ABOUT MONTAKA

Montaka Global is a specialist global equities manager established in 2015 by Andrew Macken and Christopher Demasi with offices in Sydney, Melbourne and New York.

Montaka's mission is to achieve superior long-term compounding of investor capital, alongside the capital of our principals, team, and owners.

ABOUT THE FUND

The Montaka Global Long Only Equities Fund (Managed Fund) can play a leading role in achieving Montaka's mission.

Investors in the Fund benefit from our deep expertise, fundamental research and detailed analysis to identify high-conviction, long-duration opportunities through a concentrated global equities portfolio.

The Fund is highly focussed on investing in long-term winners in attractive transforming markets when they are undervalued and offer outsized return potential.

Investors benefit from an easily accessible listed structure with 'live' pricing and sufficient liquidity around 'fair value'. Investors can buy and sell units on ASX (ticker: MOGL) in the same way as other listed securities, through a broker or trading account or choose to invest [directly](#) with the Fund.

The Fund aims to outperform the Index, net of fees, over the long term and targets distributions of 4.5% p.a. which can be automatically reinvested.

INVESTMENT REPORT

AUGUST 2023

FUND COMMENTARY

Between the excitement of the Women's World Cup, the never-ending rollercoaster of US politics, and the weakening Chinese economy, equity markets declined a little in the month of August.

That said, we ascribe little informational value to these short-term market gyrations. Instead, we remain focused on the strong market positions, growing future prospects, and great cost-control we are generally observing in Montaka's investee companies.

Earnings season for Q2 has now largely concluded. Overall, we were very satisfied with the results observed. As global economies and inflation cool, it is once again clear that businesses that are well-positioned in attractive industry sectors, with clean balance sheets, are sensible homes for Montaka's client capital. Businesses like Blackstone, KKR and Amazon, for example.

As we look forward to the rest of the year and beyond, there are many sources of potential stock price volatility. From economic headwinds in China, to a potential policy mistake by the Fed in the US, to unpredictable events relating to Russia's invasion of Ukraine. But stock price volatility, in and of itself, is not a problem.

We believe investors should remain focused on the evolution of business earnings power over time. That's certainly our primary objective at Montaka. And movements in a company's stock price should merely represent offers to buy and sell these earnings at different points in time. Montaka stands well prepared to take advantage of any large price movements, down or up. And we feel particularly positive about the composition and upside potential of Montaka's current portfolio.
