

Disclaimer

- Any material used in this presentation is only an overview and summary of certain data selected by the management of Tempest Minerals Ltd ("TEM").
- The presentation does not purport to contain all the information that a prospective investor may require in evaluating a possible investment in TEM nor does it contain all the information which would be required in a disclosure document prepared in accordance with the requirements of the Corporations Act and should not be used in isolation as a basis to invest in TEM. Recipients of this presentation must make their own independent investigations, consideration and evaluation of TEM.
- TEM recommends that potential investors consult their professional advisor/s as an investment in TEM is considered to be speculative in nature.
- Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice.

 Reliance should not be placed on information or opinions contained in this presentation.
- To the maximum extent permitted by law, TEM disclaims any responsibility to inform any recipient of this presentation on any matter that subsequently comes to its notice which may affect any of the information contained in this document and presentation and undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise.
- No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions or conclusions contained in or derived from this presentation or any omission from this presentation or of any other written or oral information or opinions provided now or in the future to any person.
- To the maximum extent permitted by law, neither TEM nor, any affiliates, related bodies corporate and their respective officers, directors, employees, advisors and agents, nor any other person, accepts any liability as to or in relation to the accuracy or completeness of the information, statements, opinions or matters (express or implied) arising out of, contained in or derived from this presentation or any omission from this presentation or of any other written or oral information or opinions provided now or in the future to any person.

Competent Persons Statement

The scientific and technical information contained within this Presentation is based on, and fairly represents information prepared by Mr Don Smith, a Competent Person who is a Member of the Australian Institute of Mining and Metallurgy (Ausimm), Australian Institute of Geoscience (AIG) and Geological Society of Australia (GSA). Mr Smith is the Managing Director of Tempest Minerals Ltd and has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Mr Smith consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

Investor Snapshot

Projects

Critical Metals

Copper Gold Lithium Rare Earths

Highlights

Proven potential
Derisked commodity focus
Multiple drill campaigns
Project pipeline

Australia focus | International exposure

Company

- Experienced expert team
- Diversified commodity and jurisdiction exposure
- Innovative science and technology
- Modest capital structure and price point
- Invested management

People

Directors and Management

BRIAN MOLLER

Non-executive Chairman

PAUL JURMAN

Company Secretary

Brian has been a partner at the legal firm HopgoodGanim for 30 years and leads the Corporate Advisory and Governance practice. Brian is the chair or a non-executive director of several ASX listed companies; and was critical in the progression of LSE listed SolGold PLC to becoming one of the largest copper gold developments in the world.

DON SMITH

Managing Director

Don Smith is a Geologist and entrepreneur who holds a Bachelor of Science from Newcastle University and an MBA from The Australian Institute of Business. With over 20 years in the mining industry, he has held roles in junior through to multinational firms on projects spanning 6 continents and numerous commodities. Don is involved with a number of private and publicly listed resource companies.

ANDREW HAYTHORPE

Non-executive Director

Andrew Haythorpe has 30 years experience in geology, funds management and has been a Director and Chairman of a number of TSX and ASX listed companies including Crescent Gold. Andrew has been involved in over A\$300 million of mergers, acquisitions and capital raisings. Currently he is a Managing Director of Goldoz Ltd and Stunalara Metals Pty Ltd and chairman of Allup Silica Ltd.

OWEN BURCHELL

Non-executive Director

Owen Burchell is a Mining Engineer with 20 years of technical, operational and corporate experience including management positions at Rio Tinto, BHP and Barrick Gold through to numerous mining start-ups, closures and operational turnaround projects. Owen is Managing Director of imminent ASX IPO Abarta Resources Limited.

Paul Jurman is involved with a diverse range of Australian public listed companies in company secretarial and financial roles. He is currently company secretary of Platina Resources Ltd. Carnavale Resources Ltd. and Lord Resources Ltd.

Sustainability

- Striving for best environmental practice
- Strong local stakeholder engagement
- Corporate governance committed board

Innovation

- Strategic PartnershipsPioneering New Technology
- Industry leading digital innovation
- New science and research

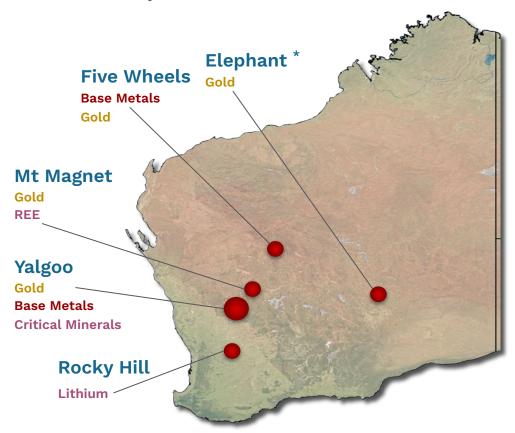

Australian Exploration

- ~2000 square kilometers of highly prospective territory
- High quality targets
- Derisked multi-commodity portfolio

^{*} Pending completion of conditions precedent and transaction

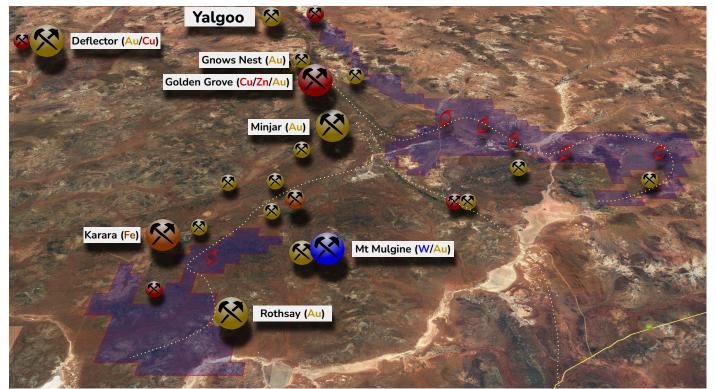

Yalgoo

Yalgoo: Unprecedented Opportunity

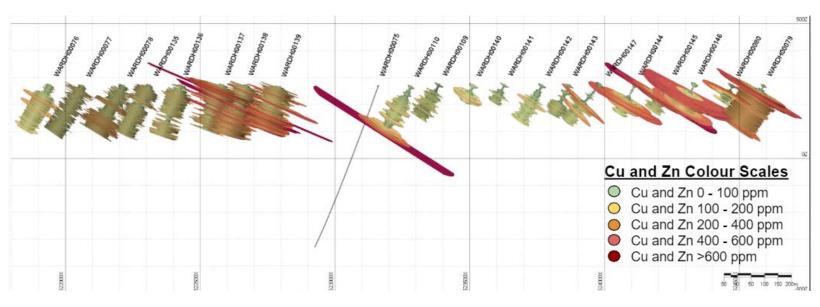

New Mineralised Belt

- <10km from existing world class operations
- 50+km of strike of previously unknown mineralised belt
- Never explored
- First holes all mineralised
- Recent geophysics multiple confirmed and new drill targets

Recent Drilling

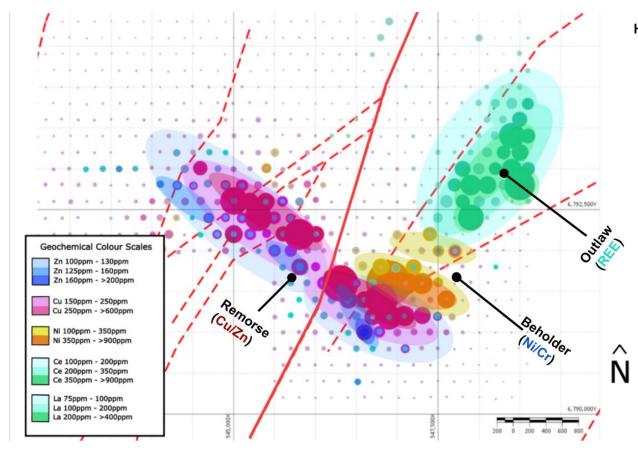

Highlights

- Grades elevated 4 times the normal values
- Multiple zones of enrichment suggest mineralising system such as VMS or skarn
- Multiple commodities present including: Rare Earths, Nickel and Tungsten throughout drilling

Highlights

- 4 kilometre base metal anomaly identified at the Remorse Target
- Extremely coherent results for surface geochemistry
- Geochemistry potentially correlates with a VMS signature
- Further surface sampling in progress
- Drilling program in final stages of planning

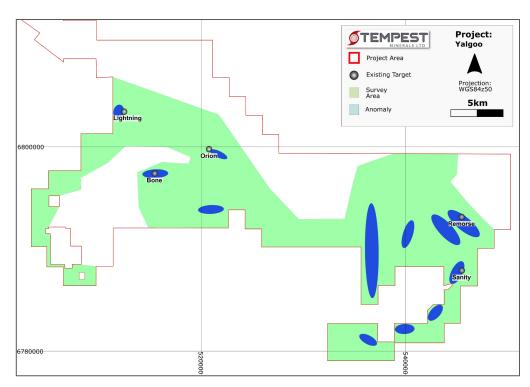

Region EM Survey - New Targets

Highlights

- Large scale high quality Electromagnetic Survey conducted mid 2023
- Preliminary results favourable with multiple exciting targets
- Correlation with several existing TEM drill targets
- Highly anomalous conductive signal observed at the Remorse base metal target

Mt Magnet

In The Shadow Of The Headframe

- \star >20km² TEM 100%
- New geology work | Gold and critical mineral potential
- Mining region | Low bar to exploration and development
- ★ 5 km from processing facility | Operating neighbours

Range: A Piece Of The Puzzle

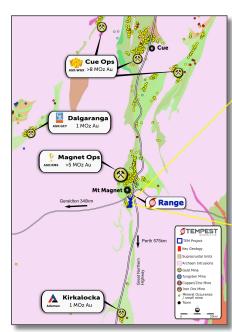

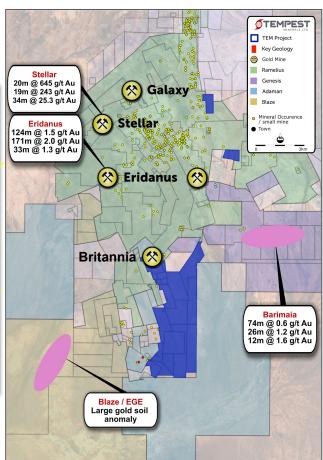

World Class Location

- Prolific gold region >6Moz historical production in Mount Magnet alone
- Adjacent success stories include:
 - o Ramelius ASX:RMS
 - o Genesis ASX:GMD
 - Westgold ASX:WGX
- Tenements adjacent to Ramelius' Mt Magnet operations to the north and west and Genesis to Fast

Surrounded by Gold

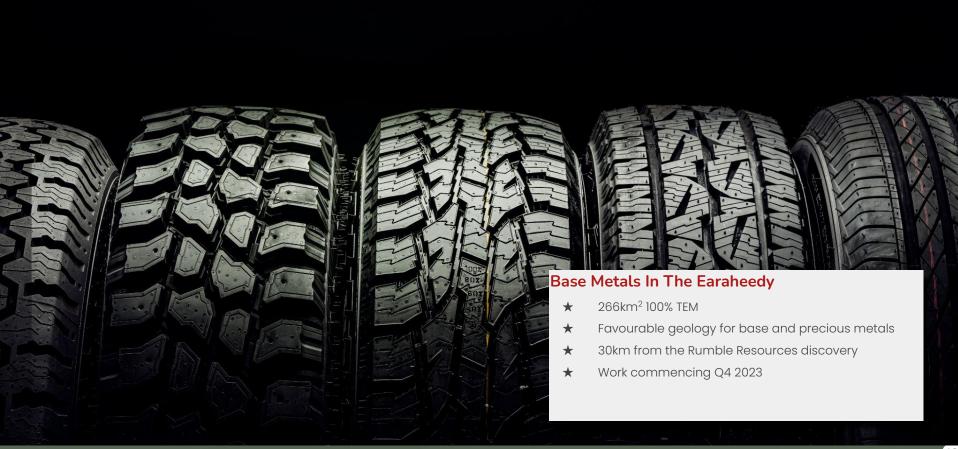

- New geological models for the region include Intrusion Related Gold which further increases the prospectivity of the area.
- Undocumented historic workings along strike from Britannia open pit.
- Wide spread mineralized shears, intrusives and alteration confirmed in recent field work.
- Target generation in progress with drill testing in 2024

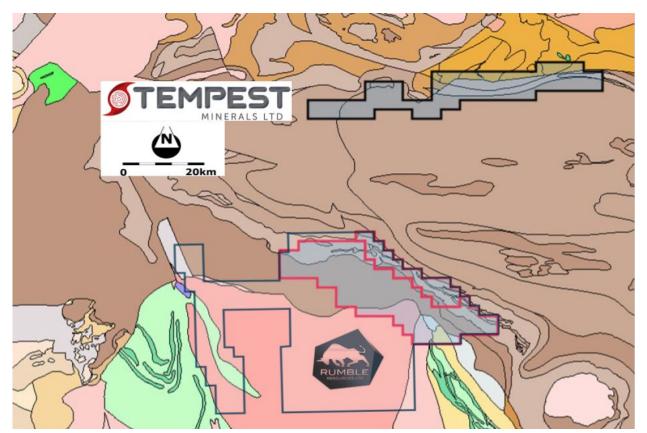

Five Wheels

Highlights

- Legacy exploration for iron has hints of base metals
- 50km of strike length
- Favourable geology
- Work commencing Q4 2023

Elephant

Mammoth Gold Target

- ★ Large area | 194km²
- ★ Exciting Region | Albany Fraser Range
- ★ Multi million ounce target potential

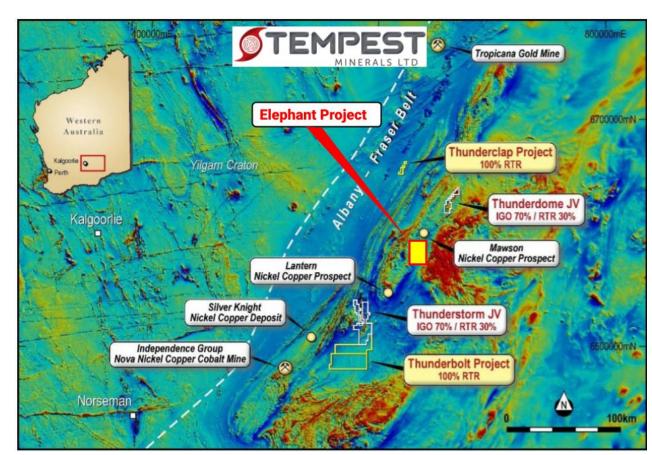

* Pending completion of conditions precedent and transaction

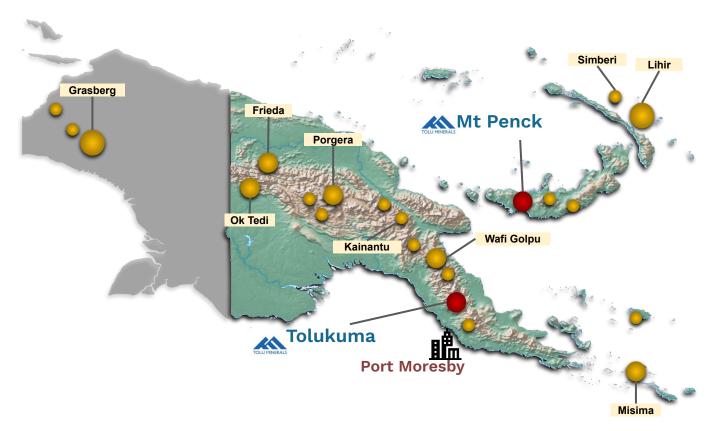

Highlights

- Large orogenic boundary structures
- Large geophysical target
- 8km soil geochemistry anomaly
- Work expected to commence in 2024

Papua New Guinea

Near Term Gold Production

Tolu Minerals Ltd

- Tolukuma Mine Development
 - JORC Resource (0.5m Oz)
 - Mine restart work in progress
- Mt Penck
 - High grade gold in historic exploration
 - Nearby deposits with similar geology
- Soon to be listed on ASX \$20M IPO
- TEM early investment

Deposit	Category	Tonnes	Grade Au (g/t)	Grade Ag (g/t)	Au (oz)	Ag (oz)
Tolukuma	Inferred	1,610,000	10	38	503,000	1,950,000

Source Tolu Minerals Prospectus / AMC IGR 202210

TEM confirms that it is not aware of any new information or data that materially affects the information included in the report above and, in the case of estimates of mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant report continue to apply and have not materially changed.

Lithium

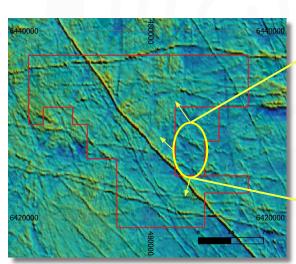

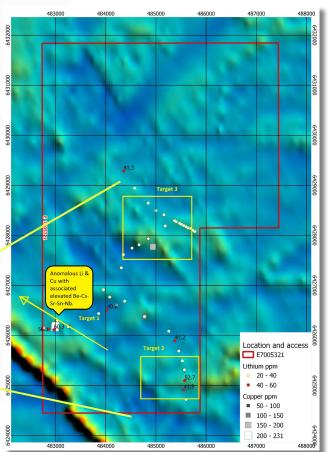

Lithium: The Electric Future

- ★ Australian hardrock lithium exploration
- African hardrock lithium exposure
- North American brine lithium exposure
- Assessing strategies to increase shareholder value in lithium

- 289km² 100% Tempest (29km² granted / 250km² pending)
- Highly accessible 100km from Perth
- Exciting soil and geophysical anomalies
- Highly prospective for lithium and other commodities
- South West Terrane greenstones and metamorphics

Lithium Exposure

 ASX listed Argosy Minerals Ltd (ASX:AGY) is the operator of the Tonopah Lithium Project in Nevada, USA. Tempest has an agreed milestone payment upon Argosy announcing a JORC compliant reserve or the commencement of commercial production of lithium product.

Tempest retains exposure to lithium and other commodities through through its current equity holding of 25 million shares in high profile Premier African Minerals.

FY2024 Conceptual Plan

Key Points

✓ Derisked multi-commodity multi-jurisdiction explorer developer

✓ Attractive priced with huge potential upside

✓ Exciting newsflow from ongoing exploration and corporate activity
