QUARTERLY ACTIVITY REPORT AND APPENDIX 4C – NAMOI COTTON LIMITED (ASX: NAM)

Namoi Cotton Limited (**'Namoi'** or the **'Company'**) presents its Appendix 4C cash flow statement for the quarter ended 31 August 2023 (**'Q2-FY24'**), along with the following activities update.

Business activities in the Second Quarter (Q2-FY24)

There was no material change in the business activities of the Company during Q2 – FY24.

The ginning season was nearing completion at the end of the quarter with ~1.02million bales ginned¹ (Q2-FY23 0.95million bales). The Company's Q2-FY24 cashflow increased on the back of an increased ginning margin, early shipments of cottonseed and lint which did not incur any supply chain disruptions.

During Q2-FY24:

- Net cash inflows from operating activities totalled \$19.4 million.
- Receipts from customers totalled \$366.8 million, compared to operating costs of \$332.7 million for the same period.
- Staff plus other administration and corporate costs totalled \$13.4 million.

Payments for operating costs and cottonseed inventory is weighted to the first two quarters of the Company's financial year (i.e., the 6 months ending 31 August), whilst receipts from customers for cottonseed marketing and maintenance costs are weighted to the third and fourth quarter.

Payments to related parties includes director fees and payments for the supply of cotton lint, by-products, and director services, less the cost of ginning cotton. These payments are included within product manufacturing and operating costs and were made in the ordinary course of business.

Business update

Namoi has contracted ~1.15 million bales (similar to 2022 season volume of 1.18 million bales) on the back of increased yield in the northern valleys and an increase in share of catchment production.

Improved cotton quality and ginning conditions, in additional to 4PP gin upgrades, has supported increased ginning productivity and lower energy costs compared to the 2022 season. However, below average cottonseed yield is expected to negatively impact cottonseed marketing margins.

This announcement was approved by the Board of Namoi Cotton.
