Significant changes in the state of affairs

There were no significant changes in the state of affairs impacting the financial position of the Fund during the year ended 30 June 2023.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may have a significant effect on:

- (i) the operations of the Fund in future financial years;
- (ii) the results of those operations in future financial years; or
- (iii) the state of affairs of the Fund in future financial years.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the Fund's Product Disclosure Statement and the provisions of the Fund's Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Indemnification and insurance of officers

No insurance premiums are paid for out of the assets of the Fund in regards to insurance coverage provided to the officers of PIMCO Australia Management Limited. So long as the officers of PIMCO Australia Management Limited act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

Indemnification of auditor

The auditor of the Fund is in no way indemnified out of the assets of the Fund.

1 General information

These financial statements cover PIMCO Income Fund (the "Fund") as an individual entity. The Fund is an Australian registered managed investment scheme which was constituted on 1 October 2015 and will terminate on 30 September 2095, unless terminated earlier in accordance with the provisions of the Fund's Constitution.

The Responsible Entity of the Fund is PIMCO Australia Management Limited (ABN 37 611 709 507) (AFSL 487505) (the "Responsible Entity"). The Responsible Entity's registered office is Level 19, 5 Martin Place, Sydney, NSW 2000. The financial statements are presented in Australian dollars unless otherwise noted.

The Fund invests in the PIMCO Fund: Global Investors Series plc - Income Fund (the "Underlying Fund") in accordance with the Fund's Product Disclosure Statement and the provisions of the Fund's constitution. The Underlying Fund invests in a diversified portfolio of fixed income instruments of varying maturities.

On 5 May 2016, a new tax regime applying to Managed Investment Trusts ("MITs") was established under the *Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016*. The Attribution Managed Investment Trust ("AMIT") regime allows MITs that meet certain requirements to make an irrevocable choice to be an AMIT. In order to allow the Fund to elect into the AMIT tax regime effective 1 July 2017, the Fund's Constitution has been amended. The Responsible Entity is therefore no longer contractually obligated to pay distributions. Consequently the units in the Fund were re-classified from a financial liability to equity on 1 July 2017, and on 21 September 2022, the Fund issued a second class of units, named Institutional Class. As a result, the units in the Fund have been re-classified as a financial liability due to the different features between the two open classes of units.

The financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit entity for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unit holders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at the reporting date.

In the case of net assets attributable to unit holders, the units are redeemable on demand at the unit holder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(ii) *New and amended standards adopted by the Fund*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the Fund.

(iii) *New standards, amendments and interpretations not yet adopted*

A number of other new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

(b) Financial asset and liabilities at fair value through profit or loss

(i) *Classification*

Assets

The Fund classifies its investments based on its business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed and performance is evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund uses fair value information to assess performance of the portfolio and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Responsible Entity evaluates the information about these financial assets on a fair value basis together with other related financial information.

Equity securities are measured at fair value through profit or loss.

For cash and cash equivalents, other receivables and other payables, including amounts due to/from brokers, these balances are classified at amortised cost as they are deemed to be held in a business model with the objective to collect contractual cash flows through to maturity, and the contractual cash flows under the instrument represent solely payments of principal and interest (SPPI).

(ii) *Recognition/derecognition*

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from this date forward.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or the Fund has transferred substantially all the risks and rewards of ownership. Financial liabilities are derecognised when the obligation under the liabilities are discharged.

(iii) *Measurement*

At initial recognition, the Fund measures financial assets at fair value, plus in the case of a financial asset not measured at fair value through profit or loss, transaction costs. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Comprehensive Income.

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting year without any deduction for estimated future selling costs. The Fund utilises the Fund's Price Source Agreement ("PSA prices") for its valuation inputs for both quoted financial assets and financial liabilities.

Subsequent to initial recognition, all financial assets at fair value through profit or loss are measured at fair value. Gains/losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are presented in the statement of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair value of financial instruments is determined please see Note 4 to the financial statements.

2 Summary of significant accounting policies (continued)

(b) Financial asset and liabilities at fair value through profit or loss (continued)

(iii) Measurement (continued)

Subsequent to initial recognition, financial assets measured at amortised cost will use the effective interest rate method and are presented net of provisions for impairment.

(iv) Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when the Fund has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

As at the end of the reporting period, there are no financial assets or liabilities offset or with the right to offset in the statement of financial position.

(c) Net assets attributable to unit holders

Units are redeemable at the option of the unit holders; however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unit holders. Effective from 21 September 2022, the units are classified as financial liabilities due to the different features between the two open classes of units.

The units can be put back to the Fund at any time for cash based on the redemption price.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the units back to the Fund.

(d) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in the statement of financial position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as trading of these securities represent the Fund's main income generating activity.

(e) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate.

Distribution income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within distribution income when the Fund's right to receive payments is established.

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) to the financial statements.

(f) Expenses

All expenses are recognised in the statement of comprehensive income on an accruals basis.

2 Summary of significant accounting policies (continued)

(g) Income tax

Under AMIT legislation, the Fund is not subject to income tax provided it attributes the entirety of its taxable income to its unit holders.

(h) Distributions

The Fund distributes income as determined by the Responsible Entity of the Fund. Effective from 21 September 2022, the distributions are recognised in the statement of comprehensive income as finance costs attributable to unit holders, rather than distributions paid and payable in the statement of changes in equity.

(i) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders. Effective from 21 September 2022, movements in net assets attributable to unit holders are recognised in the statement of comprehensive income as finance costs.

(j) Foreign currency translation

(i) Functional and presentation currency

Balances included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar which reflects the currency of the economy in which the Fund competes for funds and is regulated. The Australian dollar is also the Fund's presentation currency.

(k) Receivables for units redeemed/payables for units purchased

Amounts receivable for units redeemed/payable for units purchased represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The receivable for units redeemed balance is held for collection and consequently measured at amortised cost.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts receivable for units redeemed at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the issuer, probability that the issuer will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(l) Receivables

Receivables may include income receivable and applications receivable. Amounts are generally received within 30 days of being recorded as receivables.

Accrued income may include amounts for interest and trust distributions. Trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of the period from the time of last payment.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or

2 Summary of significant accounting policies (continued)

(l) Receivables (continued)

financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(m) Payables

Payables include liabilities and accrued expenses owing by the Fund which are unpaid as at the end of the reporting period. As the Fund has a contractual obligation to distribute its distributable income, once the determination to distribute has been made by the Responsible Entity of the Fund, a separate distribution payable is recognised in the balance sheet as at the end of each reporting period where this amount remains unpaid as at the end of the reporting period.

These balances are classified at amortised cost as they are deemed to be held in a business model with the objective to collect contractual cash flows through to maturity, and whose terms meet the SPPI criterion by virtue of the fact that payments pertain to only principal and/or simple interest and have a maturity of less than 12 months.

Distributions declared effective 30 June in relation to unit holders who have previously elected to reinvest distributions are recognised as reinvested effective 1 July of the following financial year.

(n) Hedge accounting

The Fund does not apply hedge accounting.

(o) Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of units redeemed.

(p) Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable, have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows relating to GST are included in the statement of cash flows on a gross basis.

(q) Use of estimates

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the current and next financial year. Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For more information on how fair value is calculated refer to Note 4 to the financial statements.

2 Summary of significant accounting policies (continued)

(r) Rounding of amounts

The Fund is an entity of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

3 Financial risk management

The Fund's activities expose it to a variety of financial risks including market risk (which incorporates price risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management programme focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance.

All investments present a risk of loss of capital. The maximum loss of capital on the Underlying Fund is limited to the fair value of those positions. On positions sold short, if any, the maximum loss of capital can be unlimited.

The investments of the Fund, and associated risks, are managed by a specialist Investment Manager, PIMCO Australia Pty Limited (the "Investment Manager") under an Investment Management Agreement (IMA) agreed with the Responsible Entity, and containing the investment strategy and guidelines of the Fund, consistent with those stated in the Fund's Product Disclosure Statement.

The Fund uses different methods to measure different types of risk to which it is exposed. These methods include Value at Risk ("VaR") analysis in the case of market risks, and ratings analysis for credit risk.

(a) Market risk

(i) Price risk

The Fund is exposed to price risk through its investments in the Underlying Fund, for which prices in the future are uncertain. Where non-monetary financial instruments are denominated in currencies other than the Australian dollar, the price in the future will also fluctuate because of changes in foreign exchange rates which are considered a component of price risk.

The Underlying Fund mitigates price risk with specific risk controls.

The price risk disclosures have been prepared on the basis of the Fund's direct investment and not on a look through basis for investments held indirectly.

Price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Fund might suffer through holding market positions in the face of adverse price movements. The Investment Manager considers the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Fund's investment objectives.

The Investment Manager uses a number of quantitative techniques to assess the impact of market risks including credit events, changes in interest rates, credit spreads and recovery values on the Fund's investment portfolio. The Investment Manager uses VaR analysis, a technique widely used by financial institutions to quantify, assess, and report market risk. VaR is a statistical framework that supports the quantification of market risk within a portfolio at a specified confidence interval over a defined holding period. VaR seeks to quantify the expected maximum dollar losses that may result from the interactive behaviour of all material market prices, spreads, volatilities, and rates based on the historically observed relationships between these markets.

Although the use of derivatives (whether for hedging or investment purposes) may give rise to additional leveraged exposure, any such additional exposure will be covered and will be risk managed using the VaR methodology. The Investment Manager monitors portfolio risk using market factor exposures on a daily basis.

3 Financial risk management (continued)

(a) Market risk (continued)

(i) Price risk (continued)

Potential market risk is calculated using the factor model approach. VaR is calculated and reported automatically each day using the closing prices and market information of the most recent business day. Depending on the application of the risk statistics, various confidence levels (such as 99%) and time horizons (weeks, months, or year) might be selected.

In addition to daily VaR measures, three types of stress tests are also conducted for each Fund. The first test includes scenario duration tests that measure what happens to the value of the portfolio if unexpected movements in yields occur in the market. The second test involves a database of historical crisis scenarios that can be executed to test reactions to these crises. The historical crisis scenarios contain many unexpected changes in market conditions and correlation matrices. The third test involves correlation matrices which can be manipulated manually to reflect conditions that may happen in the future but have not happened so far.

The daily VaR measures for the portfolios are an estimate, using a confidence level of 99%, of the potential worst case portfolio loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one month. The use of a 99% confidence level means that, within a one month horizon, losses exceeding the VaR figure should not occur, on average, more than once every one hundred months. For example when a portfolio is estimated to have a VaR of \$1 million over a monthly horizon at the 99 percent confidence level, under normal market conditions, the expected losses should not exceed \$1 million over the next eight year period (with 99% probability). The following table sets out the potential maximum monthly risk of loss for the portfolios as at 30 June 2023 and 30 June 2022 as indicated by the VaR model:

	As at 30 June 2023		As at 30 June 2022	
	VaR (A\$'000)	% of Net Assets	VaR (A\$'000)	% of Net Assets
PIMCO Income Fund	45,367	3.500	60,307	4.760

Not all risks to which the portfolio may be exposed are intended to be captured by the VaR and, in particular, the framework does not seek to capture liquidity risk, counterparty credit risk, or extreme credit events such as an issuer default. In practice, the actual trading results will differ from the VaR and may not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored to test the validity of the assumptions and parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that the Fund would withstand an extreme market event.

(ii) Foreign exchange risk

The Fund does not have any significant direct exposure to foreign exchange risk based on the Fund's direct investment in the Underlying Fund, which issues units denominated in Australian dollars. However, the Underlying Fund may hold investments denominated in foreign currencies. The foreign exchange risk relating to the Underlying Fund is a component of price risk. Foreign exchange risk arises as the value of monetary assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

(iii) Interest rate risk

Interest rate risk management is undertaken by maintaining as close to a fully invested position as possible, thus limiting the exposure of the Fund to interest rate risk.

3 Financial risk management (continued)

(b) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay its obligations in full when they fall due, causing a financial loss to the Fund.

The Fund does not have a significant concentration of credit risk that arises from an exposure to a single counterparty or group of counterparties having similar characteristics. The main concentration of credit risk, to which the Fund is exposed, arises from cash and cash equivalents, receivables and receivable for units redeemed balances. None of these assets are impaired nor past their due date. The maximum exposure to credit risk at the reporting date is the carrying amount of cash and cash equivalents and amounts due from brokers.

The Fund determines credit risk and measures expected credit losses for financial assets measured at amortised cost using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. At 30 June 2023 and 30 June 2022, all receivables, receivable for units redeemed, cash and short-term deposits were held with counterparties with a credit rating of AA/Aa or higher and were either callable on demand or due to be settled within 1 week. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

(c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Exposure to liquidity risk for the Fund may arise from the requirement to meet daily unit holder redemption requests or to fund foreign exchange related cash flow requirements.

The Fund invests the majority of its assets in the Underlying Fund and is therefore dependent on the Underlying Fund to maintain sufficient liquidity to meet redemption requests by the Fund. While the Fund can generally redeem from the Underlying Fund on demand, the Responsible Entity of the Underlying Fund can delay or suspend redemptions in the event that the Underlying Fund is unable to meet the Fund's redemption requests. The Fund's liquidity risk is managed in accordance with the Fund's investment strategy. The Fund manages liquidity risk by maintaining adequate banking facilities or cash and through continuous monitoring of forecast and actual cash flows.

In order to manage the Fund's overall liquidity, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders. The Fund did not reject or withhold any redemptions during 2023 and 2022.

4 Fair value measurement

The Fund measures and recognises financial assets and liabilities at fair value through profit or loss on a recurring basis. The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The Fund values its investments in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

4 Fair value measurement (continued)

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets are based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The Fund utilises the PSA prices for its fair value inputs for both quoted financial assets and financial liabilities.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Recognised fair value measurements

The table below presents the Fund's financial assets and liabilities measured and recognised at fair value as at 30 June 2023 and 30 June 2022.

As at 30 June 2023	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss:				
Underlying Fund*	<u>1,303,620</u>	-	-	<u>1,303,620</u>
Total financial assets at fair value through profit or loss	<u>1,303,620</u>	-	-	<u>1,303,620</u>

As at 30 June 2022	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets at fair value through profit or loss:				
Underlying Fund*	<u>1,273,116</u>	-	-	<u>1,273,116</u>
Total financial assets at fair value through profit or loss	<u>1,273,116</u>	-	-	<u>1,273,116</u>

*The Underlying Fund calculates a daily net asset value (NAV) and applications and redemptions are transacted using the NAV. While prices are quoted on the Irish Stock Exchange, applications and redemptions are made through the Underlying Fund and are not transacted through an exchange.

(c) Transfer between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between levels in the fair value hierarchy at the end of the reporting period.

4 Fair value measurement (continued)

(d) Financial instruments not carried at fair value

The carrying value of receivables and payables are assumed to approximate their fair values.

Net assets attributable to unit holders' carrying value differ from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior reporting period.

5 Net gains/(losses) on financial instruments at fair value through profit or loss

Net gains/(losses) recognised in relation to financial assets and liabilities at fair value through profit or loss:

	Year ended	
	30 June 2023 \$'000	30 June 2022 \$'000
Financial assets		
Net realised gain/(loss) on financial assets at fair value through profit or loss	(21,126)	(3,519)

Net gains/(losses) on financial assets at fair value through profit or loss	<u>(16,890)</u>	<u>(190,488)</u>
Total net gains/(losses) on financial instruments at fair value through profit or loss	<u>(16,890)</u>	<u>(190,488)</u>

6 Financial assets at fair value through profit or loss

	As at	
	30 June 2023 \$'000	30 June 2022 \$'000
Financial assets at fair value through profit or loss		
Underlying Fund	<u>1,303,620</u>	<u>1,273,116</u>
Total financial assets at fair value through profit or loss	<u>1,303,620</u>	<u>1,273,116</u>

7 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, and the relevant activities are directed by means of contractual arrangement.

The Fund considers all investments in managed investment schemes (the "Schemes") to be structured entities. The Fund invests in Schemes for the purpose of capital appreciation and/or earning investment income.

7 Structured entities (continued)

The exposure to investments in Schemes at fair value is disclosed in the following table:

	Fair value of investment	
	30 June 2023	30 June 2022
	\$'000	\$'000
PIMCO Funds: Global Investors Series plc - Income Fund	1,303,620	1,273,116

The fair value of the Schemes is included in financial assets at fair value through profit or loss in the statement of financial position.

The Fund's maximum exposure to loss from its interest in the Schemes is equal to the fair value of its investments in the Schemes as there are no off-balance sheet exposures relating to any of the Schemes. Once the Fund has disposed of its units in a Scheme, it ceases to be exposed to any risk from that Scheme.

During the year ended 30 June 2023, total gains/(losses) incurred on investments in the Schemes were \$(16,890,170) (2022: \$(190,488,099)). The Fund also earned distribution income of \$81,172,759 (2022: \$51,203,749) as a result of its interests in the Schemes.

8 Net assets attributable to unit holders

Movements in the number of units and net assets attributable to unit holders during the year were as follows:

	Year ended			
	30 June 2023 Units'000**	30 June 2023 \$'000	30 June 2022 Units'000	30 June 2022 \$'000

Profit/(loss) for the year	-	11,249	-	(149,829)
Closing balance	1,421,942	1,285,657	1,373,324	1,266,949
Institutional Class Units*				
Opening balance	-	-	-	-
Applications	11	10,821	-	-
Redemptions	-	(181)	-	-
Reinvestment of distributions	-	-	-	-
Increase/(decrease) in net assets attributable to unit holders	-	(101)	-	-
Closing balance	11	10,539	-	-
Closing balance		1,296,196		1,266,949

*During the year ended 30 June 2023, the Fund issued a second class of units, named Institutional Class.

**For the year ended 30 June 2023, the redemptions of 183 units for the Institutional Class have not been reflected above due to financial statements being rounded in thousand units.

As a result, the Fund no longer satisfies all criteria of puttable financial instruments as equity under AASB 132 *Financial Instruments: Presentation*. Consequently, the Fund's net assets attributable to unit holders have been reclassified from equity to financial liability during the year ended 30 June 2023.

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are two open classes of units at 30 June 2023. Each unit within the same class has the same rights as all other units within that class. Each unit class has a different management fee rate.

Units are redeemed on demand at the unit holder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding that net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

8 Net assets attributable to unit holders (continued)

Capital risk management (continued)

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis (business days) by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unit holders.

9 Distributions to unit holders

The distributions declared during the year were as follows:

	Year ended			
	30 June 2023 \$'000*	30 June 2023 CPU	30 June 2022 \$'000	30 June 2022 CPU

Total distributions	<u>224</u>	<u>5,150.30</u>	-	-
Total distributions	<u>81,459</u>		<u>54,117</u>	

*For the year ended 30 June 2023, the distributions declared in the quarter ended September of \$351 for the Institutional Class have not been reflected above due to financial statements being rounded in thousand dollars.

During the year ended 30 June 2023, the Fund made distributions monthly as per the Fund's Product Disclosure Statement. Distributions disclosed under each quarter consist of monthly distributions declared in each quarter and quarter end. The distributions disclosed under quarter ended June consist of the distributions declared in April, May and June of which \$6,870,677 is payable as at 30 June 2023 (2022: \$5,704,788).

10 Cash and cash equivalents

Distributions to unit holders	69,792	-
Proceeds from sale of financial instruments at fair value through profit or loss	193,938	143,177
Purchase of financial instruments at fair value through profit or loss	(160,084)	(327,006)
Net (gains)/losses on financial instruments at fair value through profit or loss	16,890	190,488
Net change in receivables	80	(23)
Net change in payables	982	(1,638)
Distribution income reinvested	(81,173)	(51,204)
Net cash inflow/(outflow) from operating activities	24,608	(196,035)
(b) Non-cash operating and financing activities		
The following distribution payments to unit holders were satisfied by the issue of units under the distribution reinvestment plan	4,098	2,913
The following purchases of investments were satisfied by the participation in dividend and distribution reinvestment plans	81,173	51,204
Total non-cash operating and financing activities	85,271	54,117

As described in Note 2(i), income not distributed is included in net assets attributable to unit holders. The change in this amount for the year (as reported in (a) above) represents a non-cash financing cost as it is not settled in cash until such time as it is paid.

12 Receivables

Independent auditor's report

To the unitholders of PIMCO Income Fund

Our opinion

In our opinion:

The accompanying financial report of PIMCO Income Fund (the Registered Scheme) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Registered Scheme's financial position as at 30 June 2023 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2023
- the statement of comprehensive income for the year then ended
- the statement of changes in equity for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include significant accounting policies and other explanatory information
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of PIMCO Australia Management Limited (the Responsible Entity) are responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Registered Scheme to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
