

Performance Options Update

- 24,500,000 Performance Options vested due to \$50,000,000 revenue in a 12-month rolling period threshold achieved
- Performance Options provide alignment between the DroneShield team and investors
- DroneShield on track for another record year by a large magnitude

DroneShield Limited (ASX:DRO) (“DroneShield” or the “Company”) advises that 24,500,000 Performance Options with 29 April 2027 expiry have vested, due to the Company reaching the required milestone of \$50 million of revenues within a 12-month rolling period.

Oleg Vornik, DroneShield’s CEO, commented “Performance Options provide an alignment between DroneShield’s team and its investors, enabling DroneShield to attract the best talent, whilst reducing the cash burden on the Company as it continues to rapidly grow.”

“We are thrilled to reach this \$50 million revenue 12-month milestone, and look forward to maximising performance and results for the remainder of this record year, and building a strong foundation for 2024 and beyond.”

Assuming all 24,500,000 Performance Options are exercised, the DroneShield capital structure will be as follows:

Class of Securities	Amount
Fully Paid Ordinary Shares	611,403,611
Class V Unlisted Options (\$0.25, 27 May 2024)	5,000,000
