Healius announces a new commercial agreement between Agilex and SGS S.A., and new Melbourne Lumus Imaging clinics - partnering with Healthscope and Ramsay Health Care – open.

Healius Limited (ASX:HLS) is pleased to announce that Agilex has entered into a commercial agreement with SGS S.A., one of the world's largest laboratory companies, headquartered in Geneva, Switzerland. Agilex' focus on pre-clinical and phase 1 trial work will be an excellent fit with SGS's predominantly phase 2 and 3 existing network and will enable both Agilex and SGS to offer a global solution for Bioanalytical Analysis from Research and Development and pre-clinical work, to all 3 phases of in-human trials. The network includes laboratories in Australia, China, USA, France, Switzerland and Belgium and this partnership will enable Agilex to access new markets and participate in global growth for clinical trials.

Consistent with our strategy, Lumus Imaging continues to invest in new sites and is delighted to announce that its new clinic at Ramsay Health Care's Northern Private Hospital in Epping, Victoria is now open and its new clinic at Healthscope's La Trobe Private Hospital in Bundoora, Victoria will be opening on 12 February 2024.

Lumus Imaging's practice at La Trobe Private Hospital offers a full suite of imaging services, including MRI, and features the latest Siemens Multitom Rax Robotic X-ray system - the first of its kind in Victoria. The Multitom Rax offers multiple imaging modalities in a single system, including fluoroscopy, X-ray and full body weight bearing X-ray, and is particularly useful for orthopaedics and spinal surgery. Lumus Imaging is now also operating from the new Northern Private Hospital in Epping with a purpose-built, modern imaging clinic servicing the hospital.

As a longstanding provider of imaging services in the northern suburbs of Melbourne, Lumus Imaging is excited to continue to develop its relationships with Specialists at these two new hospitals. As a Group, Healius also appreciates the opportunity to continue our long-standing relationship with Northern Health.
