

23 January 2024

Appendix 4C & Quarterly Activities Report for the period ended 31 December 2023

- H1 FY2024 licence revenue of \$5.77m up 3.7% vs previous corresponding period (pcp). Total revenue of \$6.27m was 0.9% lower on pcp due to a 33.9% reduction in professional fees, reflecting significant change requests and implementation fees in H1 FY2023.
- Q2 FY2024 total revenue of \$3.16m¹ was up 2.4% vs pcp due to licence fee growth of \$119k offset by a decline in professional fees of \$45k.
- Q2 FY2024 licence revenue of \$2.93m¹ was \$119k or 4.2% higher vs pcp. Strong growth in FM licence fee revenue of 9.3% was partly offset by a temporary reduction in licence fees from a large APAC strata customer.
- Total ARR wins secured during H1 FY2024 was \$649k across Strata (\$163k) and FM (\$486k). A Middle East strata customer valued at \$145k ARR was lost at the end of Q2 FY2024 due to a consolidation of systems in their group.
- A large APAC strata customer is seeking to extend its contract term with Urbanise. The parties are looking to finalise the fee structure, expected within Q3 FY2024. A \$138k quarterly reduction on licence fees vs pcp has occurred over the past 3 quarters and is expected to be resolved as part of a new fee structure.
- Q2 FY2024 average monthly cash generated was \$82k.¹ Adjusting for the impact of the R&D rebate and employee severance average monthly cash used was \$18k. The cash flow benefited from high receipts from strong billings, improved collections and a R&D rebate.
- Closing cash balance of \$3.76m¹ (30 Sep 2023: \$3.52m) and no material debt.²
- Urbanise implemented initiatives to achieve 95% of \$2.4m targeted cash flow improvements over the 12 months to 30 September 2024³ and is expected to meet or exceed the target.
- Urbanise announced Board changes with the appointment of Darc Dencker-Rasmussen as Non-Executive Chairman and James Hourn as Non-Executive Director. This is in line with the previously announced plan to refresh the Board and consequently the resignation of Chairman Sam Cuccurullo and Non-Executive Director Tod McGruther from the Board.⁴

Urbanise.com Limited (ASX: UBN) (“Urbanise” or “the Company”) today provides a business update and quarterly cash flow report for the quarter ended 31 December 2023 (Appendix 4C).

¹Unaudited financial information.

²No debt other than annual insurance premium funding

³On 5 October, Urbanise announced that following a comprehensive operational review it would deliver a \$2.4m improvement in cashflow over the next 12 months.

⁴Refer to ASX announcements on 15-16 January 2024.

Urbanise is a leading provider of cloud-based Software-as-a-Service (SaaS) platforms, Urbanise Strata and Urbanise FM, which service the strata and facilities management sectors. Urbanise provides its solutions in Australasia, the Middle East, Europe and South Africa.

Q2 FY2024 Business Activity Update

Urbanise's CEO Simon Lee said: "During Q2 FY2024, we continued to execute sales in accordance with our growth strategy, with continued APAC Strata wins, increased sales momentum in APAC FM and a significant FM Outsourcer win in the Middle East.

"Urbanise's immediate growth strategy is to maximise market share in the ANZ and UAE regions and build on our small footprint in Asia and the UAE surrounds. Total contract wins for H1 FY2024 were \$649k ARR and are comprised of \$163k for Strata and \$486k for FM. Sales conversions have improved over the past half year but there is still work to be done to improve consistency and predictability of conversions. We continue to work on initiatives to reduce conversion lead time such as standardising sales documentation and process and offering a range of customer options for implementations.

"New sales are supported by initiatives to minimise churn and increase the use of reference customers. We have implemented regular system driven NPS surveys to monitor user sentiment, particularly for our high value, lower value APAC strata business. Our sales and implementation teams are operating key account management coverage for larger customers, generally Middle East and APAC FM. We expect early customer feedback on product and service sentiment will reduce risk of churn and improve customer references.

"A large APAC Strata customer is seeking to extend an existing agreement and have been in collaborative discussions with Urbanise to finalise fee structures and how Urbanise supports their growth strategies. We have experienced a reduction in fees whilst the fee structures discussion progresses but we do not expect that our profitability will be impacted going forward, under a new fee structure.

"We continue to work closely with Colliers Australia and have rolled out the FM platform across all states except for NSW. This final stage of the roll out is expected to be completed in H2 FY2024.

"We have executed significant cash flow improvements following our operational review in Q1 FY2024 to support our goal of achieving cashflow breakeven in FY2025.

"Finally, we have continued our program of Board renewal and recently welcomed James Hourn to the Board. James brings a wealth of experience in high growth Enterprise SaaS. I look forward to continuing to work closely with Darc Rasmussen in his new role as Non-Executive Chairman. I would also like to thank Sam and Tod for the support they have provided me and the management team over many years. During their time on the Board, Urbanise has achieved significant ARR growth, expanded its product capability and positioned the business for future growth."

Results

Urbanise reported \$3.16m of total revenue for Q2 FY2024, an increase of \$73k (2.4%) vs pcp. Total revenue included:

- \$2.93m of licence fees (Q2 FY2023: \$2.81m, 4.2% growth); and
- \$0.23m of professional fees revenue (Q2 FY2023: \$0.27m, 16.7% decline).

Q2 FY2024 licence revenue growth was \$119k or 4.2%, driven by:

- \$453k of licence fee growth from new and backlog contracts (\$322k), and organic growth from existing clients (\$131k); offset by
- \$334k reduction in licence fee revenue, driven by lost customers and reduced licence volumes from existing customers.

Cash closed at \$3.76m on 31 December 2023 with average cash generated of \$82k and underlying cash used of \$18k.

Cash flow improvements on track

On 5 October 2023, Urbanise announced that it expected to deliver a \$2.4m improvement in cash flows over the next 12 months following a comprehensive operational review. The improvements will support Urbanise's goal of achieving cashflow break-even in FY2025.

A significant proportion of the target has been implemented as at the end of 31 December and is summarised below:

Table 1: Cash improvement targets

12 Month Target	Target (\$000s)	Initiatives (\$000s)	% Implemented
Headcount Savings	1,082	1,082	100%
Non-Wage Overheads & Working Capital Improvement	1,345	1,214	90%
Total at Q2 FY2024	2,427	2,296	95%
Savings to be implemented in Q3 FY2024	-	131	5%
Total expected at Q3 FY2024	2,427	2,427	100%

Sales conversions and pipeline

In H1 FY2024, Urbanise secured \$649k in ARR wins which included Urbanise Strata ARR wins of \$163k and Urbanise FM ARR wins of \$486k.

The wins include eleven strata managers in Australia increasing Urbanise's footprint across small to medium strata managers in NSW, VIC and QLD. The wins also included four new customers in the Middle East.

Urbanise FM wins comprised of seven new customers across Australia and the Middle East. These customers included retirement villages, property managers and FM service providers and reflected the Company's focus on these key sectors.

Urbanise's immediate pipeline includes:

- **UAE-based strata businesses.** Urbanise is working on an opportunity with a large UAE based business with multiple portfolios for which Urbanise is well positioned in the tender process. In addition, Urbanise continue to pursue other opportunities to secure market share from smaller competitors with key differentiators being Urbanise's FM integration and ability to integrate into other systems.
- **Small to medium APAC strata customers.** Urbanise is generally recognised across the various strata community associations⁵ as a leading platform. The pipeline continues to steadily build with a consistent conversion rate. Almost all opportunities are securing market share from on-premise competitors.
- **Several large FM Outsourcer** opportunities in ANZ with interest in the FM product increasing due to the development completed for Colliers. These opportunities have a longer lead time as customers are likely to require integrations into other platforms. It is also expected that existing customers will provide organic growth based on their expansion plans.
- **Middle East FM** customers across UAE and Kingdom of Saudi Arabia. Customers are generally looking for improved solutions compared to existing software. In October 2023, Urbanise secured

⁵ SCA NSW, SCA QLD and SCA VIC

a large new contract with an existing FM outsourcer customer as they significantly expanded their client portfolio.⁶

- **APAC aged care providers.** Urbanise continues to build its profile in this sector through partners and trade shows. Generally, this pipeline includes potential customers without a technology solution. In January 2024, Urbanise signed a five-year agreement with RAAFA WA, a leading provider of retirement living and residential aged services in WA.⁷

The value of the total pipeline is several times the amount⁸ Urbanise needs to convert to achieve cash flow breakeven. Whilst not all opportunities are expected to convert, there is sufficient pipeline with a high probability of conversion.

Large APAC strata customer

Urbanise and a large APAC strata customer are seeking to extend the contract term and agree a new fee structure. Agreement is expected in Q3 FY2024. In Q2 FY2024, licence fees from this customer were reduced by \$138k vs pcp. This was offset by a \$33k reduction in support costs resulting in net profit reduction of \$105k. Urbanise expects an agreed new fee structure will not result in an on-going impact to net profit.

Board changes

As part of the Board refresh initiative previously announced at the AGM, on 15 January 2024, Urbanise announced Chairman Sam Cuccurullo and Non-Executive Director Tod McGrouther had stepped down from the Board, effective immediately. Mr Almero Strauss who has been on the Board since 2018, remains a Non-Executive Director.

On 16 January 2024, the Company announced the appointment of Darc Dencker-Rasmussen as Non-Executive Chairman and James Hourn as Non-Executive Director, effective immediately. Mr Rasmussen has been Non-Executive Director of Urbanise since 18 April 2023.⁹

⁶ [FMCO Testimonial](#)

⁷ [RAAFA and Urbanise FM partner](#)

⁸ This amount refers to the gap between ARR, professional fees and operating expenses that Urbanise needs to bridge to achieve breakeven.

Facilities Management

Q2 FY2024 FM licence fees were \$1,061k, an increase of \$90k or 9.3% vs pcp largely due to 192k of new and backlog contracts and organic growth. Licence fee growth was offset by lost customers (\$18k) from prior quarters and licence fee reductions (\$84k). This includes, \$51k relating to a customer reported in Q3 FY2023 and \$33k relating to various customers, that occurred during Q2 FY2024. Organic growth and licence reductions generally relate to FM service providers as they scale their operations.

Professional fees of \$131k for the quarter were \$28k higher vs pcp and relate to implementation of new contracts and change requests.

During H1 FY2024, Urbanise FM won 7 new contracts with \$486k of ARR, of which \$397k was implemented within the half.

Strata Management

Q2 FY2024 Strata licence fees increased by \$35k or 1.9% vs pcp driven by \$261k of new and backlog contracts and organic growth. Licence fee growth was offset by a temporary reduction in licence fees from a large APAC strata customer (\$138k) as well as lost customers from prior quarters (\$68k) and the current quarter (\$20k).

In addition, one Middle East strata customer valued at \$145k ARR was lost due to a consolidation of systems in their group. This will impact licence fees from Q3 FY2024.

Q2 FY2024 professional fees were lower vs pcp primarily due to significant activity in the comparison period.

In H1 FY2024, an additional 15 small customers (11 APAC, 4 Middle East) were won with total ARR of \$163k, half of which are expected to be implemented in Q3 FY2024.

Q2 FY2024 cash payments to suppliers and employees of \$4,844k were \$522k or 12.1% higher than pcp. The increase in payments was due to \$327k of annual licence fee delivery costs and \$195k from timing and lumpiness of payments between quarters. Employment costs were flat compared to pcp as severance costs during Q2 FY2024 (\$161k) were offset by \$168k of headcount savings compared to pcp.

Closing cash was \$3,764k and the average monthly cash generated was \$82k for Q2 FY2024. The underlying average cash used was \$18k after adjusting for the R&D tax rebate and severance paid to employees within the quarter. Table 12 sets out the cash flow for Q2 FY2024 vs pcp and the impact of exceptional items.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
