The five task orders for US Government are worth over \$1m AUD

SYDNEY, 6 September 2023: [Freelancer Limited](#) (ASX: FLN, OTCQX: FLNCF), the world's largest freelancing and crowdsourcing marketplace by number of users and jobs, today announced it has won five task orders under the NASA Open Innovation Services 2 tender.

The awarded task orders include:

Project Description	Value (US\$)
Detect, Track, or Remediate Small Space Debris Won with Ensemble Consultancy, the challenge is by NASA's Space Tech Mission Directorate. NASA seeks concepts for tracking and remediating small debris in orbit (1 to 10mm). Successful ideas will identify scalable methods, discuss tech gaps, estimate system capabilities, and outline a demo program for implementation.	\$200,000
Add Modified Condition/Decision Coverage to Gcov Tool A project on behalf of Orion Avionics, Power, and Software (APS) aims to modify GNU Coverage (gcov) to include MC/DC metrics. This will aid NASA programs like Orion Flight Software. The change will save significant time for the Artemis II mission.	\$165,000
Liquid Free Micro-Gravity Ullage Venting In partnership with Maven, Freelancer will be working with NASA GSFC Exploration & In-Space Services (NEXIS) Division to develop a novel solution to vent a tank gas/vapour mixture without liquid ingestion into the vent.possibly be external to a tank.	\$140,000
Urban Air Taxi Visual Discomfort Study Hosted with the Advanced Air Vehicle Program (AAVP) under the Revolutionary Vertical Lift Technology (RVLT) project, the proposed activity will develop an app or website for consumer-level VR systems to conduct a large-scale crowd-sourced passenger acceptance study of virtual flights in an urban air taxi.	\$105,000
Emerging Technology Solutions in Aeronautics, Space exploration, and Science	\$65,000

Won in partnership with Blue Clarity LLC. NASA is seeking to identify emerging technology solutions and trends in three areas (aeronautics, space exploration, and science) that would be of interest to the future of NASA's Langley Research Center.
