### Market commentary

Against a backdrop of growing investor concerns and considerable volatility impacting share markets across the world, global listed infrastructure edged higher (up +0.2% in A\$ terms) in October ahead of broader global and local equities which fell -1.0% (in A\$ terms) and -3.8% respectively. A positive start to the third quarter earnings season for infrastructure stocks, coupled with their generally defensive characteristics, aided the the asset class' outperformance.

Argo Infrastructure's portfolio gained +1.4% for the month with positions among the Electric Utilities and Communications (towers and data centres) subsectors contributing to the positive return.

We recently held Argo Infrastructure's eighth Annual General Meeting in Adelaide. Thank you to all those who attended. If you were not able to join us, materials from the AGM, including videos, are available on our website: [argoinfrastructure.com.au](https://argoinfrastructure.com.au).
