* Note: In FY22 the Group recognised the following in relation to the Deferred tax asset.

An amount of \$0.54 million related to the deferred tax liability in relation to the ECD acquisition that was offset against previously unrecognised deferred tax assets. In addition \$0.5 million deferred tax assets were utilised against tax income payable in line with income tax returns.

The Group's Statutory Revenue to 30th June 2023 is \$16.2 Million up 40% from the same period last year.

The Group's closing cash balance stood at \$946.7K, up 7.9% on the same period the previous year, as a result of a Pro-Rata Rights Issue, resulting in \$354K of capital raised prior to 30th June 2023. Post 30th June 2023 with the approved take up of shortfall shares by two of the three Directors, a further \$300K of Capital was raised in August 2023. We also paid the tranche 2 payment for the acquisition of ECD during this reporting period.

During the recent 7th August 2023 EGM, shareholders approved additional facilities with our funders for in excess of \$5.5 million to aid further growth initiatives.

The Group reported a loss was (\$1.66 M) to 30th June 2023 compared to a profit of \$0.276 Million the prior year. Whilst disappointing, the Group decided to invest in global expansion and a raft of initiatives to further improve the Group moving forward, these expenses were taken up in the F23 results.

Growth plans for the USA and in other regions globally is anticipated to be significant over the next three years as a result of the Hazavoid strategy.

STATUTORY REVENUE RECENT HISTORY INVENTIS LIMITED

Sales across the Technology Division for F23 were up 98.9% (YOY).

Electronic Circuit Designs (ECD) was fully integrated in F23 and was a solid net earnings accretive contributor.

ECD continued to perform well and continues to display opportunities of scaling globally. We are hoping to leverage their new client base across additional zones in Asia Pacific in F24. We have already put in place plans for Manila supply in that period.

The large investment in international Sales staff, marketing, and operations in the USA and in The Philippines was made in F23. The benefits of which is expected to benefit the group from 1H24.

We have already built up a solid quote book in the USA region of over \$530K AUD with the overall Technology Division showing a healthy pipeline of opportunities going forward into F24. Commitments for the opening stock in the USA has been received in August 23, making the US an exciting growth opportunity moving forward.

Inventis Technology's US operations in Montgomery Texas commenced in F23. The team is working hard at building relationships with key decision makers in the education and commercial sectors. They are leveraging its US patent (application No. 17/124,815) for its Emergency Alert System Hazavoid™. This patent provides protection to 17 December 2040. With the benefit of this patent, we are now working diligently to secure partnerships in response to US market demand for an emergency alert system. Other

trademarks for Hazavoid and Inventis Technology have also been lodged in the USA. This has allowed our team to receive benefits from changing legislation in the USA in particular the education sector, we are starting to see progress toward future commitments for Hazavoid.

The Inventis commercial Furniture Division incorporating Gregory Commercial Furniture, Bassett and Workstations grew overall sales revenue by 21% to 30th June 2023. However, in general due to costs impact with disruptions and the growth in our network costs this contributed less than previous year. Initiatives have already taken place to correct this in F24.

Sales revenue for (the 49% owned associate) Winya continues to steam ahead in the same period compared to last year up by 59% (YOY).

Gregory's Commercial Dealer network footprint grew by 34.4% in F23, a real focus on increasing dealer distribution and recurring revenue was achieved successfully in F23. This ensured investment in dealer showrooms took place in F23 with this cost being expensed, the benefit is expected to be realised in F24.

During this period the exciting new product ranges were introduced. Healthcare range was launched, and additional work was completed on the new acoustic Pod. GCF supplied large orders into various hospitals in both NSW and Victoria and various initiatives are taking place to launch additional new products in F24.

Gregory chairs, notably a leader in Ergonomics, is now certified to the highest level (160kg multi shift) of any chair by AFRDI. Our systems are also NDIS Certified assuring users of the optimum level of ergonomic, customised safety and infection control processes for our medical seating. Environmental Certification is to ISO14001. Gregory continues to gain ground in Ergonomic seating using technology with the G-Smart (smart phone app for iPhone and android.)

With Inventis investing in the development of overseas markets and building its local sales team, the Operating Expense base increased by \$3.1 million over F23. The main contributors were the increased operational costs in Sales and Marketing (driven by building our USA and Philippines' footprint, and local sales team), as well as increases in general operational and administrative expenses as a result of changeover in headcount, and the higher replacement cost being driven by market forces. The full year impact of ECD's operational costs have also impacted, however ECD remained a solid performer providing an earnings accretive impact on the PBT result.

Management has commenced implementing initiatives to return the business to a more positive footing over the F24 period.

The cost of Finance was \$1.56 Million up \$642K on last year mainly driven by the full year impact of Interest payments for the ECD acquisition, and recent RBA interest rate rises.

The Group continues to nurture and bring on improving people talent and has invested in senior management in F23 with our new CFO and COO. This cost crossover period was taken up in employment costs during the year and this investment will see benefits moving forward by enhancing our IP and culture.

The current management has a proven track record of robust sustained double-digit sales growth over the last four-year period. This financial year the trajectory has improved again over the last 4- year periods to June 30th, 2023.

Winya has settled into its new location at 7/ 107 Pitt Street Sydney. Winya plans to showcase its wider product ranges, with special focus in Australian made and innovative design work across a larger network of national showrooms.

Despite widely publicised logistic freight and delivery delays, our local Australian factories have maintained relatively high levels of Delivery in Full and on Time (DIFOT) KPI's of up to 91.1% and 98% during the last quarter across the manufacturing business. We thank our dedicated Australian manufacturing team and suppliers for this support.

Post 30th June 2023, the Group announced the execution of a Binding Heads of Agreement with GDK Group.

GDK has traded successfully for more than 30 years as an Australian Manufacturer of commercial office desks, tables, cabinetry, and joinery works and supplies design and fits-out to some of the country's prestigious and top rating building groups including Banks and Corporates.

The agreement has two main parts.

- Stage 1

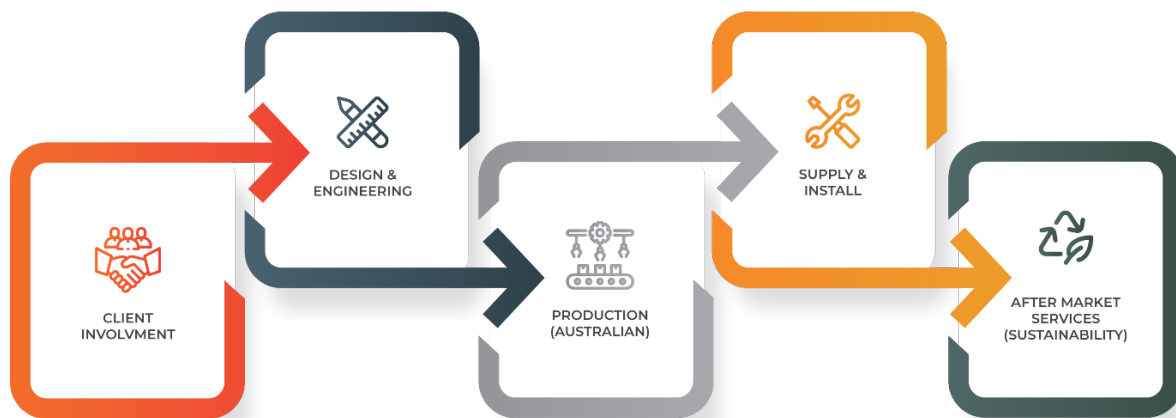

Our Gregory Bassett operations will be relocated to unit 1 in the same complex that GDK operates from (268-270 Victoria Street Wetherill Park, NSW), as part of strategic collaboration and shared services that will help utilise efficiency and cost benefits to both parties. This is planned to be completed by end of January 2024. The ongoing overall cost savings to our Inventis Group are significant and the move will see common clients and projects maximised into the future. The anticipated overall ongoing savings for Gregory is Circa \$500K pa with opportunity for additional efficiency gains.

- Stage 2

GDK Group and Vibe Furniture will look to further collaborate through a joint venture with Vibe Furniture (a 100% owned subsidiary of Inventis). This will of course be subject to due diligence and finance approval as well as a range of commercial terms.

Inventis sees this as an exciting opportunity to expand its Commercial Furniture operations consistent with our Vision for growth in the Commercial Furniture space to encompass design, sales, build, delivery and install services.

* Company Management identified a number of unreconciled balance sheet accounts relating to Work In Progress. Upon completion of the investigation and subsequent reconciliations of the balances, Management has identified expenses relating to closed/completed projects that were remaining in the balance sheet within Work In Progress that should have been taken up as cost of sales against revenue in the Statements of Comprehensive Income. Management is confident, that as a result of the investigation and reconciliations, the expenses relate to years prior to the current Financial Year and as such have adjusted the opening balances of retained earnings and reduced the value of Work in Progress reported in the accounts relating to the 100% owned entities impacted and reduced the reported value of the investment in the 49% owned associate WINYA.

Inventis Limited
Notes to the Consolidated Financial Statements
For the year ended 30 June 2023

1. Reporting Entity

Inventis Limited (the “**Group**”) is a Group domiciled in Australia and incorporated in Australia. The address of the Group’s registered office is Unit 4, 2 Southridge Street, Eastern Creek, NSW, 2766. The Financial Statements of the Group as at and for the year ended 30 June 2023 comprise the Group and its subsidiaries (together referred to as the “Group” and individually as “Group entities”). The Group is a “for profit” entity and a manufacturer and importer of products and services including ergonomic office furniture, workstations electronic control systems and rugged computing products (see note 4 – Segment Reporting)

2. Use of Estimates and judgements

The preparation of financial statements in conformity with AASBs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are:

- Tax assets and liabilities
- Intangible assets
- Inventory Obsolescence
- Valuation of Property

3. Significant accounting polices

The accounting policies used in the compilation of this financial report are consistent with those set out in the Group’s most recent annual report and have been applied consistently to all periods presented in these financial statements.

Any new, revised or amending Accounting Standards or Interpretations that are not yet effective have not been adopted.

Inventis Limited
Notes to the Consolidated Financial Statements
For the year ended 30 June 2023

4. Segment Reporting

The Group comprises the following main business segments:

- Continuing
 - >*Furniture Division.* The design, manufacture and sale of a range of commercial furniture, which includes office chairs, tables, lounges, and workstations.
 - >*Technology Division:* The design and manufacture of custom control and market ready electronic systems, mobile computing solutions and emergency vehicle control systems.

A corporate head office function provides the Group with finance, human resources and IT services; however, this corporate function does not satisfy the requirements for disclosure as a reportable segment.

Information regarding the operations of each reportable segment is included below. Performance is measured based on segment profit before income tax. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of each segment. Inter-segment pricing is determined on an arm's length basis.
