

ASX Announcement

11 December 2023

## SPP Closing Soon

Canterbury Resources Limited (**Canterbury** or **Company**) refers to its announcement on 9 November 2023 relating to its capital raising by way of a non-underwritten share purchase plan through the issue of up to 22 million fully paid ordinary shares (**Shares**) at an issue price of 2.3 cents per Share (**SPP**)<sup>1</sup>.

**The SPP will close at 7:00 pm AEDT on Friday, 15 December 2023 in accordance with the timetable.**

Eligible shareholders, at the record date of 8 November 2023, wishing to participate in the SPP can apply by making payment directly by BPay® or Electronic Funds Transfer (EFT) in accordance with the details on the Application Form.

Eligible shareholders can access their personalised Application Form electronically on the Automic Share Registry website at [www.automic.com.au](http://www.automic.com.au) using their investor login or by contacting the registry on 1300 288 664 (within Australia), +61 2 9698 5414 (international) or via email at [hello@automic.com.au](mailto:hello@automic.com.au).

### Key Project Updates

**Briggs Project, Queensland (CBY 70%, Alma Metals (ASX ALM) 30% with earn-in rights up to 70%).**

The 2023 drilling program at the Briggs Copper-Molybdenum Project is nearing completion. In a recent release<sup>2</sup>, Canterbury noted that holes 23BRD0019 and 23BRD0020, testing the southeast margins of the Central Porphyry, intersected Cu-Mo mineralisation along their entire length other than in minor post-mineral intrusions. Assays confirmed higher-grade Cu-Mo mineralisation straddling the contact zone between the granodiorite intrusion and enclosing volcanic sediments. This zone has potential to support a higher-grade starter pit and four additional holes have been completed further testing it, with a fifth hole in progress. Assay results from these holes will be released as they are received over the next few months. Drilling to further test contact zone settings will recommence in early Q2 2024 aimed at supporting an upgrade in resource confidence sufficient to complete a Scoping Study in Q4 2024.

**Bismarck Project, PNG (CBY 40%, Rio Tinto (ASX RIO) 60% with earn-in rights up to 80%).**

The 2023 mapping and sampling program, targeting multiphase porphyry Cu-Mo-Au stock adjacent to or below extensive areas of silica-alunite lithocap, has been completed and results integrated with historical data. The program confirmed porphyry and skarn styles of copper mineralisation across multiple prospects, with Priority-1 drill targets outlined at Willie Headwaters and Ndokowai, and Priority-2 targets at Tapalow, Filliam and Tahi. Assessment of the logistics and schedule for a potential 2024 drill program testing the Priority-1 targets is in progress.

**Morobe Project, PNG (CBY 100%, Syndicate Minerals holds earn-in rights up to 70%).**

Syndicate Minerals Pty Ltd is funding up to USD 20 million of exploration across multiple Cu-Au porphyry prospects. Large Cu-Au resources have already been delineated at Wamum Creek and Idzan Creek, with potential extensions and various undrilled targets currently being prioritised by the JV partners. The Wamum Creek and Idzan Creek deposits are northwest of the massive Wafi-Golpu Cu-Au project (Newmont-Harmony Gold JV; Mineral Resources 27Moz Au, 8.7Mt Cu<sup>3</sup>) where granting of a Special Mining Lease (SML) and a Mine Development Contract (MDC) are expected to be announced soon by PNG Prime Minister, Hon. James Marape<sup>4</sup>.

**Authorised by Managing Director of Canterbury Resources Limited.**

## ABOUT CANTERBURY RESOURCES LIMITED

Canterbury Resources Limited (ASX: CBY) is an ASX-listed resource company focused on creating shareholder wealth by generating and exploring potential Tier-1 copper-gold projects in the southwest Pacific.

It has a growing portfolio of projects in Australia and Papua New Guinea that are prospective for large-scale porphyry copper-molybdenum-gold and epithermal gold-silver deposits.

The Company is managed by an experienced team of resource professionals, with a strong track record of exploration success and mining in the region. It frequently forms partnerships with other resource companies to defray risk and cost.

Joint venture partners currently comprise Rio Tinto, Alma Metals and Syndicate Minerals.

Canterbury’s portfolio includes multiple projects that are at the advanced exploration phase. Each project provides potential for the discovery and/or delineation of large-scale copper ±gold ±molybdenum resources.

Current Mineral Resource Estimates<sup>5</sup> (100% basis) are:

Project	Deposit	Category	Cut-off	Mt	Au (g/t)	Cu (%)	Au (Moz)	Cu (kt)
Wamum	Idzan Creek	Inferred	0.2g/t Au	137.3	0.53	0.24	2.34	327
Wamum	Wamum Creek	Inferred	0.2% Cu	141.5	0.18	0.31	0.82	435
Briggs	Briggs	Inferred	0.2% Cu	415.0	-	0.25	-	1,038
<b>Total</b>							<b>3.16</b>	<b>1,800</b>

**COMPETENT PERSONS STATEMENT**

*The Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the 'JORC Code') sets out minimum standards, recommendations and guidelines for Public Reporting in Australasia of Exploration Results, Mineral Resources and Ore Reserves. The information contained in this announcement has been presented in accordance with the JORC Code (2012 edition) and references to "Measured, Indicated and Inferred Resources" are to those terms as defined in the JORC Code (2012 edition).*

*The information in this report that relates to Exploration Targets, Exploration Results and Mineral Resources is based on information compiled by Mr Michael Erceg (Executive Director of Canterbury Resources Limited), who is a member of the Australian Institute of Geoscientists and a Registered Professional Geologist. Mr Erceg has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Erceg consents to the inclusion in the report of the matters based on their information in the form and context in which it appears.*

*The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Exploration Targets and Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.*

**DISCLAIMER**

*Forward-looking statements are statements that are not historical facts. Words such as "expect(s)", "feel(s)", "believe(s)", "will", "may", "anticipate(s)", "potential(s)" and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the Company's prospects, properties and business strategy. Our audience is cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events. The term "Canterbury" must be loosely construed to include the subsidiaries of Canterbury Resources Limited where relevant.*
