The strong performance is built on the successful diversification of revenues away from reliance on finance related valuations together with the improved cost base and has established a platform from which the business can continue to build through FY24 and beyond.

# Overview of Acumentis' operating environment

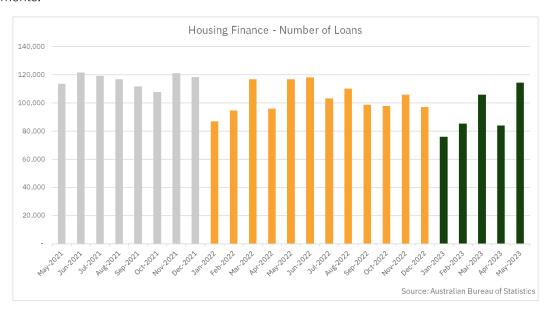

The economy continues to experience inflationary pressures with the Reserve Bank of Australia (RBA) responding with 12 interest rate rises from May 2022 to Jun 2023.

However, with the impacts of previous rises and inflation starting to reduce, there are indications that the tightening cycle is nearing its end.

# Acumentis Group Limited (ASX: ACU)

Whilst transaction volumes fell through the period May 2022 to January 2023, a rebound has occurred in the period from February 2023 through to June 2023 as demonstrated by the number of residential new loan commitments:

As previously noted, increased re-financing related volumes are expected through the balance of calendar 2023 as existing fixed rate loans are re-financed:

## Business Activities for the Quarter

The business activities of the Company remained unchanged during the quarter to June 2023.

### Revenues

Revenues for the June 2023 quarter were \$14.4M (\$15.1M for the June 2022 quarter) with the year on year decrease of only 5% despite significant declines in finance activity in the market across comparable periods.

With the continued success of the strategy to diversify revenues we have seen significant and continued growth in non-finance related fees which has enabled the business to maintain its long term growth trajectory:

Revenues from financial institutions increased 15% for the quarter, on the back of the anticipated increase in re-financing of fixed rate loans, but declined 19% for the year. We anticipate continued high volumes of refinancing work through the balance of calendar 2023.

Revenues from government, corporate and private clients increased 23% for the quarter and 26% year on year demonstrating the success of Acumentis' focus on developing these alternative sources of revenues and reducing reliance on mortgage valuations.

For FY23 non-finance related fees reached 39% of total fees compared to 28% for FY22.

The executive team continues to be successful in business development activities to drive growth into areas which attract greater activity and earnings potential.

## **Operating Expenses**

As previously reported, the business has achieved significant cost reductions through FY23 with cash expenses for the second half being \$2.1M lower than for the first half of FY23. Full year cash expenses were \$2.5M lower than FY22.

The operational efficiencies achieved, in conjunction with continued revenue growth, positions the business positively for the future.

#### Closing cash and facilities

At 30 June 2023, the business had cash balances of \$1.7M and access to an unused funding facility of \$3.0M.
