Forecasting to maintain unrestricted cash reserves of at least \$20m through FY24¹.

- The unrestricted cash balance as at 31 December 2023 was \$18.1m. This fell below the expected floor due to \$5.0m in outstanding payments due from customers. This was fully provided for as a doubtful debt in the 31 December 2023 Interim Report.
- The Company remains in discussions with the relevant parties regarding recovery of outstanding amounts.
- If not for the uncollected debtor amounts, this goal would have been achieved.

Focused on reaching a point of positive monthly operational cash flow and delivering positive adjusted EBITDA¹.

- Remains a key focus for the Company.
- Progress made during H1 FY24, and further opportunities identified to i) reduce cost through streamlining and right sizing of supporting systems, and ii) improve revenues via the delivery of key contracts and improved technology solution. The Company intends to pursue these opportunities through H2 FY24.
