About Group 6 Metals

Group 6 Metals Limited (ASX: G6M), previously known as King Island Scheelite Limited (ASX: KIS), is an Australian resources exploration, development and production company. The Company's name honours tungsten as Group 6 Metals' first commodity project (The Dolphin Tungsten Mine) in production, as tungsten is a member of Group 6 of the periodic table along with chromium and molybdenum, as well as being a critical mineral and a geopolitically strategic resource.

The Company is focused on producing high grade tungsten concentrate from its 100%-owned Dolphin Mine on King Island, Tasmania. The Company's mid-term objective is to investigate opportunities to value-add the product for supply into the upstream tungsten industry.
