

SRJ awarded contract to supply flange integrity products to Southey

HIGHLIGHTS

- **SRJ awarded contract by Southey for the supply of BoltEx[®] flange clamps**
- **Contract value initially A\$292k(US\$192k)**
- **BoltEx[®] will support Southey in delivering asset integrity to an FPSO in West Africa**

SRJ Technologies Group (ASX: SRJ; “SRJ” or “the Company”) is pleased to announce the award of a contract for the supply of the Company’s flange bolt integrity equipment, BoltEx[®]. The contract has been awarded by Southey Contracting Limited for a maintenance campaign on an FPSO in West Africa for a global energy company.

The initial contract is for a range of BoltEx[®] products, valued at A\$292k (US\$192k) representing greater than 5% of current secured revenue for FY23 for the Company.

The order is subject to SRJ’s standard terms and conditions for a product sale as detailed on its website.

About Southey Contracting

Southey Contracting, one of Africa’s leading NDT and LGI service providers, delivers specialist access, inspection, maintenance and manpower supply services to the oil and gas and mining sectors across the African continent.

Comments from Chief Executive Officer Alexander Wood:

“Demand for our highly engineered and custom built BoltEx[®] solution continues to grow.”

“More and more companies globally that operate significant infrastructure and industrial facilities are becoming aware of the many safety and performance benefits that our range of flange integrity products offer.”

This announcement has been approved for release by the Board.

ABOUT SRJ TECHNOLOGIES

SRJ Technologies provides specialised engineering services and containment management solutions, elevating customer's integrity management performance.

We see real value in offering a wider range of asset integrity consulting services helping our customers to better understand the operational risks and where best to focus resource to minimise these risks.

SRJ's range of industry accredited products are designed to maintain and assure the integrity of pressure containment systems and therefore play an important role in the overall integrity of operating facilities.

Using pre-qualified service providers and manufacturers local to customer, SRJ is geolocation flexible and able to deliver a range of high quality, agile and cost-conscious solutions globally.
