SRJ secures order from Trident BMC for BoltEx® solution

Highlights:

- SRJ secures purchase order for the sale of its BoltEx® flange bolt integrity solution
- Initial order valued at A\$164k(US\$109k)

SRJ Technologies Group Plc (ASX: SRJ; “SRJ” or “the Company”) is pleased to announce that the Company has been issued a purchase order from Trident BMC LLC (“Trident”) for the sale of its flange bolt integrity equipment, BoltEx®.

This initial order is valued at A\$164k (US\$109k) with the expectation of further orders to follow as Trident looks to assist operators mitigate the safety and environmental challenges surrounding the integrity of flanged connections in piping systems.

Commenting on the contract award, SRJ Director, Roger Smith, said:

“The sensitivity to emissions control and workplace safety is driving increased investment by facility operators to detect and control such emissions. The degradation of flange connections in piping systems is a major cause of fugitive emissions. SRJ’s BoltEx® Hot Bolting Tool enables flange bolts to be removed and replaced safely without interrupting production or depressurising pipework systems.”

“SRJ is experiencing strong demand for the purchase and rental of its range of BoltEx® flange clamps to restore the integrity of flange connections. We look forward to supporting Trident who will be utilising BoltEx® to provide an effective hot bolting solution to a global FPSO operator.”

The order is subject to SRJ’s standard terms and conditions for a product sale as detailed on its website.

About TRIDENT

www.tridentllc.com

Headquartered in Washington, USA, with in excess of over 1,300 maritime professionals across 19 countries, **TRIDENT** provides engineered solutions in marine interiors, distributed ship systems, electromechanical solutions, and automation and control.
