The return of a properly completed Application Form will be taken by the Company to constitute a representation and warranty that there has been no breach of any application foreign jurisdiction laws and that all necessary approvals and consents have been obtained.

4.17 Dividend Policy

The Directors may pay any interim and final dividends as, in their judgement, the financial position of the Company justifies. Subject to any rights attaching to Shares, the Directors may fix the amount, time for payment and method of payment of a dividend. However, the Company does not intend to declare and pay any dividends in the immediately foreseeable future.

Investors should be aware that no guarantee is given by the Company or the Directors as to the performance of the Company or as to the timing or amount of any dividend payment.

4.18 Professional Advice

The Directors recommend that potential investors, when making an informed assessment of what will be the assets and liabilities, financial position, profits and losses and prospects of the Company should read this Prospectus in its entirety.

Potential investors who have any questions about investing in the Company or are in any doubt about any matter relating to the Offers, should seek the advice of their professional advisers.

4.19 Taxation

As it is not possible for the Company to provide individual taxation advice to each potential investor applying for Securities under this Prospectus, the Directors consider that it is not appropriate to provide advice regarding the taxation consequences for each investor applying for Securities pursuant to this Prospectus, or the taxation consequences of the Company conducting the Offers. Potential investors who have any questions about the taxation implications of the Offers should consult their professional taxation advisors. Please note that the Company and its officers do not accept any responsibility or liability for any taxation consequences resulting from participation in the Offers.

4.20 Discretions

Without limiting the other powers and discretions set out in this Prospectus, the Directors (or their delegate for this purpose) may implement the Offers in the manner they think fit and settle any difficulty, anomaly or dispute which may arise either generally or in a particular case in connection with, or by reason of, the operation of the Offers or a matter in this Prospectus, as they think fit, whether generally or in relation to any Shareholder, any Shares or Options or Convertible Notes, and the determination of the Directors (or their delegate) is conclusive and binding on all relevant Shareholders and other persons to whom the determination relates.

4.21 Withdrawal

The Company may at any time decide to withdraw this Prospectus and the Offers in which case the Company will return all Application monies without interest at the earliest practicable time.

4.22 Enquiries

Any questions concerning the Offers should be directed to the Company Secretaries, Ms Elizabeth Spooner and Ms Belinda Cleminson on +61 (2) 8072 1400.

5. Purpose and Effect of the Offers and the Placement

5.1 Purpose of the Offers

Cleansing Offer

The Cleansing Offer is included for the purpose of section 708A(11) of the Corporations Act to remove any trading restrictions that may have attached to the Offer Securities issued by the Company prior to the Closing Date (including prior to the date of this Prospectus).

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and Cleansing Offer of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

The Company intends to apply the nominal funds raised under the Cleansing Offer (up to \$15) to meet the expenses of the Cleansing Offer. The expenses of the Cleansing Offer in excess of the funds raised under the Cleansing Offer will be met by the Company's cash reserves which shall include those funds raised under the Capital Raising.

Capital Raising

The primary purpose of the Capital Raising is to raise up to approximately A\$1,401,250 (before costs) comprising:

- (a) up to A\$800,000 from institutional, professional and sophisticated investors under the Convertible Note Offer;
- (b) A\$371,250 from institutional, professional and sophisticated investors under the Placement; and
- (c) A\$230,000 from Directors and the Company's Chief Financial Officer under the Placement, with such amount agreed to be offset against unpaid amounts owing and payable by the Company to those participating Directors and Chief Financial Officer, respectively, as set out in Section 4.1 of this Prospectus.

The funds raised from the Capital Raising are planned to be used in accordance with the use of funds table set out in Section 4.1 of this Prospectus.

On completion of the Capital Raising, the Board believes the Company will have sufficient working capital to achieve the objectives stated in the use of funds table set out in Section 4.1 of this Prospectus. However, to the extent the Capital Raising is not fully subscribed, the Company will seek to appropriately scale back and or delay its discretionary spending, while it seeks alternative sources of funding (as required).

5.2 Effect of the Cleansing Offer and the Capital Raising on the financial position of the Company

The principal effect of the Offers and the Placement (assuming the Company issues the maximum number of Securities under the Offers and the Placement) will be to:

- (a) increase the cash reserves by approximately A\$1,171,250 (before deducting the estimated expenses of the Offers and the Placement) immediately after completion of the Offers and the Placement;
- (b) decrease trade and other payables by A\$230,000 by offsetting commitments by Directors and the Company's Chief Financial Officer under the Placement in that amount against unpaid amounts owing and payable by the Company to those participating Directors and the Company's Chief Financial Officer as set out in Section 4.1 of this Prospectus;
- (c) increase the number of Shares on issue from 1,334,729,781 to 1,735,573,114 Shares following completion of the Placement and the Offers;
- (d) increase the number of Options on issue from 454,600,983 to 915,444,316 Options following completion of the Placement and the Offers; and
- (e) to increase the number of Convertible Notes on issue from nil to 800,000.

5.3 Effect of the Offers and Placement on the Company's Balance Sheet

The below pro-forma balance sheet has been prepared assuming the maximum number of Securities offered under the Offers and the Placement (i.e. \$1,401,250 raised under the Capital Raising and \$15 raised under the Cleansing Offer) and that the Lead Manager is issued 60,000,000 Lead Manager Options. The pro-forma balance sheet also assumes no existing Options are exercised and includes expenses of \$116,583 (incl GST) under the Offers and the Placement.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

3. *The issuance of the Lead Manager Options and the New Options under both the Cleansing Offer and Placement and the Shares under the Placement to Directors remains subject to the Company obtaining relevant shareholder approval at the November 2023 AGM.*

5.5 Effect of Offers on control of the Company

The Cleansing Offer will not have any material effect on control of the Company. The maximum number of Shares proposed to be issued under the Cleansing Offer is 10,000 which will represent approximately 0.0006% of the total Shares on issue following completion of the Cleansing Offer and the Placement (assuming the maximum amount is raised under the Placement and no further Shares are issued by the Company or existing Options or New Options are exercised or Convertible Notes are converted into Shares in the meantime).

The Convertible Note Offer will not have any immediate effect on control of the Company. Assuming the Convertible Note Offer is fully subscribed and 800,000 Convertible Notes are issued to applicants, if 100% of those Convertible Notes are converted into Shares the total number of Shares to be issued and the effect on the control of the Company will depend on the conversion price which is to be determined in accordance with the terms and conditions of the Convertible Notes which are summarised at section 4.1.

For illustrative purposes only, set out below is a table which provides an indication of the effect that conversion of 100% of the 800,000 Convertible Notes offered under the Convertible Note Offer would have on the control of the Company at varying conversion prices.

Conversion Price	No. Shares issued on Conversion ^{1,3}	% of total Shares on issue ²
\$0.001	800,000,000	31.55%
\$0.0015	533,333,333	23.51%
\$0.002	400,000,000	18.73%

Notes:

1. Assuming the Convertible Note Offer is fully subscribed, 800,000 Convertible Notes are issued by the Company and 100% of those Convertible Notes are converted into Shares. These figures exclude coupon payments accrued under the Convertible Note which are capitalised to the face value and paid by the issue of additional Shares at the conversion price.
2. Assuming the maximum amount is raised under the Placement and Cleansing Prospectus and no further Shares are issued by the Company or existing Options or New Options are exercised into Shares in the meantime.
3. For each Share issued on conversion of the Convertible Notes, one (1) free attaching New Option will be issued to the Convertible Note holder on a 1:1 basis.

6. Rights and Liabilities attaching to Shares and Offer Options

6.1 Rights and Liabilities attaching to Shares

The following is a summary of the more significant rights attaching to the Shares (being the underlying securities). This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. If Applicants require more detailed advice regarding the rights and liabilities of Shareholders, they should seek independent legal advice.

Full details of the rights attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Each Shareholder is entitled to receive notice of all general meetings of the Company and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act or the ASX Listing Rules.

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to Shares, at general meetings of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder will, in respect of each fully paid Share held by that Shareholder, or in respect of which that Shareholder is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid Shares have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the Corporations Act, the Directors may from time to time declare such dividends as appear to the Directors to be justified by the profits of the Company.

Subject to the rights of persons entitled to securities with special rights as to dividends, all dividends are paid in the proportion that the amounts paid on those Shares bear to the issue price of the Shares.

(d) Winding up

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as the liquidator considers fair upon any property to be so divided, and may determine how

the division is to be carried out as between the Shareholders or different classes of security holders.

The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of Shares**

Generally, Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Directors. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of security holders or with the written consent of the majority of security holders in the affected class, vary or abrogate the rights attaching to the securities (including Shares).

(i) **Alteration of Constitution**

The Constitution can only be amended by a special resolution passed by at least 75% of Shareholders present (in person, by proxy, attorney or representative) and voting at the general meeting.

6.2 Terms and Conditions of Offer Options

(a) **Entitlement**

Each Offer Option entitles the holder to subscribe for one Share upon exercise of the Offer Option.

(b) **Expiry Date**

Each Offer Option will expire at 5.00pm (Sydney Time) on 11 December 2026 (**Expiry Date**).

(c) **Exercise Price**

Each Offer Option will have an exercise price of \$0.004 (0.4 cents) (**Exercise Price**).

(d) **Exercise period and lapsing**

Subject to clause (i), Offer Options may be exercised at any time after the date of issue and prior to the Expiry Date. After this time, any unexercised Offer Options will automatically lapse.

(e) **Exercise Notice and payment**

Offer Options may be exercised by notice in writing to the Company (**Exercise Notice**) together with payment to the Company of the Exercise Price for each Offer Option being exercised. Any Exercise Notice for an Offer Option received by the Company will be deemed to be a notice of the exercise of that Offer Option as at the date of receipt. Cheques paid in connection with the exercise of Offer Options must be in Australian currency, made payable to the Company and crossed "Not Negotiable".

(f) **Shares issued on exercise**

Shares issued on exercise of Offer Options will rank equally in all respects with then existing fully paid ordinary shares in the Company.

(g) **Quotation of Shares**

Provided that the Company is quoted on the official list of ASX Limited at the time, application will be made by the Company to ASX Limited for quotation of the Shares issued pursuant to the exercise of the Offer Options.

(h) **Timing of issue of Shares**

Subject to clause (i), within 5 business days after receipt of an Exercise Notice the Company will allot and issue the Shares pursuant to the exercise of the Offer Options. The Company makes no representation that the Shares will be freely tradeable upon issue and the holder acknowledges that the Shares may be subject to the on-sale restrictions contained in sections 706 and 707 of the *Corporations Act 2001* (Cth) (**Corporations Act**). In these circumstances, the holder agrees not to trade the Shares for so long as the Shares are subject to such restrictions.

(i) **Shareholder and regulatory approvals**

- (i) Notwithstanding any other provision of these terms and conditions, exercise of Offer Options into Shares will be subject to the Company obtaining all required (if any) Shareholder and regulatory approvals for the purpose of issuing the Shares to the holder.
- (ii) If exercise of the Offer Options would result in any person being in contravention of section 606 of the Corporations Act then the exercise of each Option that would cause the contravention will be deferred until such time or times that the exercise would not result in a contravention of section 606 of the Corporations Act.
- (iii) Holders must give notification to the Company in writing if they consider that the exercise of the Offer Options may result in the contravention of section 606 of the Corporations Act, failing which the Company will be entitled to assume that the exercise of the Offer Options will not result in any person being in contravention of section 606 of the Corporations Act.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Offer Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Offer Options. However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least four business days after the issue is announced. This is intended to give the holders of Offer Options the opportunity to exercise their Offer

Options prior to the announced record date for determining entitlements to participate in any such issue.

(k) **Adjustment for bonus issues of Shares**

If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment):

- (i) the number of Shares which must be issued on the exercise of an Offer Option will be increased by the number of Shares which the holder would have received if the holder had exercised the Offer Option before the record date for the bonus issue; and
- (ii) no change will be made to the Exercise Price.

(l) **Adjustment for rights issue**

If the Company makes an issue of Shares pro rata to existing Shareholders there will be no adjustment to the Exercise Price.

(m) **Adjustments for reorganisation**

If there is any reconstruction of the issued share capital of the Company, the rights of the holders may be varied to comply with the Listing Rules which apply to the reconstruction at the time of the reconstruction.

(n) **Quotation of Options**

The Company does not intend to apply for quotation of the Offer Options to ASX.

(o) **Transferability**

The Offer Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

7. Risk Factors

7.1 Introduction

An investment in the Company is not risk free and the Shares and Options should be regarded as speculative.

There are specific risks which relate directly to the Company's activities. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed and do not take into account the individual circumstances of Shareholders.

The Directors strongly recommend potential Applicants to consider the risk factors described below, together with information contained elsewhere in this Prospectus and consult with their professional advisers before deciding whether to apply for Offer Securities or Convertible Notes under this Prospectus.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Specific Risks

(a) Funding

The future capital requirements of the Company will depend on many factors including the success of the technology proof-of-concept program and partner collaborations and in the possible commercialisation of the Company's own products.

The Company intends to identify, evaluate and source new business opportunities that meet investment criteria set by the Company. The Company may require additional funds to fund these new business opportunities. Should the Company require such additional funding, there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

(b) COVID-19

The outbreak of the novel coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

(c) Force majeure

The Company, now or in the future, may be adversely affected by risks outside the control of the Company including epidemics and pandemics, labour unrest, machinery or equipment breakdown or damage, transportation disruptions, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes or quarantine restrictions. In particular, the current coronavirus pandemic had restricted world travel and public gatherings (including attendance on retail outlets) which will impact the Company's operations, including in relation to sales and product distribution.

(d) **Technology risk**

Cannabis and seaweed technologies are early-stage technologies that require significant further development to evaluate, optimise and validate future product development. The Company has engaged consultants and initiated various study and evaluation programs to identify and optimise its products, but there can be no certainty that this aim can be achieved. The Company can give no guarantees that its products will successfully achieve proof-of-concept nor any commercial outcomes.

(e) **Research and development risk**

In order to remain competitive, the Company intends to continue to undertake research and development. The Company makes no representation that any of its research into or development of its delivery systems technologies and products will be successful or that the delivery system technologies will be developed into products that are commercially exploitable.

There are many risks inherent in the development of products, particularly where the products are in the early stages of development.

Projects can be delayed or fail to demonstrate any benefit, or research may cease to be viable for a range of scientific and commercial reasons.

In addition, there may not be sufficient resources to maintain the Company's research and development activities and sales efforts. The Company provides no assurance that its research and development activities will result in the creation of any new intellectual property or know-how capable of being utilised in the Company's business activities.

(f) **Intellectual property risk**

The Group previously filed an application for patent protection in Singapore, however, the application was rejected on various grounds. The Company has obtained a China patent (patent number 2015105593775) which is granted. This patent focused on Clonal rapid breeding method of dendrobium officinale. The China patent application was based on the Singapore patent application (PCT/SG2014/000515), and tailored for protecting the Company's technology in China. China is the main target market for the commercialisation of this TCM based product and therefore securing the patent grant in China was the main priority for the Company.

The Group is giving further consideration to whether it will continue pursuing patent protection in Singapore and other jurisdictions. However, there is no guarantee that any future patent applications filed by the Group will not infringe competitor patents or that any such patent applications will be granted by authorities in key jurisdictions, given that patents on similar subject matter have been granted. Prior to the grant of any future patent applications, the Company may request the inventors (and any potential inventors) of the relevant technology (to the extent they have not already done so) to assign ownership of the technology to the Group. This will mitigate the risk of any challenge to the ownership of a patent by an inventor after the patents are granted. If the assignment documentation is not signed by the inventors (or any potential inventors) prior to the grant of the patents to the Company or the Group, there is a risk that the patents could be revoked if subsequently challenged by the inventors.

(g) **Competitive risk and market acceptance**

Multiple early-stage and mature competitors may exist in some or all of the industry sectors which the Company operates within including those that have more advanced passive and active technologies and products marketed or in

development. Competition by superior technologies and/or products may negatively affect the potential of the Group's technologies and/or future products.

The success of the Group's products will depend on the competitiveness and acceptance of such technology by the market, as well as the Company's ability to improve the relevant product offerings to meet the evolving needs of customers on a timely basis. The global marketplace for most products is constantly changing due to new technologies, new products, changes in preferences, changes in regulations and other factors influencing market acceptance or market rejection. This market volatility and risk exists despite the best endeavours of market research, promotion and sales and licensing campaigns.

(h) **Commercialisation risk**

The Company seeks to commercialise its technology and/or potential pipeline products through both out-licensing to distribution partners and undertaking its own product development. The Company is collaborating with several potential partners to evaluate the technology for future development and licensing deals but there is no guarantee that any licensing agreement will be executed nor that the Company will achieve future licensing fees or royalty income. A successful proof-of-concept program must be achieved for the Company's products to achieve commercialisation, and this cannot be guaranteed.

In undertaking the development of its own products utilising the Company's technologies, there can be no guarantee that the resulting products will be commercialised or will perform satisfactorily to their intended application.

(i) **Market risk**

The Company operates in various industry sectors and is seeking to further diversify its business risk by diversifying the industry sectors which it operates within. There can be no assurance that the Company will secure such new business opportunities or that the new opportunities will provide additional value to the Company.

The Company may also be adversely affected by the general market sentiment towards the industry sectors which it operates or may operate within.

(j) **Climate change**

There are a number of climate-related factors that may affect the Company's business or its assets. For instance:

- (i) climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water scarcity, temperature extremes, frosts, earthquakes and pestilences) may have an adverse effect on the Company's ability to access and utilise its operations and/or on the Company's ability to transport or sell its products; and
- (ii) changes in policy, technological innovation and consumer or investor preferences could adversely impact the Company's business strategy or the value of its assets, or may result in less favourable pricing for products, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.

(k) **Regulatory**

Changes in relevant taxes, legal and administration regimes, accounting practice and government policies may adversely affect the financial performance of the Company.

(l) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition.

Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(m) **Insurance risks**

The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover.

The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.
