference to people who seek convenience, accessibility and inclusion.
