About Volpara Health Technologies Limited (ASX: VHT)

Volpara Health Technologies makes software to save families from cancer. We help leading healthcare providers positively impact communities around the world. They use Volpara solutions to better understand cancer risk, empower patients in personal care decisions, improve and maintain quality, and guide recommendations about additional imaging, genetic testing, and other interventions.

Our focus on customer value means that our AI-powered image analysis enables radiologists to quantify breast tissue with precision and helps technologists produce mammograms with optimal image quality. In an industry facing increasing staff shortages, our software helps streamline operations and provides key performance insights that support continuous quality improvement.

A Certified B Corporation, Volpara is the preferred partner of leading healthcare institutions around the world. It maintains the most rigorous security certifications and holds over 100 patents and numerous regulatory registrations, including FDA clearance and CE marking. Since listing on the ASX in April 2016, Volpara has raised A\$132 million. Volpara is based in Wellington, New Zealand, with an office in Seattle.
